## Supplying Quality Decking and Accessories Since 1989

The Mayfield Group has been supplying Sundecks for holiday homes across the UK for 30 years. Today choosing and ordering your Sundeck from Mayfield could not be easier.

Every enquiry we receive is followed by a no obligation quotation offering a no hidden extras price. When you have chosen a design and would like to proceed, we can manage the installation on your behalf, including liaising with your park over installation dates.

## Quality Guaranteed

### Fully Tested & Certified To BS Standards

Our products are not just built to an industry standard. They are built, fully tested and certified to British Standards including BS5395 stairs and walkways code of practice and are UL94-VO fire rated.

### Low Maintenance

Our sundecks require the minimum of maintenance as they are made from high performance external grade materials.

### Weather Resistant

British Standard BS EN607 10 year colourfast weather tested, our UPVC products will not warp, splinter or crack. Our C16 strength graded treated timber will not rot and will resist insect and fungal attack.

### Slip and Stain Resistant

Our sundecks are british standard BS7976-2 with textured and embossed surfaces to ensure slip resistance. The materials used to make our sundecks are non-porous, making them resistant to most food and beverage staining.

### Low Noise

Our decking planks are individually installed onto timber sub-frames using our unique decking clips. This prevents the planks rubbing together and squeaking, whilst also preventing the growth of algae between the planks.

### Very Durable

Made using high-impact modifiers, the products used in the construction of our sundecks have been tested to British Standard physical load test BS6399-PT1.

## Choosing the right deck

When choosing a Mayfield Sundeck, there are no limitations. We have a huge selection of styles, colours, finishes and accessories to choose from to complement all modern homes, and our friendly, experienced Sundeck sales and design team are on hand to assist you every step of the way. When your Sundeck has been designed and ordered, we will keep you and your park updated with installation dates.

Prior to ordering your Sundeck you may want to consider the following: Does your holiday or park home require a Sundeck to incorporate a view that our ClearView range could enhance? Which direction is the sun? Where will I park my car? Do I have special access requirements? All these can be discussed with your local area representative and incorporated into the design of your specific deck.

If you have any questions please call our team. Our 30 years of experience means we can offer advice and ideas for your Sundeck and we will work closely with you to design and create the perfect outdoor living space that's right for you and your family's needs.

Focus Decking with steps

# Hampton Range

## Premium Sundecks and Decking

The Hampton Range is our premium product and offers high quality Sundeck options that incorporate the very latest in decking technology including ClearView balustrades, multi-level Sundecks and bespoke step systems.

Available in a range of six colours.

The Hampton Range is further enhanced with its unique integrated LED handrail which cleverly conceals a waterproof LED strip to the underside of the top handrail. This innovative design allows the LED strip lighting to be added during the installation of your Sundeck or retro fitted at a later date. Colours can be changed using the remote control to suit your ambience.

Clearview Balustrades	13

Golden Oak Hampton Decking Boards

## Lighting Options

Our integrated LED handrail lighting is revolutionary and offers the ultimate in outdoor lighting. Cleverly concealed in our handrail, once lit the LED strip lighting will give your Sundeck a glamorous almost magical look.

The LED strip we supply is the best money can buy and boasts great features such as being energy efficient, waterproof, robust and even comes backed with a two year warranty. If you want an amazing lighting product which will enhance your Sundeck and have the 'wow' factor, then LED handrail lighting is the one for you.

**Two Year Warranty**

### Your Signature Remote

All our Hampton LED lighting can be controlled using one touch sensitive remote. You can use this handy, pocket sized remote to control your lighting from up to 50 metres away. Using the remote, you can change the Brightness of your LED lighting, the speed of colour transitions, choose a specific colour with the touch colour circle and cycle between modes of the lighting. The ultimate in luxury!

## Colour Options

### Premium Sundecks and Decking

## uPVC Balustrade Finishes

The Hampton Range comes in a choice of two standard balustrade styles and ClearView glass options. The standard balustrade is available in five colour options and comes with an LED top handrail (LED light strip additional accessory).

The brackets used on our balustrades feature concealed fixings and external radiuses. Hampton newel posts come with our colonial style Windsor caps that are unique to Mayfield. Focus newel posts come with traditional style flat caps. Both Hampton and Focus newel posts come with colonial style Windsor collars to give a clean finish around the bottom of the post onto your decking.

- Easy to clean and stain resistant
- Choice of colours
- No visible fixings
- External radius brackets
- British Standard BS6180

### Options

All our balustrade options include LED top rail. LED lights sold separately. Two balustrade options are available with Hampton Decking.

## Clearview Balustrades

If your holiday or park home has a fabulous view, why not make the most of it with our ClearView balustrades. ClearView glass panels have many advantages over traditional picket designed balustrades and are one of the most popular upgrades for our customers who like their scenery uninterrupted.

ClearView is available in framed and frameless designs with clear, tinted, obscured and sandblasted options, providing protection against the wind and adding a touch of opulence.

### Frameless

- Supplied with 10mm toughened glass as standard
- Powder coated stainless steel Glass Clamps
- Tints: Clear / Bronze / Smoke / Blue
- Sandblasted options including park logos/designs
- Bespoke sizes available
- Bespoke glass options available

### Framed

- Double glazed units with handrail mounted on top
- Superb wind protection, obscured and sandblasted
- White / Golden Oak / Slate
- Tints: Clear / Bronze / Smoke / Blue

## Focus Range

### Essential Sundecks and Decking

Our Focus range of Sundecks has been designed specifically for the cost conscious, or park looking for fleet options. The Focus range does not offer all the options that come as standard with the Hampton range but still offers a high quality product with a key feature being the wider decking boards, which at 235mm looks and feels robust and manufactured in a very eye catching Driftwood colour.

The Focus Sundeck range has been weather tested to ensure long-term, low-maintenance and has a three year manufacturer's warranty. Ask your nearest Mayfield approved installer for further information.

- ✓ **3 Year Manufacturer's Warranty**
- ✓ **High Quality Materials**  
Manufactured from long term ultra-low maintenance materials.

Focus deck steps are supplied open sided

Colonial Cream balustrades with Focus Driftwood decking

### Decking Colour Option

Focus decking is available in Driftwood with Colonial Cream or White balustrade options.

Colonial Balustrades

# Windsor Lighting

By adding one of our amazing lighting options, the enjoyment of your Sundeck doesn't need to stop when the sun goes down.

When considering lighting ask our sales team for the options available, and be inspired to add a glow to your deck. Lighting makes all the difference when entertaining or using your deck in the evenings, as well as looking amazing. Good lighting is about complementing your Sundeck and the correct lighting will enhance features such as balustrades, hot tubs and dining areas.

Our legendary Windsor light has had a complete overall for 2020 and packed with great features. Available on both our Hampton & Focus Sundecks this modern lighting will illuminate your decking area long after the sun has gone down. Windsor LED lights are attractive and affordable.

## Windsor Light

Colours: White/Cream/Golden Oak/Green/Slate and Brown LED bulbs

## Energy Efficient

Mayfield LED lighting not only looks good but is energy efficient, waterproof, robust and even comes backed with a three year warranty

*"The new LED windsor lights are modern, sleek and efficient, a wonderful enhancement to our decking. Installation was professional and the customer service second to none."*  
Andy Devlin

**Please note:** Mayfield decking installers are not qualified electricians and therefore do not connect the lights. This must be done by a park approved electrician and could incur additional costs. Please speak to your park operator for more information on this.

# Hot Tubs

We have a wide selection of Holiday home Hot Tub models ranging from 3 to 8 Persons. All Hot Tubs are manufactured with only premium quality materials and have an extensive range of high-end features as standard. All our Hot Tubs are supplied with comprehensive warranties as standard and our installation and service teams operate nationwide providing on-site training for your maintenance staff if required.

- Colour – Sterling Silver finish, white acrylic with luxurious silver and grey marbling highlights.
- Deluxe Roxul thermal retention system up to 4 times more effective than spray foam.
- Colour changing LED lighting to enhance the customer experience.
- Fully adjustable hydrotherapy jets for the ultimate massage.
- Park Controls Pump/Light on/off only and coded temperature control.
- Easy maintenance in-line dosing unit for Chlorine or Bromine erosion.
- Spa Heat ready – when upgrading to the Climacube heat system.
- 2" Pipe for quicker drainage.

Installed with Millboard decking and privacy glass

## Skirting Options

Having skirting installed to your home and Sundeck adds more than cosmetic finishing touches. Available in Fully Enclosed or Ranch Style, the benefits of having skirting include:

- Helps to prevent heat loss
- Reduces draughts under your home
- Virtually maintenance free
- Enhances the visual appearance
- Reduces the risk of water pipes freezing
- Prevents unwelcome visitors getting under your home
- Large range of colours available
- Adds value and style

### Fully Enclosed

Available in matching colour palette to complement your holiday or park home. Fully Enclosed skirting provides protection from wind and cold, and stops debris and small animals getting under the home. Our simple track system allows any single panel to be removed for easy access.

### Ranch Skirting

Available in white and cream or in vinyl wrapped Dark Green, Dark Brown, Golden Oak or Slate Grey supplied with two access gates as standard (more are available on request). Fitted by our team of professional installers to ensure a perfect finish to any home.

### Skirting Gate

A must with Ranch Style Skirting, these gates allow quick and easy maintenance access, fitted with our own top quality fixings to ensure no rust or corrosion. Two gates are fitted as standard with every skirting order and more are available on request.

# Gates and Accessories

## Gates

Mayfield Sundeck gates are made with Masterjoints, which are stronger and better by design than welded equivalents. All our gates are fitted using Masterjoint hinges and latches which will not rust, are extremely robust and carry a lifetime warranty.

## Steps and Access Ramps

Our Sundeck & Free Standing steps are made to building regulation specification. Made from Tricoya, a superior stable and durable material, that offers incredible outdoor weathering characteristics. Our steps are robust, corrosion free and modern in design.

Our access ramps are built to DDA regulations. They allow easy access to your Sundeck & home for those who need assistance. Our access ramps are quality built and available with the added options of LED lighting and skirting to enhance the overall look.

DDA compliant access ramp

Low riser step

Free standing step

## Rail Supports and Handrail Brackets

Our balustrade bracketry and supports have been designed to perfectly match the profiles they are joining so that they complement the overall finish of your Sundeck. Every bit of attention to details has been considered such as the feel of product, how it is mounted, and all whilst keeping the fixings hidden from sight. This may seem a small bit of detail but we pride ourselves on being in complete control of our own designs which are unique features on a Mayfield Sundeck.

## Maintaining Your Sundeck

Wash Bomb is a custom made cleaning product and the only cleaner Mayfield recommend to clean your Sundeck. It will remove light soiling and is safe and easy to use. Simply pour the contents of the sachet into a bucket of warm water and wash away the grime with a sponge. It is non-foaming, anti-microbial (helps to prevent algae growth) and does not contain any harmful solvents that could harm the environment. Wash Bomb also has many more cleaning capabilities.

- Leaves no white residue
- Easy and simple to use
- Environmentally friendly (biodegradable & solvent free)
- Can be used neat for heavy grease deposits

Visit our website for further information:  
[washbomb.co.uk](http://washbomb.co.uk)

## Hampton Residential Decking

Hampton decking is a unique product. It is not a composite and is highly weather and UV resistant making it easy to maintain. It is made from 80% recycled materials as a conscious measure to improve our environment as we value the world we live in. Using recycled materials does not affect the quality in anyway and these materials can be 100% recycled. Hampton Decking is a cost affordable, ultra-low maintenance alternative to timber and composite products. Aimed at the cost-conscious homeowners looking for a premium decking product at an affordable price.

- No annual treatments required.
- Wood free (no warping, twisting or splinters)
- UV weather resistant (BS EN607)
- Fire rated (UL94-V0)
- Slip resistant (BS7976-2)
- Load tested (BS6399-1)
- 100% recyclable
- 80% recycled materials used
- 12 Year Colour Fast Warranty
- Made in the UK
- 6 colour options
- Stain resistant

*"Having the deck put down has been like building an extension to the house at a tiny fraction of the cost. We love the extra space! Also with two little ones, letting them come in and out without having to go up or down a step is completely worry-free. They love it, should have done it years ago!"*

Tiphaine McConnell

For further information on our residential decking range please call our team on 01202 722722.

# Design Your Own Sundeck

Use deckme to create your perfect Sundeck. Its simple, easy to use and fun designing your own. When you are happy with your design, submit it and our team will review your choices and may help with recommendations before sending you a quotation shortly afterwards.

## How it works:

1. Simply visit [deckme.co.uk](http://deckme.co.uk)
2. Fill in your details adding the size, make & model of your home.
3. Drag and drop the tiles around your home and create your perfect Sundeck.
4. Click 'Submit Design' and we will reply with a quotation.

➔ Create your dream sundeck today, visit us at [themayfieldgroup.co.uk/deck-me](http://themayfieldgroup.co.uk/deck-me)

**deckme.co.uk**

# Standard Sundeck Range

Variable balustrade heights available on all our Sundecks

Our standard Sundeck range are our most popular designs and as such are more cost effective than designing your own (custom) Sundeck. Our SD Sundecks range from PS1 – SD18 in the sizes shown and offered in uPVC balustrade only. Most are off the shelf designs offering a quicker installation turnaround.

## Environmental statement

### Plastics

Our materials are made from up to 80% recycled raw materials during the manufacturing process. Using recycled materials does not affect the quality in anyway and they carry the same structural benefits as virgin materials. We use recycled materials in our products as a conscious measure to improve our environment as we value the world we live in. Using recycled materials means that we are helping to reduce new plastics being made which in turn reduces the harmful disruption and damage being done to the natural world. Recycling also keeps waste out of the environment and out of our oceans which is definitely a good thing. We could argue that we are also helping to reduce climate change as using recycled materials uses less energy on sourcing virgin materials and thus lowering carbon emissions.

The recycled materials we use are widely available through our trusted supply chain so there is little chance of them running out. The materials used to make our products are also 100% recyclable and any offcuts from installations are reprocessed back into raw materials which are then reintroduced back in to the manufacturing stream to make further products.

**Bumblebee  
Conservation  
Trust**  
Business Member 2019/20

The Mayfield Group are proud  
supporters of the Bee Conservation  
Trust since 2005

### Timber

We use FSC timber to form the substructures on our decks as it is a sustainable material sourced from well-managed forests. Using timber in construction locks away Carbon for long periods. (It has been calculated that a typical 3-bedroom semi-detached Timber Frame House, using about 6m<sup>3</sup> of timber and wood-based products, stores about 1.2 tonnes of Carbon, equivalent to over 4 tonnes of atmospheric CO<sub>2</sub>). And even when wood is eventually recycled, it releases its Carbon back into the atmosphere within a relatively short time. Therefore timber, being relatively newly grown and then returned directly to nature, is in effect Carbon Neutral.

### Considerations

Please consider our environmental statement when purchasing your Sundeck. Above and beyond price we all have a responsibility for the health of our planet. When purchasing a Mayfield Sundeck you can be assured that you will be investing in a great product that has the very best in 'Green' credentials.
