# Perimeter Safety Fencing Systems

Perimeter Safety Fencing projects from Sponmech are tailored to suit your industrial safety needs, offering great quality and innovative design. We manufacture industrial plant perimeter guarding, safety fencing for robotised lines, warehouse partitioning, test-rigs guarding and many other types of fencing that are built for durability and reliability.

**All our safety fencing systems conform to BS EN 953:1997+AI: 2009 Design & Construction of Fixed and Moveable Guards.**

For Technical Diagrams, Stock Lists and Planning Sheets please visit: [www.sponmech.co.uk](http://www.sponmech.co.uk)

## Top Quality Perimeter Fencing

- Extremely strong, custom-built safety fencing systems.
- Complete with adjustable posts.
- We can offer a variety of infill options; mesh, woven mesh, sheet steel, stainless steel and polycarbonate (note infill options can be combined where needed).

## Heavy Duty Fencing

- Resilient, hard wearing and fit for purpose guarding system.
- Typically manufactured from 100x100mm box section frames and 40x40 box or 50x50 panels, ensuring a greater degree of strength.
- Recommended for Steel works, Steel processing plants, Quarries and Mineral processing plants.
- All heavy duty safety fencing projects come complete with adjustable posts.

## Access Budget Safety Fencing

- Modular fencing system.
- Low cost.
- Recommended for Logistic Projects and Warehouse Partitioning.
- Available ex-stock.
- Easy to install.
- Customers who bought this product include Nestlé, Jaguar Cars & Toyota.

# Next Generation Standard Machine Guards

Sole UK distributor of  **TECHNOPIU**<sup>®</sup>  
Safety Guards

Sponmech offer lathe guards, drill guards, milling machine guards, slotter guards, press guards and many more.

## Popular Standard Guards

For the full range visit our on-line shop [www.sponmech.co.uk](http://www.sponmech.co.uk)

### Milling Machine Guards

 <ul style="list-style-type: none"><li>• Model PFR 02/625</li><li>• Multi-adjustable Mill Guard</li></ul>	 <ul style="list-style-type: none"><li>• Model PFR 01</li><li>• Universal Milling Machine Guard</li></ul>
--	---

### Lathe Guards

 <ul style="list-style-type: none"><li>• Model PTO 01</li><li>• Lathe Chuck Guard</li></ul>	 <ul style="list-style-type: none"><li>• Model PTO 04</li><li>• Large Chuck Safety Guard</li></ul>
--	--

### Drill Guards

 <ul style="list-style-type: none"><li>• Model PTR 04</li><li>• Guard for Medium-Small Drills</li></ul>	 <ul style="list-style-type: none"><li>• Model PTR 02</li><li>• Guard for Drills and Radial Drills</li></ul>
--	--

- Many guards available ex-stock, for immediate delivery.
- Our Standard Next Generation Machine Guards are unrivalled in quality and design.
- Each guard comes with full safety conformity.
- All guards are P.U.W.E.R 98 compliant and CE marked.
- Easy self installation and instructions.
- Cost-effective guarding and a compliment to your machine.

# Acoustic Enclosures

Sponmech offer the complete noise control solution to a range of industries. We have over 20 years experience in the design & manufacture of bespoke acoustic enclosures.

**All our acoustic enclosures are designed and manufactured to BS EN ISO 15667:200 Noise Control by Enclosures and Cabins.**

We've invested in the latest CNC machinery to be able to offer cost effective manufacturing of acoustic enclosures for industry.

- CAD drawings are produced and fed to the machines that produce the sheet steel folded panels.
- Attenuated air intakes, powdered doors, hinged and sliding doors can all be built.
- Electric fans are all available.
- All parts are expertly powder coated at our specially built unit.
- Site installation by our trained fitters is also available.
- Sponmech have noise control engineers who offer consultancy on all industrial noise issues and can conduct noise surveys and impact reports using the latest Pulsar instruments technology. To arrange a survey, contact: [sales@sponmech.co.uk](mailto:sales@sponmech.co.uk)

# Door Design

Sponmech offer a quality door design service using the highest quality components.

Dependent on your requirements we can offer:

- Access doors
- Hinged access doors
- Double doors
- Sliding doors
- Cantilever doors
- Rise & fall doors

# Machine Tool & Bespoke Enclosures

We can design and fabricate enclosures for Robots, Machine Tools, Noise reduction and any kind of apparatus.

Your enclosure will be built using our CNC punching and folding machines.

Our enclosures can be made for any special purpose. All enclosures are fully HSE compliant, quality assured to ISO 9001 and come complete with a certificate of conformity.

## Light Guards

We offer a Light Guard range to partner Sponmech's bespoke perimeter guard lines and our stock 'Access Budget' system.

Customers who require our standard, acoustic and machine tool guards often require Light Guards also.

Light Guards are very useful safety devices which provide high accessibility to machinery and can monitor large areas.

## 'Crystal Clear' Window Guards

*For all machines*

**Be safe not sorry!**

Standalone polycarbonate degrades, discolours and weakens easily.

Sponmech offer triple protection with our combination of sealed glass, polycarbonate overlay and a tough steel punched grid frame.
