Kilfrost Runway Plus

Qualified to AMS 1435, glycol free, potassium formate based de-icing fluid.

Kilfrost Runway plus melts ice quickly and offers long lasting anti-icing protection. In addition Kilfrost Runway Plus performed extremely well in the cadmium corrosion test, performed by Boeing.

High Performance

Kilfrost Runway Plus will rapidly melt frozen deposits leaving a non slippery surface. Due to its low viscosity and freeze point characteristics, Kilfrost Runway Plus can be spray applied at temperatures below -20°C.

Reliability

Kilfrost Runway Plus is suitable for use on a range of surfaces including concrete and bitumen to remove frost, ice and snow deposits.

Logistics

Our global coverage means we can be where you need us when you need us, delivering on time even against the odds.

Safe to use

Low toxicity and excellent biodegradability makes Kilfrost Runway Plus the ideal choice for safe and efficient runway de-icing.

Customer support

Kilfrost's 75 years of experience can support you with our technical expertise to offer you the right product.

Quality you can trust

Five-star products are at our heart and we are proud of our reputation for continually raising the benchmark through innovation.
