

BLACK BRIDGE CLAMPS

Pipe alignment clamps 1" - 12"

- Quick and easy to use
- Combines accuracy with safety
- Instant centering
- A quality product at low cost
- Stainless steel clamping feet & wing bolt bearings

Black Bridge Clamps can be used for the welding of all kinds of materials such as carbon steel, stainless steel, duplex, super duplex and titanium

Due to its design, the Black Bridge Clamp ensures that the clamping forces are evenly spread round the pipe to be welded because the distance between clamping points are exactly the same. This is true for all pipe dimensions within the range of the BB Clamp (1" to 12")

The adjusting screws have stainless steel bearings, thus reducing the risk of carbon contamination and corrosion.

The arms are fabricated from steel which allows a clamping force to meet the requirements for all pipe dimensions within the range of the BB Clamp.

The welding of pipe to pipe and pipe to fittings is easily performed with BB Clamp.

PART No.	PIPE DIAMETER IMPERIAL	PIPE DIAMETER METRIC	WEIGHT KG / LBS
BBC2	1 - 2"	25 - 65	1.5 / 3.50
BBC6	2 - 6"	50 - 168	3.75 / 8.0
BBC12	5 - 12"	127 - 325	7.50 / 15.00
