

WIRING AND LOOMS

ABOUT AES

Based in the Midlands, AES are an agile and responsive electronics design company with extensive on-site manufacturing capabilities. We offer small to medium volume wiring loom assemblies and box assembly. We provide low pressure over moulding – for secure, IP rated joints and enclosures, and also assist with the design and manufacture of test rigs to validate loom assemblies.

Offering a quick turnaround, from prototype assembly to medium volume manufacture of wires and looms, contact AES to discuss your requirements today.
