

# ELECTRODE SYSTEM

## AUTOMATED WELD CAP CHANGER

## SPECIFICATIONS

Item/Model	ASTUTE-X
Voltage	230-575V 50-60Hz single/3 phase
Motor	AC Electric motor with 24VDC rotation sensor
Includes	Enclosed gearbox for cap extraction unit with rotational spring loaded grippers Rod-less pneumatic cylinder fed cap magazine with quick exchange cartridge refill system 1.5L cap collection container Stand mounted
Benefits over the Lucid-X	Lenze smart electric AC motor efficient Global certification Adjustable speed control, enables cutter speed between 312.5 and 1662.4 rpm under load Integrated soft start function Reduced wiring requirement due to integrated electronic contactor and motor protection function Energy efficient with operational capability via NFC smartphone and Lenze app
