BC Multinest 190 is a standard sized nestable bale arm crate used predominantly within food, retail and catering industries. MultiNest fits in seamlessly with common storage, distribution and point of sale display systems making the BC MultiNest 190 the obvious choice of bale arm crate. Manufactured in the UK by Beecraft, BC MultiNest 190 can be produced in different colours from food grade and recycled materials.

It is a high quality, robust, cost effective, stackable and nestable materials handling crate that offer customers a standard returnable transit packaging crate with local UK service from our friendly customer service team.

With a variety of features offering benefits such as good ventilation flow, easy label removal texture, custom embossing and unique colour printing, the BC MultiNest 190 is the perfect solution for many industries and requirements.
