

Kilfrost

ice melt

Fast and effective
ground de-icing
without the mess
and corrosion of
rock salt.

**You can count on
Kilfrost to deliver
peak de-icing
performance
when it matters.**

**Fast and effective without the mess
and corrosion of rock salt.**

New Ice Melt from Kilfrost is based on unique aviation and rail industry technology available for the first time as a ground de/anti-icer.

Significantly less corrosive than rock salt, Ice Melt's clean formulation is fully soluble leaving no messy residue and is not harmful to humans, animals or vegetation. It is also fully biodegradable.

**Ideal for airports, railway platforms,
industrial sites, hospitals, schools and
other areas where corrosion matters.**

Kilfrost Ice Melt offers super fast de/anti-icing performance. It is available in three formats: granules, pellets and liquid to suit your favoured application method. It is easy to apply with excellent coverage.

Ice Melt can be used either to protect (anti-ice) surfaces prior to anticipated frosty conditions, or to remove (de-ice) existing frozen deposits.

From the global leaders in de/anti-icing.

With over 75 years experience in the de/anti-icing industry, Kilfrost is the global leader in the aviation, rail and industrial markets. Five-star products are at our heart and we are proud of our reputation for continually raising the benchmark through innovation.

Introducing the Ice Melt range...

Super Grip

- Easy application by shovel, gloved hand or spreader
- Excellent adhesion to all surfaces
- “Super Grip” additive for added visibility and excellent grip underfoot
- Long lasting performance
- Available in 10kg bags

Power Pellets

- Easy “free-flowing” application: ideal for de-icing large areas with shovel, gloved hand or mechanical hopper
- Latest “Power Pellet” Ice Melt technology gives rapid, long-lasting performance
- Clearly visible with excellent grip underfoot
- Fully soluble: no residue left behind
- Available in 10kg, 25kg and 1000kg bags

Liquid Melt

- Super-fast performance for instant de-icing
- Excellent adhesion to all surfaces
- Easy application over large areas using standard backpack spray
- Fully soluble: no residue left behind
- Available in 10ltr, 25ltr, 215ltr and 1000ltr containers

Kilfrost

Five star performance for a variety of applications.

Coverage rates per m²

Product	Anti-icing 0 to -5 °C	Anti-icing -5 to -10 °C	De-icing 0 to -5 °C Frost/light ice	De-icing -5 to -10 °C Compacted snow	Performs down to:	De/anti-icing
Super Grip	15g/m ²	20g/m ²	20g/m ²	30g/m ²	-20 °C	Both
Power Pellets	15g/m ²	20g/m ²	20g/m ²	30g/m ²	-20 °C	Both
Liquid Melt	15ml/m ²	15ml/m ²	25ml/m ²	50ml/m ²	-30 °C	Both

Rail approved

How to order Kilfrost Ice Melt

For ordering information and technical assistance regarding this product, please contact a member of our Customer Service team on +44 (0)1434 321500 or email info@kilfrost.com
