Kilfrost WWF Mod3

Dual purpose windscreen washer and windscreen de-icer

Kilfrost WWF mod 3 was originally designed for military use with the dual purpose of washing and de-icing windscreens on low flying aircraft. The product is now in widespread use throughout the military, commercial and general aviation sectors as an approved fluid for windscreen washing and de-icing systems.

Outstanding Windscreen Washing Performance

Used by the military to remove salt, insects and other debris from low flying aircraft, Kilfrost WWF is formulated to offer outstanding windscreen washing capability.

Outstanding Windscreen De-Icing Performance

With a glycol-based formulation that offers full de-icing capability down to -30 °C, Kilfrost WWF gives far superior de-icing performance than standard alcohol-based fluids

Fully Biodegradable

Kilfrost RDF

De-icing fluid for ground-based de-icing of light aircraft

Kilfrost RDF is a highly effective de-icer used mainly for de-icing light aircraft whilst on the ground. The product can also be used for treating exposed metalwork such as aircraft hangar doors, manhole covers etc.

Easy to Use

No need for dilution, use straight from the container.

Fully Biodegradable
