Global energy-related CO_2 emissions grew by 1.4% in 2017, reaching a historic high of 32.5 gigatonnes

HOW CAN YOU IMPROVE ENERGY PERFORMANCE?
ENHANCE YOUR KNOWLEDGE OF ENERGY MANAGEMENT WITH SGS ACADEMY

SGS ACADEMY

SGS

SGS offers a variety of training courses to help you comprehend and comply with the requirements of ISO 50001:2018 so you can implement, transition or improve your energy management system to ensure that your organisation is effectively managing energy consumption, reducing greenhouse gas emissions and realising cost savings.

ISO 50001:2018 AWARENESS TRAINING COURSE – 1 DAY

This course provides participants with an overview of the purpose and requirements of ISO 50001:2018 as a tool for the management of energy and improvement of energy performance. It is useful as an introduction for anyone involved in the development, implementation or management of an ISO 50001 system.

ISO 50001:2018 INTERNAL AUDITOR COURSE – 2 DAYS

Participants who attend this course gain the knowledge and skills needed to assess and report on the conformance and effective implementation of an energy management system in accordance with ISO 19011.

ISO 50001:2018 SENIOR MANAGEMENT BRIEFING – 2 HOURS + Q&A

This short on-site seminar is essential for management teams to understand their roles and responsibilities in line with ISO 50001 requirements and legal obligations, as well as gain an appreciation of how the new standard will impact their organisation.

ISO 50001:2018 TRANSITION COURSE – 1 DAY

The purpose of this course is to equip participants with an understanding of the differences between ISO 50001:2012 and ISO 50001:2018, for anyone involved in the changes arising as a result of transitioning to the new version of the standard.

MOVING FROM ESOS TO ISO 50001:2018 – ½ DAY

Participants who complete this training will understand how to integrate energy consumption and energy efficiencies gleaned from ESOS audits into an ISO 50001 energy management system, ensuring energy saving opportunities are continually planned, implemented and checked to drive ultimate efficiency through continual improvement.

ISO 50001:2018 LEAD AUDITOR COURSE – 5 DAYS

Designed to equip participants with the knowledge and skills required to perform consultancy or first, second and third party audits of EnMS against 50001:2018 in accordance with ISO 19011 and ISO 17021. This course is accredited by the Chartered Quality Institute (CQI) and the International Register of Certificated Auditors (IRCA). Delegates are required to have an understanding of energy management principles prior to attending this course.

ISO 50001:2018 LEAD AUDITOR CONVERSION COURSE – 3 DAYS

This course is designed to provide auditors with experience in other management systems such as ISO 9001 or ISO 14001 with the knowledge of ISO 50001:2018 principles lead auditor skills in line with energy management system requirements.

ENERGY INSTITUTE LEVEL 1 – CERTIFICATE IN ENERGY MANAGEMENT ESSENTIALS – 5 DAYS

A comprehensive 5-day course providing a practical overview of energy management fundamentals. This course is provided in partnership with the Energy Institute and provides delegates with the essential knowledge and skills required to save energy, reduce operational costs, reduce carbon emissions, comply with legislation and meet your organisation's environmental goals. This course is also available as a 60-hour online course.

ENERGY INSTITUTE LEVEL 2 – ENERGY MANAGEMENT PROFESSIONAL QUALIFICATION – 200 HOURS

This modular 200-hour online course is provided in partnership with the Energy Institute and is aimed at professionals with at least two years relevant experience in energy management or related areas. The course covers the essential technical theory, as well as providing an in-depth understanding of the managerial and commercial aspects of an energy management role. Based on their background and experience, participants are able to select their preferred modules from a wide range of topic areas.
