

SHEFFIELD • ENGLAND

Machine Knife & Industrial Blade Manufacturer

"Razor sharp since 1910"

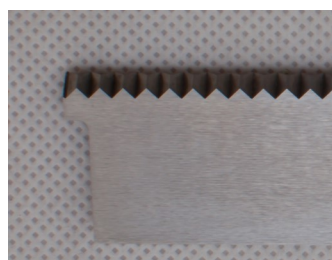

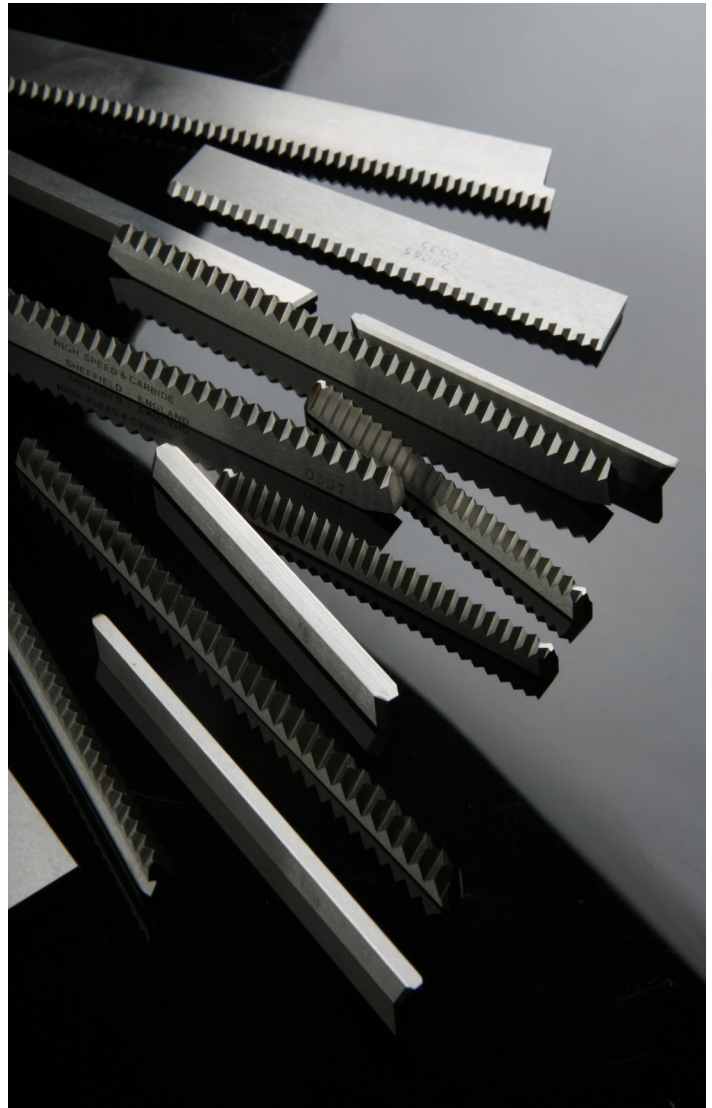

Horizontal Form Fill and Seal (HFFS) Flow Wrap Blades

Flow wrapping operate son the horizontal using scissor action between a knife and an anvil inside the sealing jaws to cut the packaging once it is sealed. Therefore, the accuracy of the Horizontal Form Fill and Seal (HFFS) (aka Flow Wrap) knives and anvils is very important to the operation of the packaging machine.

Durham-Duplex specialise in manufacturing all types of knives and anvils for VFFS offering increased life and accuracy with any variations required by the customer such as:

- Reciprocation
- Different size teeth
- Different materials
- Tear notch
- Zig zags
- Brass lugs
- Shims

For more information a quotation please contact the Sales Team with the machine type, dimensions and ideally a sample.
