## FOX Wall Box

### Recessed Hose Union Tap Enclosure

The **FOX Wall Box** provides a secure enclosure for the installation of an external water supply hose union bib tap for both domestic and commercial installations. Suitable for both new build and upgrade applications.

#### Key Features

- Designed for installation in wall recess to give flush fitting face—effectively no projection from wall when closed.
- Can be face mounted if preferred e.g. existing installations.
- Powder coat finish over galvanised steel welded construction. Range of standard colours available
- Quarter turn latch accepts standard padlock for security (padlock not supplied) and robust face-mount hinges giving 180° opening.
- Flush to Face recessed wall installation. Quality door hardware

# FOX Wall Box

## Recessed Hose Union Tap Enclosure

### Detailed Description:

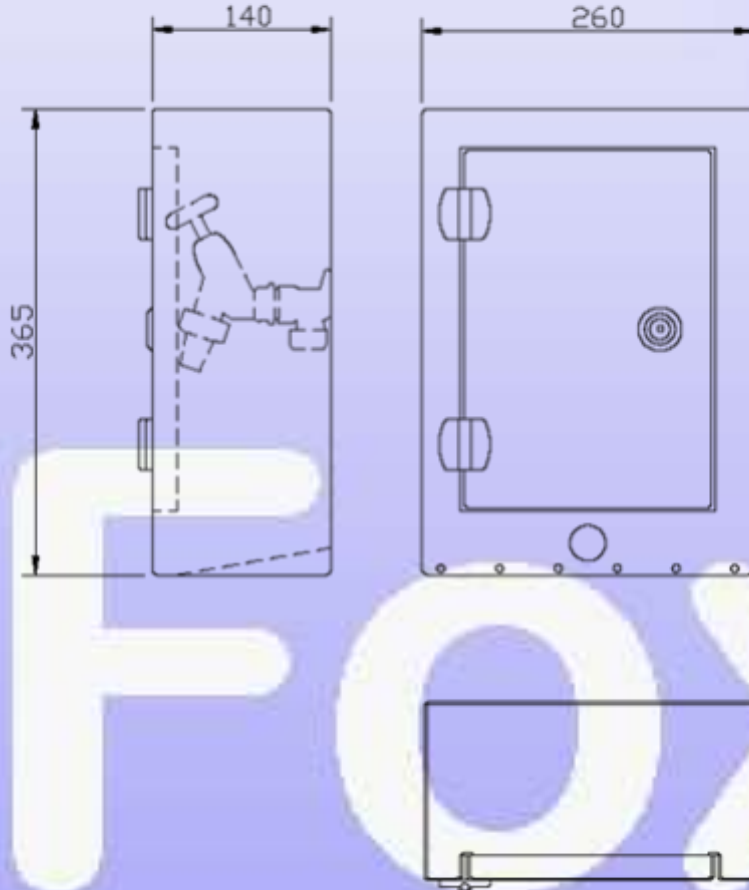

**FOX Wall Box.** Wall mounted hose union tap enclosure designed for flush or face-mount installation. Powder coat finish over galvanised steel welded construction. 1/4 turn latch to accept padlock (not supplied). Access door opens to 180°. Free draining to front face. Can be supplied as housing only or with tap & wall plate fitted.

*The installer is responsible for ensuring the suitability of the specification for the application.*

**Standard parts,** alternative configuration on request:
