Require a Larger Gutter...?

We also stock a comprehensive range of 170mm (6½ inch) PVC Gutter with 110mm (4-inch) Downpipe. Ideally suited for larger commercial and agricultural buildings. Available in Black and Grey from stock.

Contact us for a Product List and pricing, or visit our website.

Require Larger still...?

And if you require an even larger capacity gutter, we are also able to supply a 200mm (8-inch) PVC Gutter with 160mm (6-inch) Downpipe. Primarily for large commercial and industrial applications, this is one of the largest capacity rainwater systems available in the UK. A fully engineered system able to withstand heavy snow loading and wind uplifts for even the most exposed and remote buildings. Available in Black and Grey.
