WORK WELL MATS®

**FIND COMFORT
IN SAFETY**

MISSION

Our mission is to be the easiest and fastest solution provider in rubber matting and flooring.

VALUES

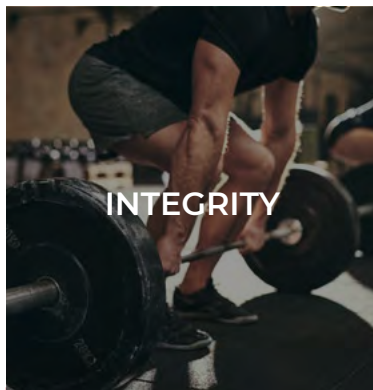

VISION

Our vision is where people care about what they stand on as much as the world they live in.

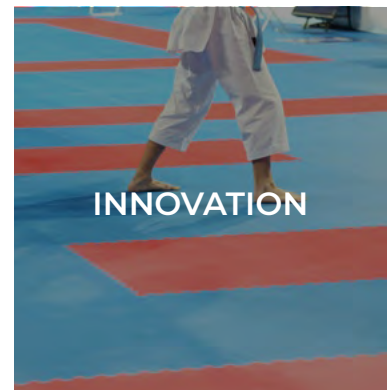

CARE

It's the foundation of what we are about. Whether it be customers, suppliers, employees or anyone, we care about the life they live.

INTEGRITY

We deliver our promises. Being honest and building trust enables us to build lifetime relationships.

INNOVATION

By being better every day in what we do or who we are, we consistently deliver results.

OUR COMMITMENT

Our commitment is to provide safety and comfort for every step you take. Having an impact on persons lives is a real privilege. The everyday challenge at Work Well Mats is to raise awareness about musculoskeletal disorders and direct those responsible for the health of people at work to reliable and safe solutions. With unique products and our flexible approach, we deliver on our commitment and provide comfort in safety.

ERGONOMIC & SAFETY MATTING

Anti-fatigue solutions, certified fire rated mats, oil resistant anti-slip swarf mats, catering solutions and more...

ANTI-STATIC MATTING (ESD)

Bubble top anti-fatigue anti-static solutions through to foam-based rolls of matting with various colour options.

ELECTRICAL MATTING

Certified ribbed rubber matting conforming to BS EN IEC 61111. Various working voltages available.

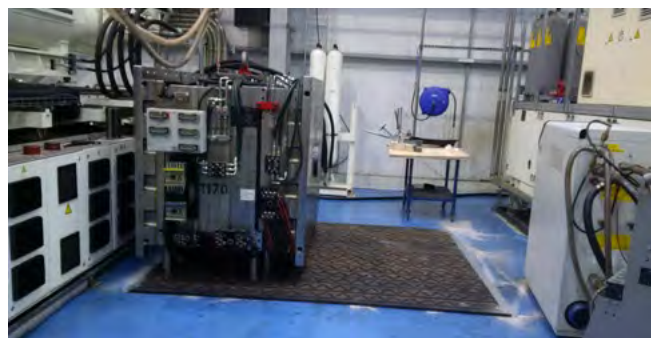

ENTRANCE MATTING

Every solution from external rubber scrapper mats through to custom printed logo mats and more...

LEISURE MATTING

Matting solutions to ensure safety when working out in the gym or at the swimming pool.

GENERAL SHEETING SOLUTIONS

Industrial floor and bench protection solutions, fine ribbed, broad ribbed, penny washer and many more finishes.

ERGONOMIC & SAFETY MATTING

ERGO-TRED

An exceptionally versatile bubble top anti-fatigue mat giving the ultimate in worker comfort.

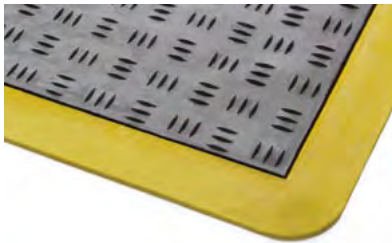

ERGO-TRED GREASEPROOF

An exceptionally versatile oil resistant bubble top anti-fatigue mat giving the ultimate in worker comfort.

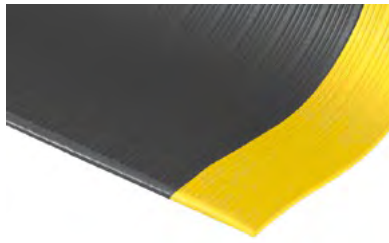

ERGO-FIRE

Fire retardant and oil resistant versatile anti-fatigue mat giving the ultimate in worker comfort.

EURO-MAT

The anti-fatigue mat that combines comfort, durability and ease of cleaning into one package.

SOFT-STEP

The most economical anti-fatigue matting solution for those with dry working environments.

DURA-TRED

The flexible PVC anti-fatigue matting that provides comfort and safety in areas where chemicals and oils are being used.

COMFY GRIP

The heavy duty oil resistant anti-fatigue mat designed around the industrial workers daily tasks giving stability and comfort.

HYGI-MAT

The ultimate catering anti-fatigue mat and anti-slip solution for kitchens and clean rooms.

COMFORT CARPET

An exceptional 19mm carpet anti-fatigue mat with a professional appearance.

OPTI-MAT

A premium anti-fatigue mat with a specialised rubber formulation offers the ultimate solution to a light and easy to handle product.

ULTI-MAT

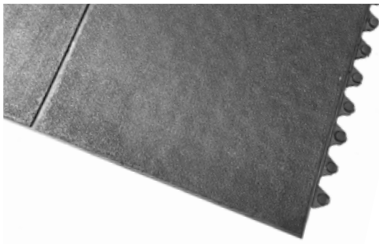

A cost effective open top rubber mat. An anti-slip mat designed to make the working environment safer.

ULTI-MAT GREASEPROOF

A cost effective workshop anti-fatigue mat. Anti-slip oil resistant nitrile mat designed to make the working environment safer.

ERGONOMIC & SAFETY MATTING

LINK-TILE SOLID TOP

A quick to install heavy duty interlocking rubber tile designed to give your floor a quality anti-slip finish and the user comfort.

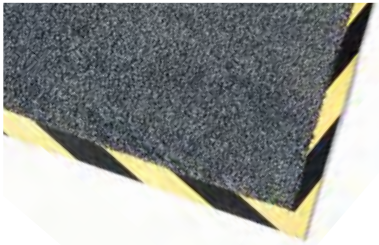

LINK-TILE OPEN TOP

A quick to install heavy duty interlocking rubber tile designed to give your floor a quality anti-slip finish and the user comfort.

PVC LINK-TILE

The durable, hard wearing, low profile industrial & garage flooring.

CABLE-MAT

Electrical cable trip protection. Rubber top, cable tidy solution, suitable for all areas or choose a fabric top cable tidy solution for all indoor areas.

ANTI-STATIC MATTING (ESD)

ERGO-ANTI-STATIC

Anti-static (ESD) anti-fatigue mat giving the ultimate in worker comfort. Heavy duty all rubber construction suitable for all dry standing areas.

SOFT-STEP ANTI-STATIC

The most economical anti-static anti-fatigue matting solution for those with dry working environments.

ELECTRICAL MATTING

ELEC-SAFE

Electrical ribbed rubber matting conforming to BS EN IEC 61111. Colour coded with appropriate markings on the underside of the matting.

ENTRANCE MATTING

DIRT-BUSTER

Commercial, washable, carpet entrance mat designed for catching dirt and moisture in high traffic areas.

LOGO-MAT

Commercial, washable, logo entrance mat designed for catching dirt, moisture and people's attention in high traffic areas.

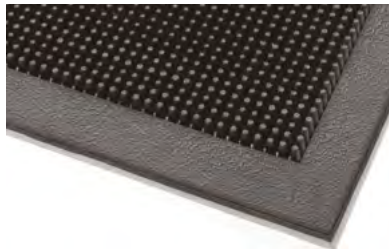

AQUA-CARE

This exceptional moisture absorbing, rubber backed, door mat is the perfect all-rounder for removing dirt and moisture from shoes and boots.

POLY-RIB

This tough ribbed mat is your heavy duty solution to high traffic areas.

MAXI-GUARD

This rubber entrance mat is designed to remove dirt and endure the elements.

CLEAN-SCRAPE

A versatile lightweight mat designed for heavy duty use. The 100% nitrile mat makes it a brilliant swarf scraper mat.

BOOT-SCRAPE

The most cost effective muddy entrance mat. Solid rubber compound with large drainage holes gives the perfect solution to heavy soiled and wet footwear.

FOOT BATH MAT

High quality solid rubber boot dip mat commonly known as a foot bath or well mat. Designed to combat dirt, germs & viruses and stop them from spreading.

STICKY STEP MAT

Rubber mat frame designed to hold the Sticky-Step Pads.

COIR MATTING

Coir matting is the traditional hard wearing dirt & dust removal matting. The economical solution for busy entrances while keeping a professional look.

LEISURE MATTING

GROUND RING MATTING

The rubber grass mat which is the perfect solution to soil retention and erosion control.

BROUGHTON FITNESS MAT

Heavy duty gym mat – loose lay rubber matting, used for free weight and training areas. This durable mat will protect any floor and give good sound insulation.

AQUA-SAFE

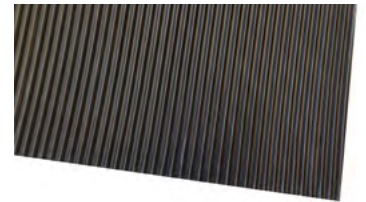

Interlocking anti-slip flexible PVC matting perfectly suited to the leisure industry. Treated with antimicrobial additive for protection against the growth of mould.

EVA SOFT

An interlocked cushioned foam mat for training areas. This soft mat is also suitable for children's play areas.

GENERAL SHEETING SOLUTIONS

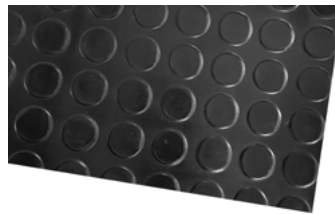

FINE-RIB

Lightweight slip resistant hard wearing and durable fine ribbed rubber matting, excellent for use in aisles, corridors and workshops.

BROAD BIB

Heavy duty slip resistant directional ribbed surface rubber matting to withstand tough everyday use. It is often used for lining vehicle bodies.

PENNY WASHER

An attractive circular stud coin pattern hard wearing rubber matting roll providing a slip resistant surface. It is often used in corridors, aisles and entrances.

FLAT PLATE INSERTION RUBBER

A smooth finish rubber matting with a cotton insertion to strengthen and protect the rubber from tearing.

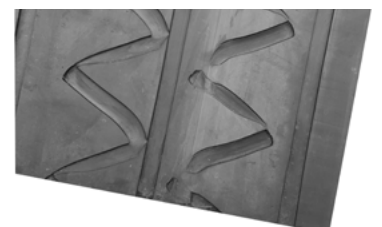

DURA FLOOR

Tough, non-slip linen textured rubber sheeting for general floor and bench protection.

CONTINUOUS ROLL

This hard wearing anti-slip rubber sheeting is the ultimate option for joint-free walkways and floors.

INDUSTRI-GRIP

The ultimate heavy duty rubber matting solution for floor protection.

TIRED AND ACHING TEAM?

The battle against worker fatigue

Work Well Mats have over 24 years' experience in providing effective solutions to physical fatigue suffered by workers. Prolonged standing on hard floors causes leg, knee, back and neck problems. Muscles become tired and weary and varicose veins can develop due to restricted blood flow against gravity up through the legs. The pressure of a hard floor can cause stiffness and tension in the back, shoulders and neck. These health hazards can cause lower productivity, poor quality, absenteeism in the workforce and even compensation and insurance costs.

- ✓ Increase productivity by stopping fatigue setting in.
- ✓ Ease the stiffness in neck and shoulders which cause headaches.
- ✓ Reduce the pressure which prolonged standing puts on the spine and strain on the back muscles which commonly gives rise to lower back pain.
- ✓ Halve the amount of energy used up to support muscles in the back and legs.
- ✓ Stimulate circulation guarding against varicose veins which can develop due to restricted blood flow up through the legs.
- ✓ Encourage frequent foot movement as users move their feet more regularly to adapt to underfoot cushioning, assisting healthy blood circulation.
- ✓ Reduce arch and heel pain caused by flattening of the feet.

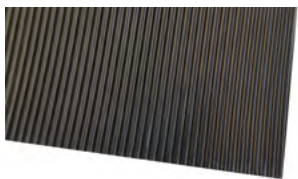

Whether you are:

- Standing on a cold industrial floor by a machine or on a production line;
- On a warehouse floor by a despatch or packaging bench;
- In a high-tech laboratory research facility; or even
- Serving customers at a retail counter...

... we have the answer for your needs.

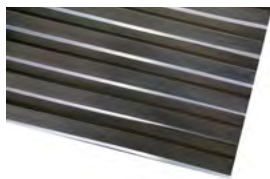

EQUIPMENT OR FLOORS BEING DAMAGED?

Why let your floors, work benches or equipment be damaged when there are ways to protect them? You may be working with delicate electrical equipment or moving very heavy tooling – Work Well Mats has a solution for every application.

FINE-RIB

Lightweight slip resistant hard wearing and durable rubber matting.

BROAD RIB

Heavy duty slip resistant directional ribbed surface rubber matting to withstand tough everyday use.

PENNY WASHER

An attractive patterned hard-wearing rubber matting roll providing a slip resistant surface.

FLAT PLATE INSERTION

A smooth finish rubber matting with a cotton insertion to strengthen and protect the rubber from tearing.

STRUGGLING ON SIZE AND SHAPE?

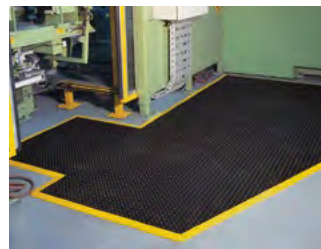

Everyone's working environment is slightly different, with each application demanding different requirements. When it comes to matting, people have different length work benches, different sized walkways and different shaped working areas, yet they all need to experience anti-fatigue benefits.

Anti-fatigue mats often either come as a mat or as a roll with fixed widths and lengths. These may not meet your requirements which can be frustrating. They can also become a trip hazard or get in the way of trolleys or other moving equipment.

When it comes to rubber, Work Well Mats has the facility to provide you with the exact size and shape mat that you require. Whether it be an L-shape, a circle, or a simple large rectangular mat, we will customise our mats to meet your needs.

Use our Customat tool to design your own anti-fatigue mat or contact us on **01295 757157** to discuss your requirements.

Some examples of custom installations are shown below.

MATS SLIPPING?

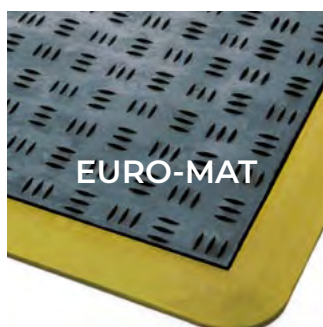

The time to get a grip of what you are standing on

Did you know that of all the non-fatal injuries to employees reported in a year, 29% of them were classified as a 'Slip, trip or fall on the same level'. This was the most common non-fatal injury during 2016/2017.

One of the common solutions to prevent some slipping on wet and oily surfaces is by using a mat. An incorrectly specified mat can, in some cases, escalate the hazard. In these cases, the mat is not suitable for the application and will slip on the floor making it dangerous for the user.

Work Well Mats has developed a range of anti-fatigue mats to resolve this issue. This involves a suction cup on the base of the mat which holds the mat to the floor when in use. Furthermore, the suction cup allows for compression, increasing fatigue relief for the user.

These anti-fatigue mats create a safe and comfortable environment as well as giving confidence to the user when being used in wet conditions. The mats in this range are:

Your application may be unique as are the hundreds of other applications we have worked on.

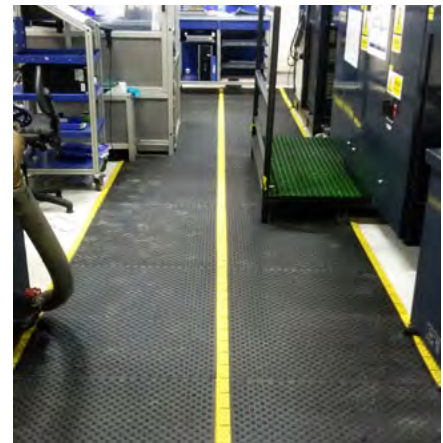

Every factory, distribution centre, office and production line are different, which often demands a bespoke product to provide the ultimate solution. We offer a full customisation service so you can achieve the safest and most comfortable solution, that fits your application. This includes any width or length with options for different shapes and sizes.

NATIONWIDE INSTALLATION

Whether your project is a small number of workstations or multiple complex areas or a 50 meter production line, we have a nationwide installation team who can take care of all your

needs. The majority of customisation is made before carrying out the installation, reducing factory downtime and ensuring a safe, hassle free installation.

EASY & FAST!

We appreciate that people are busy and time is precious. We make life easy for our customers and deliver our complete offering with speed.

UNIQUE MATTING SOLUTIONS

Core range of unique anti-fatigue mats - large suction cups on the underside of the mat ensures a safe solution.

NEED A SPECIFIC SIZE OR SHAPE?

Everyone has different requirements and our flexible approach means you get the solution to fit your needs. Use Customat!

10+ YEARS LIFE EXPECTANCY

With guarantees up to 3 years, our quality rubber products are designed to be tough and are manufactured to last more than 10 years.

PROFIT DRIVERS

Our anti-fatigue mats increase productivity. Productive people drive profits. We are committed to helping our customers deliver a ROI.

SAFETY & HEALTH SPECIALISTS

We prevent musculoskeletal disorders and keep the industrial worker safe by reducing the risk of slips, trips and falls.
