Basement Lightwell Bin Lift in Central London

Goods Elevator Platform Lifts

Like all pioneers, the Lyfthaus founders' approach to platform lift design had to be unique. To be different. They wanted Lyfthaus to stand out by standing for something different. Today we go beyond the coveted Mylyft Collection of premium open aspect disabled access platform lifts and reach out into the world of Goods Elevator Platform Lifts. This expanded product portfolio includes platform lifts for cars, bins, pallets, roll cages and trolleys to name a few. We specialise in providing bespoke solutions for all your architectural platform lift requirements.

Lyfthaus Goods Elevator Platform Lifts

Virtually undetectable to passing pedestrians Lyfthaus lightwell lifts are a discreet method of transporting bins and goods from lightwell basements to street level. When lowered the lift is out of sight and often finished to complement the adjacent architecture. The street side balustrade is adapted to form a gate complete with interlock safety mechanism.

Lightwell Goods Elevator Platform Lift

Seen here at the rear of a new row of shops and restaurants this small split level lift is used to transport roll cages, clothes rails and bins the 1500mm between two levels. The lift is fitted with a gate, handrails and a goal post barrier to protect against falling from the upper level. This unit has been galvanised and fitted with a chainmail skirt.

Platform Lift**

Lyfthaus Goods Elevator Platform Lifts

Basement Bin Lift

This goods elevator platform lift transports two 1100ltr wheelie bins from a subterranean bin store to street level via a pair of powered trap doors and an interlocked enclosure. The lift services the requirements of a large apartment building in Camden which was previously the home to Jim Henson's Muppet's studio!

Bin Lift Goods Elevator

Installed at a large NHS teaching hospital this Lyfthaus model TT3000 split level bin platform lift is intensively used to transport refuse and clinical waste bins 1800mm between two fixed levels. This lift has been galvanised and fitted with fully clad gates. Other gate options are also available.

Lyfthaus Goods Elevator Platform Lifts

Compact Lightwell Good Elevator Platform Lift

This grand home on the prestigious Wentworth Estate has a Lyfthaus compact lightwell lift fitted to raise bins from the basement kitchen to ground level through a custom pair of trap doors. As the lift platform approaches ground level the trap doors open and the lift passes through the aperture. These lifts are exceptionally compact and can be installed in the most confined areas including the lightwells of hotels and restaurants.

**Floor to Floor Goods Elevator
Platform Lift**

Gucci and Prada at the exclusive Bicester Shopping Village have Lyfthaus model TMT1500 goods elevator platform lifts fitted to raise boxed goods to the upper floor. The lifts have been fitted externally to prevent any impact to the shop floor selling space. Internal installation is also available

Lyfthaus Goods Elevator Platform Lifts

Underground Bin Storage (Bike and Motorbike Storage also Available)

No more smelly, ugly bins taking up valuable garden or driveway space. Bins can now be stored securely underground and out of sight in a Lyfthaus subterranean bin store. Various sizes are available for two, three or four domestic wheelie bins and up to six 1100ltr commercial bins.

The same system can be used to store bikes and motorbikes.

Car Elevator Platform Lifts

This stunning car show room lift is a great example of a car elevator platform lift that is also a feature for this Honda car dealer. A 3500mm vertical travel takes cars between ground floor and the upper floor showroom. This system can also be used in garages and homes.

Lyfthaus Goods Elevator Platform Lifts

Car Elevator Platform Lifts

New car owners are first introduced to their pride and joy as they see their new car being lowered in front of them from the floor above whilst the sound of thunderous music is played in the background! A great way to meet your new car and a brilliant way of transporting cars between levels.

**Split Level Goods
Elevator Platform Lifts**

Seen here at the rear of an express type convenience store this split level goods elevator platform lift is used to transport the stores dollie's from store level to yard level.

Mylyft Disabled Access Platform Lifts

The Mylyft Collection by Lyfthaus is a range of premium open aspect platform lifts that have been designed for prestige property and the most discerning clients. Produced in Cambridge at the Lyfthaus Technical Centre these lifts are highly adaptable to suit client's exact requirements. Lift travels of up to 3000mm are available in a huge choice of sizes and configurations.
