

## CONVEYING SYSTEM CONTROLS

**TOUCH-SYS:** Central controller with PLC server, touch-screen panel and full colour graphic display providing easy set up and management of your material conveying system. It's modular open system means that it is easily expanded for the connection of additional vacuum pumps and material receivers, as well as dryers, silos, IMM's and any other machinery that you wish to control.

### EXTENSION:

#### TOUCH-SYS

Up to a maximum of 80 modules

Example: No.4 vacuum pumps, with a maximum total of 60 material receivers

#### TOUCH-SYS EVO

Up to a maximum of 200 modules

Example: No.10 vacuum pumps, with a maximum total of 180 material receivers

### STANDARD FEATURES

- PLC Server
- Full colour graphic touch-screen (5", 10" 15")
- Dedicated software for management of conveying system
- Painted steel control cabinet
