Brochure concept and design: Distec GmbH, Marketing, November 2018

Information, pictures, illustrations and content may not, in whole or in part, be copied, photocopied or reproduced from this brochure without the prior written consent of Distec GmbH. All trademarks and product names in this brochure are the property of their respective owners.

All figures are typical values. The real values may vary. The optical characteristics are determined after the panel has been „ON“ for approximately 30 minutes at an ambient temperature of 25° C (77° F). Life time of the backlight is defined as the time to take until the brightness reduces to 50% of its original value.

Distec Headquarter in Germering near Munich

FORTEC DISTEC

ELEKTRONIK AG **A FORTEC GROUP MEMBER**

Distec GmbH is a subsidiary of the listed German Fortec Elektronik AG.

FORTEC acts on the market as a system supplier for device manufacturers of industrial high-tech products. The areas of expertise range from pure distribution, through development and production, to complete solutions.

Distec GmbH was founded in Germering near Munich in 1993 and is one of the pioneers of flat panel technology with proprietary hardware controllers. From the beginning, the industrial markets with their specific requirements for reliability in operation, longevity and long-term availability of the individual components were the focus.

Today, Distec GmbH develops and produces, among other things, long-lasting monitor solutions, which are characterized by a robust TFT display. Even difficult environmental conditions and harsh operating conditions pose no problem for our monitors. Reliability, flexibility and fail-safety - that's what Distec monitors stand for. Our standard products are often the basis for the development of customized solutions.

Customer proximity:

At our innovation and production sites in Hörselberg-Hainich near Eisenach and Germering near Munich we develop, design, produce and certify our products.

Company Headquarters, New York

Production site Hörselberg-Hainich, Germany

Experience and state-of-the-art system technology:

The engineers in our development centers draw on many years of experience with LCD panels and simultaneously focus on current and future technologies.

System solutions from a single source:

We are specialized in developing, manufacturing and delivering custom solutions in all areas such as mechanics, touch integration, electronic assemblies and software. This includes a variety of controls, from the simple video card to PCs of different power levels, monitors for all installation options including any required IP protection and integration into existing infrastructures.

Quality and service:

As an ISO9001: 2015 certified company, we develop, design and manufacture our monitor solutions according to industrial quality criteria. High-quality components, longevity - even under harsh operating conditions - as well as longer-term availability are standard.

POS-Line – Monitors from 15" up to 64.5"

Flexible installations with a wide range of frames and touches – for build-in, desktop or wall applications

Over 10 years of experience in manufacturing industrial display systems have been incorporated into the development of this series of monitors. The monitors of the POS-Line series have been developed in industrial quality and are particularly suitable for process monitoring and machine controls, interactive kiosk applications, and digital signage applications.

Flexibility for use in different applications and situations was the defined design goal. The POS-Line series can be used as an

- DISPLAY FOR INTEGRATION, WALL AND CEILING
- OPEN FRAME OR DESKTOP
- BEZEL FOR FRONT INSTALLATION
- VARIOUS BEZELS AND DESIGNS
- HIGH QUALITY LCD PANELS WITH LED BACKLIGHT
- VARIOUS TOUCH TECHNOLOGIES
- VIDEO-CONTROLLER, INTEGRATED PASSIVE COOLED PC OR MEDIA PLAYER
- TRUEFLAT GLASS, SAFETY GLASS
- PORTRAIT OR LANDSCAPE
- ROBUST METAL CHASSIS

POS-Line 46" monitor with front bezel for display of websites

POS-Line 24" monitor open-frame in industrial use

POS-Line 64.5" monitor with front bezel and glass as an information terminal at the airport

POS-Line 24" IoT for organisation of processes

open-frame monitor as well as - with a frame - as a desktop or wall mount monitor. Furthermore, there are additional frame options like true-flat glass or a front plate for a smooth front-side installation. The POS-Line monitors can be driven by various video signals like VGA, DVI, HDMI, DP as well from the input of PCs, which are completely integrated into the monitors. Depending on the application the monitors can be equipped with touch systems, e.g. resistive or projected capacitive touch (PCAP). Solutions for 10.4" monitors are also available on project basis. Please contact us.

The large monitors of the POS-Line series are available in screen diagonal sizes 31.5" , 42" , 46" , 54.6" and 64.5" . Same as with similar to our smaller display units, these larger models are extensively configurable, and there is a variety of controller card types to choose from. In case an integrated PC is required, the monitor has a detachable PC-box, which makes the PCs for service purposes interchangeable, without the monitor having to must be removed from the wall.

SPECIALS FROM 15" UP TO 24"

- VESA OR MOUNTING BRACKETS
- SCREW TERMINAL FOR POWER SUPPLY

SPECIALS FROM 31.5" UP TO 64.5"

- REMOVABLE PC BOX FOR ATOM AND CORE-I CPUs
- VESA

POS-Line 21.5" monitor with TrueFlat glass

POS-Line 42" monitor in TrueFlat design frame

POS-Line monitor open-frame in industrial use

POS-Line monitor 54.6" at airport

POS-Line 46" monitor with TrueFlat frame

POS-Line 31.5" monitor with TrueFlat touch

POS-Line monitor with front bezel

POS-Line 46" monitor application in a lounge

POS-Line with removable PC box Core-i5

POS-Line 54.6" monitor with aluminium frame

Monitor open-frame for integration

Monitor with front bezel for desktop or wall

Monitor with front plate or TrueFlat glass for front installation

POS-Line monitor with TrueFlat glass or TrueFlat touch 31.5"

POS-Line monitor with TrueFlat glass 24"

POS-Line up to 24" Classic Format – PME Series (RGB, HDMI, DP)

Conformity		CE, FCC Class A, EU-RoHS			

Options up to 24" Classic Format

Front bezel

Order number		DS-91-323	DS-91-758	DS-91-325
Size		15.0"	17.0"	19.0"
Can be combined with		Touch und safety glass		
Bezel		Sheet steel, powder coated, RAL 9005 (black), fine texture, matte finish		
IP protection	front/ back	IP 64 (in combination with glass/ touch) in other cases IP 20/ IP20		
Weight	[kg]/ [lb]	0.50/ 1.10		
Dimensions with front bezel	[mm]	336.4 x 268.4 x 52.5	368.0 x 306.0 x 60.3	415.0 x 343.0 x 57.0

Front plate for front side mounting

Order number		DS-91-748	DS-91-749	DS-91-751
Size		15.0"	17.0"	19.0"
Can be combined with		Touch und safety glass		
Bezel		Sheet steel, powder coated, RAL 9005 (black), fine texture, matte finish		
IP protection	front/ back	IP 64 (in combination with glass/ touch) in other cases IP 20/ IP20		
Weight	[kg]/ [lb]	0.50/ 1.10		0.60/ 1.32
Dimensions with front plate	[mm]	373.4 x 301.4 x 55.7	405.0 x 343.0 x 63.7	454.0 x 382.0 x 60.4

True-flat glass

Order number		DS-91-753	DS-91-754	DS-91-756
Size		15.0"	17.0"	19.0"
Can be combined with		-		
Glass		Safety glass, 3 mm, printed passepartout RAL 9005 (black), non-reflecting		
IP protection	front/ back	IP 65/ IP20		
Weight	[kg]/ [lb]	1.00/ 2.20	1.20/ 2.65	1.50/ 3.30
Dimensions with true-flat glass	[mm]	373.4 x 301.4 x 57.0	405.0 x 343.0 x 64.8	454.0 x 382.0 x 61.5

Safety glass

Order number		DS-90-194	DS-90-195	DS-90-196
Size		15.0"	17.0"	19.0"
Can be combined with		Front bezel, front plate		
Glass		Safety glass, 3 mm, non-reflecting		
IP protection	front/ back	IP 64 (in combination with front bezel/ front plate)/ IP20		
Weight	[kg]/ [lb]	0.60/ 1.32	0.80/ 1.76	
Dimensions with safety glass	[mm]	333.4 x 265.4 x 51.0	365 x 308 x 58.8	412.0 x 340.0 x 55.5

Resistive touch

Order number		DS-91-345	DS-91-346	DS-91-795
Size		15.0"	17.0"	19.0"
Can be combined with		Front bezel, front plate		
Can be used for		Video PME, IQ Atom, IoT		
Touch technology/ touch points		5-wire resistive/ 1		
IP protection	front/ back	IP 64 (in combination with front bezel/ front plate)/ IP20		
Weight	[kg]/ [lb]	0.50/ 1.10		0.60/ 1.32
Dimensions with safety touch	[mm]	333.4 x 265.4 x 51.0	365 x 308 x 58.8	412.0 x 340.0 x 55.5

Options up to 24" Wide Format

Front bezel

Order number		DS-91-809	DS-91-793	DS-91-689	DS-91-747
Size		15.6"	17.3"	21.5"	24.0"
Can be combined with		Touch und safety glass			
Bezel		Sheet steel, powder coated, RAL 9005 (black), fine texture, matte finish			
IP protection	front/ rear	IP64 (in combination with glass or touch) otherw. IP20/ IP 20			
Weight	[kg]/ [lb]	0.4/ 0.88	0.5/ 1.10	0.70/ 1.54	0.72/ 1.59
Dimensions with option	[mm]	385.0 x 241.0 x 49.5	419.6 x 262.2 x 54.0	517.0 x 322.0 x 55.5	581.0 x 350.2 x 55.0

Front plate for front side mounting

Order number		DS-91-805	DS-91-750	DS-91-752	DS-91-746
Size		15.6"	17.3"	21.5"	24.0"
Can be combined with		Touch und safety glass			
Bezel		Powdered aluminium, RAL 9005 (black)			
IP protection	front/ rear	IP64 (in combination with glass or touch) otherw. IP20/ IP 20			
Weight	[kg]/ [lb]	0.5/ 1.10	0.5/ 1.10	0.70/ 1.54	0.72/ 1.59
Dimensions with option	[mm]	420.0 x 276.0 x 52.7	456.6 x 299.2 x 57.2	538.0 x 343.0 x 58.5	608.0 x 377.2 x 57.7

TrueFlat glass

Order number		DS-91-806	DS-91-755	DS-91-757	DS-91-743
Size		15.6"	17.3"	21.5"	24.0"
Can be combined with		—			
Glass		Safety glass, 3 mm, printed passepartout RAL 9005 (black), non-reflecting			
IP protection	front/ rear	IP 65/ IP 20			
Weight	[kg]/ [lb]	1.10/ 2.43	1.30/ 2.87	1.80/ 3.97	1.80/ 3.97
Dimensions with option	[mm]	420.0 x 276.0 x 54.0	456.6 x 299.2 x 58.5	538.0 x 343.0 x 60.0	608.0 x 377.2 x 59.0

Safety glass

Order number		DS-91-810	DS-91-596	DS-91-796	DS-91-742
Size		15.6"	17.3"	21.5"	24.0"
Can be combined with		Front bezel, front plate			
Glass		Safety glass, 2 mm, non-reflecting	Safety glass, 3 mm, non-reflecting		
IP protection	front/ rear	IP64 (in combination with front bezel or plate)/ IP 20			
Weight	[kg]/ [lb]	0.4/ 0.88	0.8/ 1.76	1.20/ 2.65	1.33/ 2.93
Dimensions with option	[mm]	382.0 x 238.0 x 48.0	416.6 x 259.2 x 52.5	514 x 319 x 54	578 x 347.2 x 53.0

PCAP-Touch (integrated in chassis)

Order number		DS-91-808	DS-91-760	DS-91-761	DS-91-744
Size		15.6"	17.3"	21.5"	24.0"
Can be combined with		Front bezel, front plate			
Can be used for		Video PME, IQ Atom, IoT			
Touch technology Touch points		PCAP, safety glass 3 mm, non-reflecting 10	PCAP, safety glass 3 mm, non-reflecting 10		
IP protection	front/ rear	IP64 (in combination with front bezel or plate)/ IP 20			
Weight	[kg]/ [lb]	0.5/ 1.10	0.8/ 1.76	1.20/ 2.65	1.4/ 3.09
Dimensions with option	[mm]	382.0 x 238.0 x 48.0	416.6 x 259.2 x 52.5	514 x 319 x 54.0	578 x 347.2 x 53.0

Options up to 24" Wide Format

PCAP-Touch with TrueFlat glass

Order number		DS-91-807	DS-91-759	DS-91-762	DS-91-745
Size		15.6"	17.3"	21.5"	24.0"
Can be combined with		—			
Can be used for		Video PME, IQ Atom, IoT			
Touch technology		PCAP, safety glass 2 mm, non-reflecting		PCAP, safety glass 3 mm, non-reflecting	
Touch points		10		10	
IP protection	front/ rear	IP 65/ IP 20			
Weight	[kg]/ [lb]	1.10/ 2.43	1.30/ 2.87	1.80/ 3.97	1.91/ 4.21
Dimensions with option	[mm]	420.0 x 276.0 x 54.0	456.6 x 299.2 x 58.5	538.0 x 343.0 x 60.0	608.0 x 377.2 x 59.0

Application software

Product	Order No.	Product description
WEBPOStER	DS-60-787	<p>WEBPOStERs are monitors that continuously display the content of a website. These monitors are based on an embedded LINUX system and are network devices. WEBPOStERs are configured via network with an internet browser. After configuration the monitor connects to a given website and begins a continuous display of its content. System administration or regular software updates are not required. WEBPOStER software is available for monitors of the IQ Atom series from 15" up to 64.5"</p> <p>The software is pre-installed and can be configured within minutes.</p>

Accessories up to 24"

Cables

Product	Order No.	Product description
DVI	DS-50-424	DVI cable, 2 m
HDMI	PC-05-009	HDMI cable, 1.5 m
DP	DS-50-571	Display Port cable, 2 m
RGB	KA-40-053	RGB cable, 1.8 m

PCs and Electronic

Product	Order No.	Product description
Memory extension RAM	DS-91-975	RAM extension up to 8 GB
Memory extension SSD	DS-91-997	SSD MSATA extension up to 240 GB
Power supply	NT-01-062	Desktop power supply for all monitors without PC up to 24", 12V DC/ 60 W

Mounts and Covers

Product	Order No.	Product description
Brackets for POS-Line up to 24"	DS-91-356	Additional brackets (2 pieces) for POS-Line open-frame versions from 15" to 24"

Operating systems

Mounts and Covers

Product	Order No.	Product description
Wall mount inclinable 31.5" to 54.6"	DS-91-540	Inclinable wall mount for all displays from 31.5" up to 54.6"
Wall mount inclinable 46" to 65"	DS-91-101	Inclinable wall mount for all displays from 46" up to 65"
Dust shield for POS-Line 42" to 65"	DS-91-604	Installed on top of the display, dust shield prevents liquid or falling dust from penetrating the electronic part of the monitor via the upper air vents
Cover for cable connectors POS-Line PME and PIII Series 31.5" to 54.6"	DS-91-723	Cover for the cable connectors to prevent unauthorized persons from removing or plugging cables. For all POS-Line displays of the PME and PIII Series from 31.5" up to 54.6"
Cover for cable connectors POS-Line PME and PIII Series 65"	DS-91-960	Cover for the cable connectors to prevent unauthorized persons from removing or plugging cables. For all POS-Line displays of the PME and PIII Series 65".
Cover for cable connectors POS-Line IQ Series 31.5" to 54.6"	DS-91-578	Cover for the cable connectors to prevent unauthorized persons from removing or plugging cables. For all POS-Line displays of the IQ Core-i Series from 31.5" up to 54.6". Also suited for optional PC boxes DS-91-426, DS-91-427 and DS-91-930.
Cover for cable connectors POS-Line IQ Series 65"	DS-91-961	Cover for the cable connectors to prevent unauthorized persons from removing or plugging cables. For all POS-Line displays of the IQ Core-i Series 65". Also suited for optional PC boxes DS-91-426, DS-91-427 and DS-91-930.
Cover for cables POS-Line 31.5" to 54.6"	DS-91-922	Cable cover. Only available in combination with covers DS-91-723 and DS-91-578.
Cover for cables POS-Line 65"	DS-91-962	Cable cover. Only available in combination with covers DS-91-960 and DS-91-961.

Brilan 4K – Monitors for highest details

Brilliant representation with 75"

Ultra High Definition (UHD) 4K TFT Monitors with a resolution of 3840 x 2160 pixels offer four times the resolution of conventional Full HD Monitors. The high pixel density allows pin-sharp imaging of filigree structures and the presentation a lot of information. Four Full HD images without scaling can be displayed simultaneously. Even scaled content is displayed much sharper and the readability is highly improved. For example, even the finest hairline cracks can be visualized in medicine and industry.

For driving the Brilan 4K Monitor, powerful controller cards are used, which can handle various input signals such as DisplayPort 1.2, HDMI 2.0, HDMI 1.4, DVI DualLink and VGA. Of course, features such as scaling, Picture in Picture (PiP) and Picture by Picture (PbP) are also supported.

- MONITOR FOR INSTALLATION, WALL AND CEILING
- OPEN FRAME OR DESKTOP
- FRAME FOR FRONT INSTALLATION
- VIDEO CONTROLLER
- SAFETY GLASS AS AN OPTION
- PORTRAIT OR LANDSCAPE
- ROBUST METAL HOUSING - ALUMINIUM

Fireload optimized displays 31.5" - 54.6"

Certificated displays without smoke gas development according to B-S1,d0

Protection against fire hazard and assessment of reaction to fire is a basic presumption when planning and erecting buildings. Installing and maintaining safe escape routes for people in case of fire is an indispensable part of preventive fire protection measures.

There is a growing demand for the installation of public displays in public areas of buildings. Visitor guiding systems, guest or employee information systems and advertising in public areas are some of the applications in industry, hospitals, schools and universities, public buildings and at trade fairs. Usually the places of installation such as entrance halls, stairways and corridors, are in the majority of cases also part of the signposted fire escape routes and preventive fire protection measures that do not allow the installation of devices which contribute to the fire load or to smoke gas production.

Based on the POS-Line public displays series, Distec designed and developed a monitor series which is optimized regarding the contribution to fire and smoke gas emission. The monitors have been tested according to DIN EN 13501-1 with SBI method EN 13823:2010-12 and considerably fall below the limits of class B-S1,d0, which means difficult to ignite (B), no smoke gas emissions (S1) and no flaming droplets (d0). This is the best classification next to non-flammable.

The devices are equipped with an integrated PC or a RGB controller, have a protective glass and a stable housing made of steel sheet. Each monitor is accompanied by a certificate certifying the fire class for the device. As a variant, BLO monitors are also available with a housing in RAL 9010 (pure white).

DISTEC
A FORTEC GROUP MEMBER

Fire Load and Smoke Certification

This monitor is a fire load and smoke gas optimized device. With this certificate we hereby confirm that it complies to the reaction to fire and fire resistance performances tolerances given below.

stick copy of monitor label

Reaction to Fire: The flammability and combustibility of the monitor were tested in accordance with DIN EN 13823:2015-02 (Reaction to fire tests for building products, excluding floorings, exposed to thermal attack by a single burning item)

The fire trial generated results enabling the monitor to be classified within the class B-s1,d0 (DIN EN 13501-1) in all categories.

It should be noted, however, that officially it is not possible to classify monitors under DIN EN 13501-1 as this norm was made for building materials originally.

Fire Load performance is dependent upon the screen diagonal measurement as follows:

Screen size	Fire load in kWh	Fire load in kg spruce wood
800.1 mm (31.5")	20.04	4.175
1066.8 mm (42.0")	35.53	7.402
1168.4 mm (46.0")	39.35	8.198
1386.8 mm (54.6")	45.13	9.402

Germering, 28. August 2017

High-bright displays 31.5" and 54.6"

Large monitors with strong backlighting for bright environments

In locations with a high ambient light level, for example shop windows, outdoors or brightly lit atria, displays with normal backlighting can be difficult to read. Data Display Group offers a range of products with a particularly strong backlight that are ideal in these conditions.

These displays have a backlight brightness of 1000 cd/m² and 2500 cd/m². High-bright displays are available in diagonal sizes 31.5" and 54.6". To protect the panels, they are supplied as standard with temperature monitors and brightness controls. In the event the temperature becomes too high, or if ambient light levels fall, the display regulates the screen brightness down in stages. As an option, the equipment can be extended to incorporate a removable PC-Box with Intel® Atom or Core-i5. Strong metal housings confirm our principle of development in accordance with industrial quality criteria.

- DISPLAY FOR BUILD-IN AND WALL
- HIGH BRIGHTNESS UP TO 2500 CD/M²
- HIGH QUALITY LCD PANELS WITH LED BACKLIGHT
- OPTIONAL WITH REMOVABLE ATOM OR CORE-I PC BOX
- BRIGHTNESS CONTROL AND TEMPERATURE MONITORING
- INFRARED REMOTE CONTROL FOR OSD
- PORTRAIT OR LANDSCAPE
- VESA
- ROBUST METAL CHASSIS

Application software

Product	Order No.	Product description
WEBPOSter	DS-60-787	<p>WEBPOSterS are monitors that continuously display the content of a website. These monitors are based on an embedded LINUX system and are network devices. WEBPOSterS are configured via network with an internet browser. After configuration the monitor connects to a given website and begins a continuous display of its content. System administration or regular software updates are not required. WEBPOSter software is available for monitors of the IQ Atom series from 15" up to 64.5"</p> <p>The software is pre-installed and can be configured within minutes.</p>

Mounts and Covers

Product	Order No.	Product description
Wall mount inclinable 31.5" to 54.6"	DS-91-540	Inclinable wall mount for all displays from 31.5" up to 54.6"
Wall mount inclinable 46" to 65"	DS-91-101	Inclinable wall mount for all displays from 46" up to 65"
Dust shield for POS-Line 42" to 65"	DS-91-604	Installed on top of the display, dust shield prevents liquid or falling dust from penetrating the electronic part of the monitor via the upper air vents
Cover for cable connectors POS-Line PME and PIII Series 31.5" to 54.6"	DS-91-723	Cover for the cable connectors to prevent unauthorized persons from removing or plugging cables. For all POS-Line displays of the PME and PIII Series from 31.5" up to 54.6"
Cover for cable connectors POS- Line IQ Series 31.5" to 54.6"	DS-91-578	Cover for the cable connectors to prevent unauthorized persons from removing or plugging cables. For all POS-Line displays of the IQ Core-i Series from 31.5" up to 54.6". Also suited for optional PC boxes DS-91-426, DS-91-427 and DS-91-930.
Cover for cables POS-Line 31.5" to 54.6"	DS-91-922	Cable cover. Only available in combination with covers DS-91-723 and DS-91-578.

VideoWall monitors 46"

Monitors for video walls with narrow bezel

Monitors for video walls are characterized by a frame, which is narrow as possible. The most important feature is the distance between two adjacent Active Areas (A2A). This distance marks the black bars in the picture. Distec VideoWall Monitors offer a distance of A2A of 5.7 mm at 46" diagonal and a brightness of 700 cd / m².

The monitors are equipped with a special video card developed for video wall applications. The daisy-chain cabling facilitates installation. Via HDMI and DisplayPort, the signals can be forwarded directly from one monitor to the next one. The same applies to the control signals via RS232. Further functions are the edge suppression as well as the exact distribution of the screen contents on all monitors.

- MONITORS FOR VIDEO WALLS
- HIGH QUALITY LCD PANELS WITH LED BACKLIGHT
- SPECIAL CONTROLLER FOR VIDEO WALL APPLICATIONS
- DAISY-CHAIN CABLING FOR HDMI, DP AND RS232
- VESA
- HANDLES FOR SAFE HANDLING
- IR REMOTE CONTROL
- ROBUST METAL HOUSING

Xtra-Line monitors 27" and 46"

Industrial monitors with special characteristics

Under the brand Xtra-Line we combine monitors with special features and designs that cannot be met by the other product lines. The Xtra-Line monitors include the following monitors:

- Xtra-Line 27 Video with TrueFlat Glass or TrueFlat PCAP Touch
- BrilanLED 116.8 cm (46") Video PME - with front frame (recessed and wall mounted)

The monitors all have a very small overall depth and are particularly suitable for installation in confined spaces. The BrilanLED also impresses with its very narrow frame of 16 mm. All monitors have a rugged metal housing, VGA, HDMI and DP interfaces and are particularly suitable for digital signage applications.

- MONITOR FOR INSTALLATION AND WALL
- HIGH QUALITY LCD PANELS WITH LED BACKLIGHT
- 27" MONITOR WITH TRUE-FLAT GLASS OR TOUCH
- VESA
- ROBUST METAL HOUSING

Customized monitors

Design - Production - Logistics - Everything from one source -
Everything from Germany

With more than two decades of experience in the development of TFT-LCD controllers and monitors Distec GmbH is one of the market's specialists.

Core competencies:

TFT Distribution: Direct access to all major manufacturers

Electronics: Development of TFT controllers, ARM and FPGA based architectures

Touch solutions: individual adaptation of touch glasses and functionality

Software: Firmware and driver software development for TFT controllers under Linux and Windows

System Design: Application-dependent development of monitor solutions including control and thermal design

Production: Production and testing of monitors and assemblies

Certification: Certification of the products

Logistics: Neutral, direct shipping, timely deliveries

References:

Many well-known companies now give their trust to Distec GmbH. For them, we successfully develop and manufacture individual monitor solutions according to industrial standards (ISO 9001: 2015).

The fields of application are manifold: Medical technology, military technology, automotive and capital goods industry, food and vending industry, retail as well as building control technology are among Distec's most frequent markets.

Digital signage and industrial signage applications can be found in many applications.

Whether as an information terminal in the POS, for merchandise presentation in shops and shop windows, in machines, for machine operation or in modern paperless production as an information medium - Distec monitors fulfill the requirements of our customers.

You can not meet your requirements with a standard monitor? We look forward to talking to you and are sure to develop a tailor-made solution for you as well.

Examples of customer-specific adaptations:

- Integration of special components such as e.g. Scanners, NFC or RFID readers, control or PC boards, network hub
- Solutions in customer design or with customer color
- Specially hardened front glasses or glass surfaces for antireflection or reduction of fingerprints
- Integration of sensors (temperature, brightness or function monitoring) to control the monitor brightness depending on the ambient light
- Management software for central administration

Our company network supports you worldwide with offices in Germany, Austria, Switzerland, Great Britain and the USA. For more information please contact:
