**Machine Covers Limited has been awarded accreditation from Alcumus SafeContractor for achieving excellence in health and safety in the workplace.**

Alcumus SafeContractor is a leading third party accreditation scheme that assesses the health and safety arrangements, policies and qualifications of contractors. The scheme recognises extremely rigorous standards in health and safety management.

Alcumus SafeContractor is used by thousands of organisations in the UK, from SMEs to FTSE 100 companies. Many major clients accept the scheme and the SafeContractor certificate as confirmation of competency in health and safety practice.

To achieve SafeContractor accreditation, businesses must undergo a thorough examination of their health and safety procedures and their track record for safe practice. Those companies meeting the high standard are included on a database that is accessible to registered users only.

Organisations that sign up to the scheme can access the database, enabling them to assess potential contractors prior to selection. These clients agree that, as users of the scheme, they will engage only those who have received accreditation.

**Machine Covers Limited applied for SafeContractor accreditation to demonstrate the company's commitment to safety and believes that it will be viewed extremely positively by both existing and potential customers.**

### A few words from our Director

*“As a small business working with some very large, blue-chip organisations, we need to show that our health and safety policies and procedures are of the highest standard. Having already achieved ISO 9001 and OHSAS 18001, we felt that SafeContractor was the next step, and we are very pleased to be awarded accreditation.”*

Greg Powles, Director of Machine Covers Limited
