WHY 100% REGENERATED POLYAMIDE?

At the heart of it all, conventional nylon / Polyamide is very bad for the planet. It isn't biodegradable (it won't decay naturally in the ground), and creates a greenhouse gas that is over 300 times stronger than carbon dioxide. This has awful implications for the environment.

Solution? Kingly 100% regenerated Polyamide

This is a 100% regenerated polyamide 6 yarn, the recycling process is ecologically sustainable as it is obtained from waste of raw materials in the production phase that, if not recycled, would have to be disposed of in a waste plant.

The production is respectful with the environment by using a highly efficient recycling process that significantly **reduces the consumption of CO2, energy and water.**

The yarn is certified by **OEKO-TEX STD 100 CLASS I and GRS**, to meet the needs of companies seeking to verify the recycled content of their products by a third party and to verify responsible social, environmental and chemical practices in their production.

EASY CARE

Garments are machine washable and can be tumble dried. Thanks to its structure, it recovers its shape and does not need ironing.

VOLUME AND SOFTNESS

The yarn is a textured polyamide thread that maintains the properties of volume and softness after the dyeing process.

KINGLY
100%
Recycled
Polyamide

BRIGHT INTENSE COLORS

Allows to dye any color, from light to bright and dark colors, offering good fastness and homogeneous colors.

ELASTICITY

Offers good elasticity, ideal for all end uses where comfort benefits are essential.

Polyamide

Fastness to washing at 40°	ISO 105-C06-A1S:2010	4-5
Fastness to water	ISO 105-E01:2013	4-5
Fastness to acid perspiration	ISO 105-E04:2013	4-5
Fastness to alkaline perspiration	ISO 105-E04:2013	4-5
Fastness to rubbing dry and whet	ISO 105-X12:2016	4-5
Fastness to dry heat	ISO 105-P01:1993	4-5
Fastness to chlorinated water	ISO 105-E03:2010	Must be analyzed color by color
Fastness to xenotest	ISO 105-B02:2013	Must be analyzed color by color

Info. These values are indicative, informative and generalized. For exact values each color should be analyzed.

Available Articles

KINGLY 78/24/2 80tpm

Colors will be produced under request

Optimal lots available

1Kg, 5Kg, 15Kg, 30Kg, 60Kg, 130Kg, 170Kg, 470Kg

KINGLY™

FINE KNITTED SOCKS

100%

REGENERATED POLYAMIDE

Textile recycling converts waste into new products or materials for later use, prevents the loss of potentially useful materials, reduces the consumption of new raw materials, reduces the use of energy, reduces air and water pollution.
