BESPOKE TINS

Design & Innovation

WHATEVER YOU'RE LOOKING TO ACHIEVE OR CREATE, OUR TEAM ARE ON HAND TO HELP. FROM ELABORATELY SHAPED TINS, TO UNIQUE DESIGNS.

THE ONLY LIMIT IS YOUR IMAGINATION.

We offer a fully inclusive package, taking your product from concept through to design, manufacture and delivery.

Whether you're providing your own design, or using our team, you can be assured of the same high quality service and finish to your packaging.

Our Commitments

TINWARE DIRECT IS COMMITTED TO ETHICAL TRADING, ENSURING WE ARE SOCIALLY, ECONOMICALLY, AND ENVIRONMENTALLY RESPONSIBLE. WE SUPPORT AND RUN A NUMBER OF INITIATIVES TO REDUCE OUR IMPACT ON THE PLANET. HERE ARE A FEW OF OUR COMMITMENTS.

We work with One Tree Planted funding reforestation around the globe. Not only does this help to offset our unavoidable carbon emissions, it also offers great environmental and social benefits, providing biodiversity, jobs and food to communities, climate regulation and helps to maintain the Earth's natural water cycles.

Tinware Direct is a member of Sedex. An organisation which helps companies manage responsible sourcing in their supply chain. Sedex supports ethical trading, ensuring labour rights, health and safety standards and the protection of the environment.

As members of the MPMA, we help support the sustainability of metal products with the aim of reducing the number of products which go to landfill. Did you know that 79.5% of steel in the UK is recycled, the highest recycling rate of any packaging material?

PHASE OUT SINGLE USE PLASTICS

As a packaging company we understand the impact packaging can have on the environment. We are committed to phasing out all single use plastics in our packaging. In addition, we only sell products which are recyclable.

Sourcing Materials

We are committed to reducing the environmental impact of our products ensuring we source through recognised standards such as FSC approved, using recyclable material wherever possible and reducing chemicals and plastic from manufacture.

Our Supply Chain

As a company we support the development of environmental standards in the countries we operate in through our memberships as well as working direct with our suppliers to ensure their standards match our own.

Office Initiatives

Our environmental commitments don't just end at our supply chain. We run a number of office initiatives designed to reduce our environmental impact and to make our teams think about theirs. These include recycling schemes, reducing waste, replacing power hungry equipment, installing sensor lighting and encouraging the use of public transport for visiting customers and events.

Quality

We pride ourselves on having attained ISO 9001, a certified quality management system (QMS) for organisations who want to prove their ability to consistently provide products and services that meet the needs of their customers.

Why Tin?

THERE ARE MANY REASONS TO CHOOSE METAL PACKAGING FOR YOUR PRODUCT. WE'VE LISTED A FEW OF OUR FAVOURITES.

- Safe, clean and non-toxic for your products
- The highest recycling rates of any packaging material
- Re-usability leading to long-term brand exposure with your customers
- Visually superior finishes in comparison to other packaging
- Create complex and eye catching shapes and designs
- Customers perceive tin packaging as high quality giving your product a premium feel
- Great protection for the product inside

Creative Process

WHATEVER YOU ARE LOOKING TO ACHIEVE OUR TEAM ARE ON HAND TO HELP AND ADVISE.

DESIGN & DEVELOPMENT

Decide on the shape, size and features of your tin. Our design team will help to ensure your product stands out on the shelf above your competitors. If you have your own design already, our team will be on hand to provide artwork advice to ensure the best finish for your product.

DELIVERY

We manage all aspects of delivery to your designated location, including customs clearance, transport and insurance for your packaging.

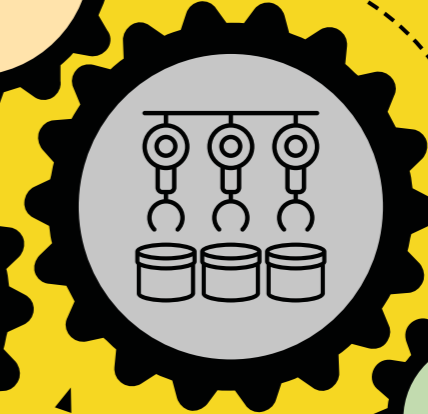

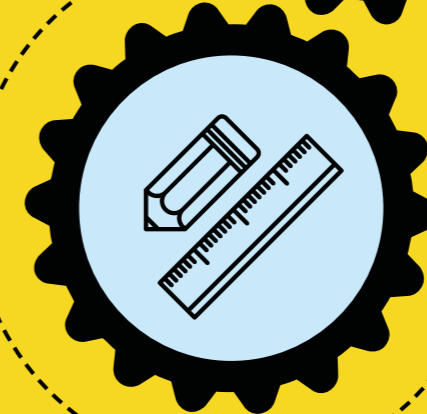

CONCEPT

Talk to our team about your packaging plans and objectives. Our team will be able to advise and provide the best solution for your product.

DESIGN & DEVELOPMENT

Decide on the shape, size and features of your tin. Our design team will help to ensure your product stands out on the shelf above your competitors. If you have your own design already, our team will be on hand to provide artwork advice to ensure the best finish for your product.

MANUFACTURE

Once your prototype is approved the manufacturing process will begin.

PROOF SIGN-OFF

Once your artwork is complete, our team will provide you with a physical prototype of your end product, so you can proof it and make amendments if needed before manufacturing.

Finishes, Enhancements & Closures

NOT SURE WHERE TO BEGIN? WE'VE INCLUDED SOME OF THE MOST POPULAR ENHANCEMENTS AND FINISHES.

Finishes

Gloss

Produce a vibrant look using a gloss finish.

Matte

Generate a smooth textured finish using matte lacquers.

Spot Gloss

Combine a matte finish with gloss highlights for elegance.

Metallic

Harness the natural properties of metal to add a metallic finish to your inks.

Silver & Gold Sandblast

Add texture and intense richness to plain finishes.

Reflex Gold

Create a touch of luxury to your tin with gold enhancements.

Enhancements

3D Emboss

Use a 3D emboss to add new dimensions to your tin. The embossing process allows you to raise different heights depending on the design.

Stacking

The durability of tins make them strong enough to stack, helping with storage handling and point-of-sale display.

Embossing & Debossing

Add texture to your tin or highlight key features such as a logo or image to make your tin stand out.

Windows

Add windows to let customers see your product inside to help drive purchase whilst maintaining packaging strength.

Closure Options

Slip Lids

These lids slip over the main body of the tin. Traditionally they have an outward curl, but you can also create an inward curl with a slightly smaller neck on the tin to get a flush look.

Plug Lids

This lid sits directly inside the tin itself and creates a flush finish between body and lid.

Click Clack

A unique lid style with clasps which open when the lid is pushed from the top and closes again by squeezing the sides.

Internal Desiccant

A desiccant can be added internally to a lid to absorb moisture and help keep a product fresher for longer.

Lever Lid

Use this lid type to create a snug seal for your product.

Clip Lid

Using a special sealant inside the closure, this lid is great for keeping the product inside fresh.

Sliding Lid

The lid sits on runners and has an inbuilt clip to keep the lid shut.

Hinged Lid

With the lid on hinges, you can choose from either a slip style lid or plug lid.

“AS A LONG TIME SATISFIED CUSTOMER OF TINWARE DIRECT, I CAN SAY THAT THE SERVICE HAS BEEN IMPECCABLE, WITH NO MISSED DELIVERIES OVER MANY YEARS AND WOULD RECOMMEND THEM WITHOUT RESERVATION, TO ANYONE LOOKING FOR A RELIABLE AND WELL-PRICED TIN SUPPLIER.”

CAMPBELLS SHORTBREAD

“THE CUSTOMER SERVICE YOU RECEIVE FROM TINWARE IS EXCEPTIONAL, YOU CAN TRUST THAT THEY WILL DO THEIR BEST FOR YOU AND YOUR PRODUCT, AND THEY LET YOU KNOW WHAT’S HAPPENING EVERY STEP OF THE WAY.”

THE PEMBROKESHIRE BEACH FOOD COMPANY

“CLOSE COLLABORATION IS A KEY ELEMENT FOR ANY PROCUREMENT TEAM –TINWARE DIRECT WERE ABLE TO MEET THIS REQUIREMENT AND ALSO OFFERED US THE PERFECT PACKAGING SOLUTION FOR OUR PRODUCT AT A PRICE WITHIN OUR BUDGET. THEY JUST TICKED ALL THE RIGHT BOXES.”

LEE FILTERS

Our Company Mission

TO CREATE PACKAGING SOLUTIONS, DEVELOPED AROUND YOUR PRODUCT AND UNIQUE BRAND VALUES, DESIGNED TO ENSURE YOUR PRODUCT ENGAGES WITH CONSUMERS AT POINT OF SALE.

AT ALL TIMES WE AIM TO EXCEED YOUR EXPECTATIONS OFFERING AN UNRIVALLED CUSTOMER SERVICE AND A COMMITMENT TO THE SUCCESS OF YOUR PRODUCT.

WHEN YOU SUCCEED, WE SUCCEED.

Our Core Values

Assuring Quality

We work with some of the most prestigious brands in the world and we wouldn't be able to do this without ensuring the highest standards throughout the manufacturing process, from development to delivery. We only use factories which meet strict quality guidelines and fulfil the requirements of our stringent regular auditing process to guarantee our customers receive a high quality end product.

The Right Solution

We are committed to providing packaging solutions to our customers which fit their requirements, their product and their goals. At all times we work with our customers to understand their end goals and develop a solution that achieves these.

Great Service

We pride ourselves on offering an unrivalled service to our customers from enquiry to delivery and beyond. We care about our customers and believe in going the extra mile to ensure packaging solutions meet their requirements at all times.

Product Enhancement

In order for our customers to be successful, we understand that packaging needs to enhance the product, adding value in the eye of consumers, providing recognition on the shelf and be aesthetically pleasing.

Socially & Environmentally Responsible

We only source products from suppliers who meet the highest ethical, social and environmental standards. At all times we aim to reduce our environmental impact by utilising recycled, safe and sustainable materials in our products and introducing environmental policies within our offices.

"To exceed customer expectations, offering unrivalled service to deliver packaging solutions which enhance your product and brand"
