Boxin Power Presses

Boxin offers a comprehensive range of CE Approved mechanical presses up to 1800 tons capacity:

- C Frame Open Fronted Single Crank Presses 10 to 340 tons
- C Frame Open Fronted Double Crank Presses 110 to 250 tons
- Semi Closed H Frame Double Sided Presses 80 to 315 tons
- Straight Sided Single Crank Presses 200 to 600 tons
- Straight Sided Double Crank Presses 110 to 600 tons
- Straight Sided Double Crank Power Presses 300 to 1800 tons
- Straight Sided Eccentric Geared Presses 400 to 1800 tons

Every Boxin Press is built to meet or exceed JIS 1st Class standards. JIS 1st Class represents the most exacting and demanding industrial manufacturing standard in the world. Machines that meet these strict guidelines must pass a rigorous inspection with hundreds of designated benchmarks for materials and operation. The adherence to JIS 1st Class represents a commitment to building the best metal forming presses in the world; constantly seeking new ways in the development of ever higher standards of reliability and quality.

Hong-Er Coil Handling & Press Feeding Equipment

Founded in 2002 in Shenzhen China, Hong-Er Machine Equipment Co Ltd manufactures high quality coil handling and press feeding systems including decoilers, straighteners, feeders and compact coil feeding lines. CE Approved with English operator manual and electrical schematics.

RNC NC Servo Roll Feeds - A comprehensive range of NC Servo Roll Feeds with 'user friendly' controls.

3 in 1 Combined Decoiler-Straightener-Feeder - An innovative design to reduce workspace. Coil widths up to 1300mm with thickness up to 9.0mm.

Uncoiler-Straightener Combined - A range of both combined decoiler & leveller or coil-cradle & leveller available up to 800mm widths and up to 4.5mm thickness.

Straightener/Levellers - Available with numerous options up to coil widths of 1000mm with thickness up to 6mm.

Uncoiler/Decoilers - Available as motorised, non-motorised, single or double-sided with numerous options up to 10,000 kg capacity.

Used & Reconditioned Machinery

From our warehouse in Cradley Heath we offer machinery with the choice of 'As-Is', 'Run & Checked', 'Fully Refurbished' or 'Fully Reconditioned'.

We specialise in the supply of refurbished and reconditioned mechanical and hydraulic power presses together associated ancillary equipment such as servo roll feeds, levellers, decoilers, etc. Our refurbished/reconditioned machines undergo a comprehensive rebuild process and testing procedure which ensures they are delivered to you in excellent cosmetic appearance but more importantly, functioning correctly and complying with HSE Requirements together with a warranty.

Raybould Machine Tools Ltd have the facility to undertake 'complete turn-key' projects to customer specification utilising both new and used equipment to include delivery, installation and commissioning. Our technicians are skilled professionals in mechanical, electrical and hydraulic systems supporting our clients with a full range of services designed to ensure maximum efficiency and minimum downtime.

With over 45 years knowledge and experience in the buying and selling of used machinery we may also call upon a vast network of colleagues worldwide who may locate machinery of all types.

Asset Disposal

Do you have machinery available for sale?

We are always looking for good quality machinery all of types – single machines or complete factory closures.

We can offer numerous options when disposing of equipment from a simple outright purchase or the option of working with your company either on a commission basis or on price guarantee structure to achieve optimum results.

Raybould Machine Tools Ltd fully recognizes that the disposal of productive and surplus assets is always unique - there is no off-the-shelf solution. Because each situation has its own specific requirements, Raybould Machine Tools Limited offers a range of disposal solutions, asset management, and business services tailored and staffed to achieve optimum results.

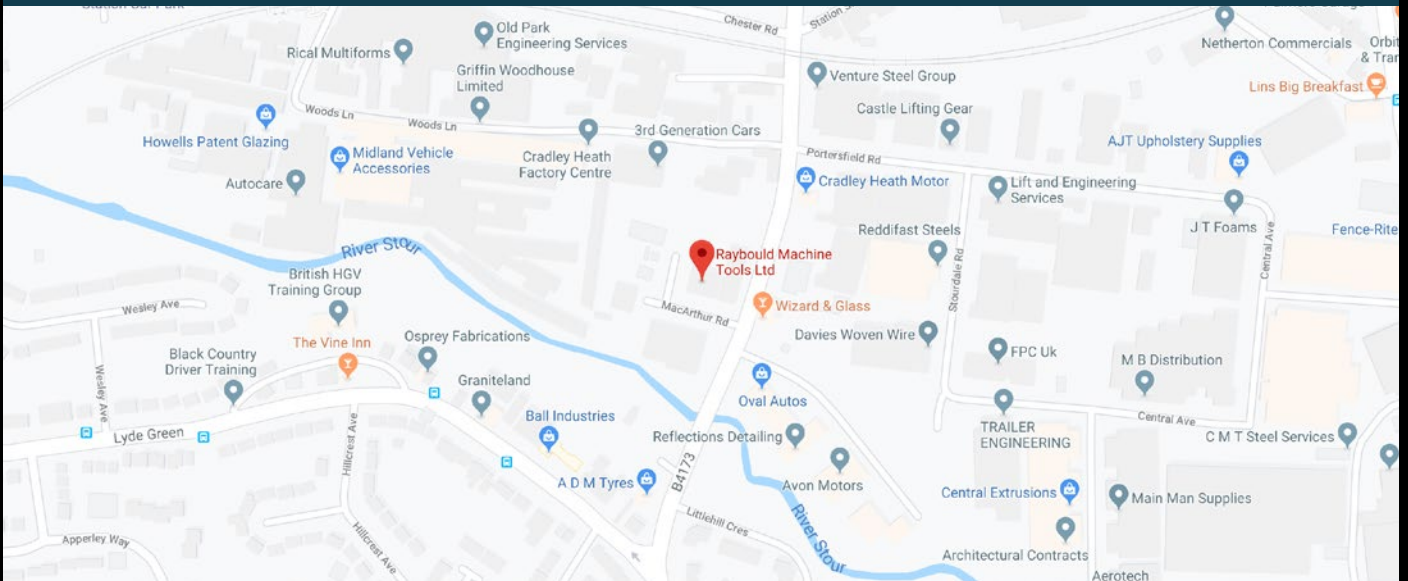

We are experienced in disposing of corporate assets having previously worked with:

- Sharp Precision Manufacturing (UK) Ltd
- TT Electronics PLC
- Widney Cabs
- Widney Group PLC
- Belcot Tool & Die Ltd
- Pianoforte Supplies Ltd
- ThyssenKrupp Tallent Ltd
- Denso Manufacturing
- Jaguar Land Rover

Raybould Machine Tools Ltd is a family owned business which commenced trading in 1973. Specialising in the supply, purchase and disposal of new & used manufacturing equipment to include mechanical and hydraulic power presses, press feeding, coil handling and sheet metal equipment.

Other services we provide include machine spares, onsite repairs, customer machine rebuilds or upgrades, maintenance contracts, transport, installation and commissioning including the packing and shipping of machinery for overseas customers.

Our warehouse is located approximately 10 miles from Birmingham city centre where we hold a stock of mechanical and hydraulic presses, press feeders and coil handling equipment.
