## **Kilfrost DF Sustain™**

**Kilfrost DF Sustain™ is an SAE/ISO Type I de/anti-icing fluid, qualified to AMS 1424 and ISO 11075 (latest revisions).**

Kilfrost Type I fluids are primarily used for de-icing purposes and offer limited anti-icing protection. If weather conditions dictate that anti-icing is required, a further application of an appropriate anti-icing fluid (Type II/IV) will be necessary.

### **Environmentally friendly**

Made from Bio-glycol derived from a sustainable source, the first available product on the market.

### **High Performance**

Lower operational use temperature, good Storage stability – low foaming, triazole free.

### **Reliability**

Our attention to detail delivers de/anti-icing products that perform every time and that are used across the globe.

### **Logistics**

Our global coverage means we can be where you need us when you need us, delivering on time even against the odds.

### **Safe to use**

Good sprayability, non toxic and non flammable.

### **Customer support**

Kilfrost's 75 years of experience can support you with our technical expertise to offer you the right product.

### **Quality you can trust**

Five-star products are at our heart and we are proud of our reputation for continually raising the benchmark through innovation.
