**DAVID SALISBURY LONDON SHOWROOM**

The Chelsea Gardener, 125 Sydney Street, London SW3 6NR

We are very proud to have opened our very first showroom in the heart of Chelsea, at The Chelsea Gardener garden centre. The showroom is an impressive, classically inspired orangery with a central dome lantern and two smaller rectangle lanterns.

From the initial design concepts, to engineering and construction drawings, manufacture and installation, our bespoke design and project management service can take care of every element of your project. All who visit have a jaw dropping reaction to the overall design.

#### DOMED LANTERN

The dome is the central focus of the showroom and is set off by independently operated blinds. The dome measures 3.5m diameter.

#### ORNATE PILASTER

Four ornate pilasters adorn each side of the orangery. With intricate detailing and its dark paintwork, it gives a beautiful decorative edge to the building.

#### DECORATIVE FASCIA

This is a close up image of the orangery fascia. The Dentil detail was added to give the fascia another dimension.

Open to the public seven days a week, between 10am - 6pm, you can see the quality of our build. We have a second structure on site - a contemporary Garden Room - which serves as a perfect contrast to this beautifully traditional design.

We can also arrange to meet you by appointment at the showroom to discuss your individual design requirements.
