UPN™ Self-piercing clinch nuts on wire

NA Specific Fastener

Application area

- For single-stage processing and moderate loading cases
- Emboss required in most cases

Technical characteristics

- Thread sizes M5 – M8
- Pierce nut can be universally used for various sheet metal thicknesses up to 6.00 mm
- Suitable for quasi-static loads
- Excellent cost/performance ratio
- High resistance to torque forces, even for thin sheet metal

| ITEM # | THREAD SIZE | PANEL THICKNESS RANGE | CAD |
|--------------|-------------|-----------------------|--|
| <u>UPN05</u> | M5x0.80 | 0.64 - 1.68 mm | CAD  |
| <u>UPN06</u> | M6x1.00 | 0.64 - 1.68 mm | CAD  |
| <u>UPN08</u> | M8x1.25 | 0.64 - 1.68 mm | CAD  |
