374 million non-fatal work-related injuries and illnesses each year

ISO 45001:2018 TRAINING WITH SGS
SGS ACADEMY

BE THE BENCHMARK

SGS

SGS offers a variety of training courses to help you comprehend and comply with the requirements of ISO 45001:2018, so you can implement, migrate or improve your management system to ensure that your organisation continues to reduce accidents and ill-health in the workplace. ISO 45001:2018 was published in March 2018 and the new standard replaces OHSAS 18001:2007.

ISO 45001:2018 AWARENESS TRAINING – 1 DAY

This course provides an overview of the management systems approach and the purpose and requirements of ISO 45001. Students will learn the similarities between ISO 45001 and the OHSAS 18001 standard and understand the new elements.

ISO 45001:2018 IMPLEMENTATION TRAINING – 3 DAYS

Delegates will develop an understanding of the requirements of the latest version of ISO 45001:2018. The course will ensure learners are able to communicate any changes in OHS specific requirements arising as a result of migrating from OHSAS 18001:2007 to ISO 45001:2018 (if relevant), and understand how to implement ISO 45001:2018 into any organisation.

ISO 45001:2018 SENIOR MANAGEMENT ROLES AND RESPONSIBILITIES BRIEFING – 2 HOURS

This short seminar is perfect for management teams within any organisation either implementing or migrating to ISO 45001:2018. It provides participants with an understanding of how the standard impacts their organisation and their roles and responsibilities within the management system.

ISO 45001:2018 INTERNAL AUDITOR TRAINING – 2 DAYS

Students who take this course will develop the knowledge and skills required to perform an internal audit of a H&S management system based on ISO 45001:2018.

ANNEX SL - MODULE 1 TRAINING – 1 DAY

For IRCA registered auditors, successful completion of both Module 1 and Module 2 must be achieved to migrate to ISO 45001. (If a learner has already successfully completed the Annex SL Module 1 as part of the ISO 9001:2015 or ISO 14001:2015 Auditor Transition course, they do not need to retake this Module.)

ISO 45001:2018 AUDITOR MIGRATION (IRCA MODULE 2) TRAINING – 1 DAY

This course provides participants with an understanding of the requirements of ISO 45001:2018. It is useful for anyone involved in the changes arising as a result of migrating from OHSAS 18001:2007 to ISO 45001:2018, and will also qualify IRCA registered candidates to migrate to the new standard if Module 1 has been successfully completed.

ISO 45001:2018 AUDITOR/LEAD AUDITOR TRAINING – 5 DAYS

Upon completion of this five-day course, participants will have the knowledge and skills to perform first, second and third-party H&S audits against ISO 45001:2018 criteria. This course is accredited by the Chartered Quality Institute (CQI) and the International Register of Certificated Auditors (IRCA). It is highly recommended that delegates have an understanding of H&S Management Systems prior to attending this course.

INTEGRATED MANAGEMENT SYSTEMS INTERNAL AUDITOR TRAINING – 3 DAYS

This course provides students with the knowledge and skills to perform integrated management systems audits based on the requirements of ISO 9001:2015, ISO 14001:2015 and the new ISO 45001.
