

Somnium Signs Ltd

A decorative graphic consisting of a series of colored circles (grey, teal, green, orange, red) arranged in a semi-circular pattern above a horizontal bar with a rainbow gradient (teal, green, yellow, orange, red).

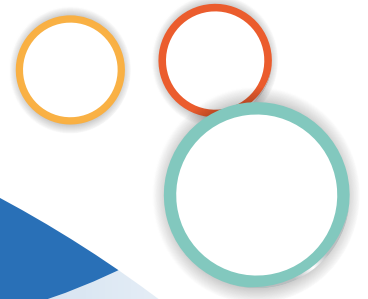

SOMNIUM SIGNS PROMOTING YOUR BUSINESS

A decorative graphic consisting of a horizontal bar with a blue gradient, transitioning from light blue to dark blue.

Signage, Display and Print Solutions

Somnium Signs Ltd

WHO, WHAT, WHY...

At Somnium Signs we offer an extensive selection of internal and external signage. We also specialise in window graphics, way finding, poster cases, exhibition and display graphics, banners, labels, stickers and much more.

Whilst Somnium Signs is a relatively young company, we are in partnership with an established manufacturer, and have over 60 years of combined experience within the print, design and sign industry.

This enables us to offer a full design capability, and create design concepts which will reflect your business, using the latest print technology.

Somnium Signs are able to offer competitive pricing for high quality products.

We also understand the importance of quality and delivery which will allow us to provide you with complete customer satisfaction.

SIGNAGE MATERIALS

CHOOSING THE RIGHT MATERIAL.

Our products and services include design consultation, advice on application and best materials for the job. We pride ourselves on quality and value, using only the best tried and tested materials from major manufacturers, the most common materials are:-

Self-adhesive

A gloss finish, adhesive material with a peel off backing for easy fixing. Ideal for long term displays with the highest degree of brilliancy, stability and durability indoor and outdoor with AGF applied. Application onto flat and semi curved surfaces. Must apply to a clean, dry, smooth surface for best results. Available in various strengths.

Rigid Plastic

Rigid PVC is available at 1mm and 3mm thick. Is an economic and very versatile material that is strong and rigid with good impact strength and low moisture absorbency. Suitable for indoor and outdoor use.

Rigid Plastic with a Self-adhesive Backing

1mm or 3mm thick PVC with a self-adhesive backing for interior use on smooth surfaces.

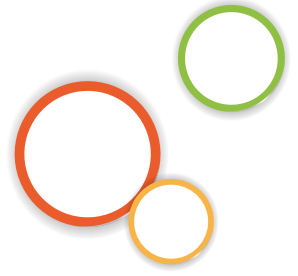

Photoluminescent

Glow in the dark photoluminescent signs that are ideal for fire exit and fire equipment signs.

Photoluminescent Self-adhesive

Glow in the dark signs ideal for fire exit and fire equipment signs. These are complete with a self-adhesive backing ideal for internal use on smooth surfaces.

3, 5, 8,10mm Foamex

Foamex™ is available at 3mm, 5mm or 8mm thick. Foamex will not crumble away, and has a completely flat and consistent thickness. It is very cost-effective, and has good durability. Suitable for indoor and outdoor use.

Aluminium Composite Panel

Aluminium Composite Panel (ACP) is available at 3mm thick. The Aluminium Composite Panel consists of two aluminium sheets which are chemically and mechanically bonded to a polyethylene core. A very flat, light weight, strong sheet that has high impact strength and is weather resistant; it is a premium signage material. Available in white or grey back and with or without rails. Has the highest durability. Has NO scrap or theft value.

Zinctec

1mm thick steel sheet which is zinc coated, ideal for external temporary signage.

Traffic Signs

RA2 reflective material that is mounted on a 3mm aluminium plate.

Signs with a Channel

Signs with channel on the back are designed for being fitted to posts.

We also use other materials such as magnetic media, poster paper, rollerbanner media and coloured vinyls the list goes on but above is the main and frequently used every day. We will find the right choice for you and your needs.

GENERAL SIGNAGE

At Somnium Signs we believe that first impressions count, enhancing and co-ordinating your brand identity for the interior and exterior of your workplace gives a strong presence and helps to attract the right customers from Parking Management Signs and Way-Finding to Sign Panels and Convex Monolith systems to tray signs, illuminated and non-illuminated the choice is vast.

HEALTH & SAFETY SIGNS

Ensure all your Health & Safety signs are up to date and relevant to the hazards as they minimise the risk of an accident occurring in your workplace and are universally understood.

At Somnium Signs we pride ourselves on being at the forefront of new signs that not only meet the latest legislation, but are manufactured from materials developed for specific applications, offering advanced performance and/or aesthetic refinement. All of our safety signs are available in a vast range of sizes, materials and messages for internal and external use.

These consist of the following:

Hazard Identification Signs

Prohibition Signs

Mandatory Signs

Fire Safety Signs

Fire Exit Signs

Information Signs

Safety Clothing (PPE) Signs

Construction Signs

First Aid Signs

Smoking Signs

Access Awareness Signs

Tactile & Braille Signs

Recycling Signs

Office door signs

Carpark signs + Many more...

EXHIBITION & DISPLAY GRAPHICS

If you're organising an exhibition, or a display stand and need some help with Exhibition Stand Graphics, or you would just like to print them.

Our graphics team have the capability to produce display graphics for almost any type of application. We can print direct onto rigid or flexible materials and we also offer replacement graphics for most types of portable displays including banner stands and pop up stands. All our exhibition display graphics panels are printed and finished in house to ensure the very highest quality of service.

WINDOW GRAPHICS

A cost effective way of advertising your business, products and services.

Window graphics provide decoration and free advertising, can also give privacy where needed, security and also an important health and safety consideration.

Frosted/Etched Glass Effect Vinyl

Frosted/Etched glass effect Vinyl can be used to create privacy, subtly advertisement for your company.

Health and Safety regulations state that large areas of glass have to be marked to prevent people walking into them so with an etched glass effect window this should prevent this.

Digitally Printed Window Vinyl

Full colour and high resolution print. This type of window graphic is designed to be eye-catching and durable. Various types of vinyl can be used depending on the application and length of time used.

One Way Vision (Contra Vision) Window Vinyl

This window vinyl allows you to display and advertisement or your company without totally blocking out the light or vision from within.

BRANDED WORKWEAR

Printing your designs onto special vinyl and then applying the vinyl onto the garment using a commercial heat press. It enables full-colour images to be printed very quickly and is a great option for promotional clothing.

If your design is a special shape we can use our cutting machines to cut it to shape, and then apply the design in its unique shape rather than a full square or rectangular.

PVC & MESH BANNERS

PVC BANNERS

For custom banner printing that's fast and easy, we set the standard. PVC and mesh banner options allow you to create high-impact print that stays vibrant, whatever the weather - optional eyelets mean that hanging your banner is easy.

- Mid-weight laminated vinyl
- Bright white print surface
- Flexible
- Water and tear resistant
- Excellent durability
- Print surfaces is a non-glare matt capable of excellent image quality

MESH BANNERS

Digitally printed mesh banners are a great banner option for use in outdoor areas that are susceptible to high winds such as large fences or scaffolding. Our mesh banners are printed in full colour, high resolution print using fade and scratch resistant solvent ink.

We can print mesh banners to any size and can be finished with eyelets and either hemmed or clean-cut edges.

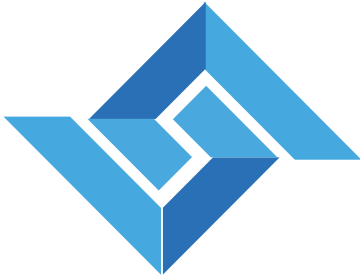

ENGRAVING

We offer custom engraving services to meet your precise requirements and nothing is too complicated for our craftsmen to manufacture to the highest possible standards. This means that we can supply a total package to commerce, industry and private clients.

The permanently engraved surface has the advantage of being tamper proof, and is less easily damaged by general cleaning and maintenance.

Manufactured in a multitude of colours and thicknesses, our signs and labels are ideally suited to most situation. They're weather proof and are great for internal or external use.
