

# HIRISE<sup>TM</sup>

# HiRise™

Attractive. Adjustable. Affordable.

The next generation of sit-stand desks.

Stand up for a healthier lifestyle and a workspace as individual as you are.

- Single and double-sided bench desks
- Robust steel frame for supreme stability
- 4 height memories and digital display: fit to left or right
- Anti-collision action with auto-reverse
- Soft start/stop for smooth movement
- Optional screens for both desk types
- 5-year warranty
- Plug 'n' go

## Perfect Positioning

Humans weren't designed to sit for long periods. Moving regularly to vary posture is healthy, reduces fatigue, and can boost productivity.

HiRise™, our electronic height adjustable desks, offers the flexibility to work the way *you* want.

At the touch of a button, move quickly and effortlessly between sitting and standing positions.

Tops available in all standard Sven finishes and with either cable ports or scalloped rear edges for easy cable access.

Complement your HiRise™ installation with matching storage from our comprehensive ranges.

## Precision Engineering

Built to last, HiRise™ features sturdy steel frames with Variable Shim Technology™ for optimum stability at any height.

A soft start/stop avoids any jerky movement, while anti-collision programming guards against accidental injury or damage.

Sensing an obstruction, an automatic cut-off stops and reverses the top. Ganging brackets for uniform anti-trap safety spacing are available for double bench desks.

Designed with durability in mind and virtually noiseless, HiRise™ combines precision construction and anti-vibration top mountings with a smooth-running mechanism incorporating needle roller bearings.

don't just sit: stand with Sven
