Kilfrost TDIce Nordic GROUND SUPPORT EQUIPMENT

Kilfrost TDIce is used as a hot de-icing fluid for use with the Nordic De-Icing 15000/30000 systems. Only fluids from the Kilfrost TDIce range of products are recommended for use with the Nordic system.

High Performance

An industry leading additive package protects sprayed parts and track against corrosion, and is free of triazole and nonylphenol ethoxylates. The product has been formulated for excellent spraying ability with minimal foaming

Safe to use

The product is heated and sprayed onto the iced underside of rolling stock to remove ice accretions and render the train in a suitable condition for operation and maintenance

Environmentally friendly

Kilfrost TDIce fluid is a non-toxic, environmentally-friendly monopropylene glycol based fluid. The fluid biodegrades completely in the environment and has none of the toxicity issues associated with ethylene glycol based formulations

Logistics

Our global coverage means we can be where you need us when you need us, delivering on time even against the odds

Customer support

Kilfrost's 75 years of experience can support you with our technical expertise to offer you the right product

Quality you can trust

Five-star products are at our heart and we are proud of our reputation for continually raising the benchmark through innovation
