EXTENSIVE PRODUCT RANGE

Our range variation, depth and quality provides you with everything your market requires so there is no need to deal with the issues associated with multiple supply sources. We are recognised as the one stop solution for power tool accessories, abrasives and consumables and are committed to consistent and comprehensive supply to all of our customers around the globe.

BASED IN THE UK

Abracs are a UK based company delivering expert manufacture & service of abrasive products. Our York Based HQ is home to our internal sales team and comprehensive stock facility which enables us to offer next day delivery on our entire range. We hold the UK's most extensive cross section of power tool accessory product groups which enables us to cater for almost any market.

NEXT DAY DELIVERY

Maintaining a 99% stock availability on our entire range means you can rely on any product being shipped directly, next day and in full when you order before 4pm. Next day delivery comes as standard when you order before 4pm. We also offer pre 10:30 & pre 12:00 delivery options as well as interactive order tracking so you know exactly when to expect your order.

OVER 3 DECADES OF EXPERIENCE	PERSONAL ACCOUNT MANAGEMENT	OUTSTANDING CUSTOMER SERVICE	SALES & PRODUCT TRAINING	MONTHLY PROMOTIONS	BASED IN THE UK

OUR DEDICATION TO CUSTOMER SUPPORT

In addition to being visited in person regularly, every enquiry, request or order you place with Abracs is managed by your own dedicated internal account manager based at York HQ. Our customer focussed marketing department is dedicated to your support. If there is anything you need, contact us and we will make sure you are absolutely satisfied, supported and happy with our service.

CONTACT THE ABRACS TEAM TODAY

PROFESSIONAL QUALITY PRODUCTS

At Abracs, we only produce professional products for the professional user. Every single Abracs product is manufactured with absolute quality to European safety standards. Our Resident Product Tester, Bruce Bellinger, carefully sources and puts each product through rigorous testing procedures to ensure all Abracs products perform to extremely high standards. The Abracs quality stamp is our seal of approval to our customers.

MARKET LEADING BRAND

WE MAKE SURE THAT THE ABRACS BRAND IS RECOGNISED FOR QUALITY AND CONSISTENCY BY PROFESSIONAL USERS IN EVERY UK MARKET.

Through our Motorsport sponsorship, social media channels, online presence, trade shows, trade magazine advertising, PR, promotion, merchandise, product videos and events such as the York Soapbox race which we took part in for the first time this year, we have built the Abracs brand to create massive awareness in the end user markets, making Abracs one of the UK's most trusted and recognised power tool accessories & abrasives brands in the industry.

Our brand has been developed to reflect the premium quality and expert manufacture of our products. Our investment in marketing and brand building direct to the trade, benefits our distributor network's sales through increased end user awareness as well as direct enquiries from the trade which are passed on to you to fulfil our 'distribution only' promise.

Throughout 2019 we significantly increased our presence at Trade Shows around the UK and Europe, and we will continue to participate in even more during 2020.

We use these shows as a platform to further raise awareness of the Abracs brand and engage directly with the people using our products. It has given us a fantastic opportunity to interact with end users and learn more about their wants and needs when it comes to power tool accessories. All end-user intel that we gather at trade shows is passed back to our regional distribution customer base.

POINT OF SALE

Create a talking point on your trade counter with our eye-catching and sales focussed point of sale range. Consumable products can be added on to virtually any sale and we know from listening to our customers that the trade counter is a great place to pick up on extra sales.

Abracs POS range displays our new and innovative products, features, product USP's and range additions in a clear to see and easy to understand package. All displays in the range are designed at a perfect size for a competitive sales space.

DISTRIBUTOR SUPPORT

THIS ENABLES US TO PUT OUR CUSTOMERS IN THE BEST POSSIBLE POSITION TO PUSH OUR BRAND IN THEIR MARKET, WITH PROVEN RESULTS.

Boost sales, create product awareness and make your shop & marketing look great with the Abracs distributor support range. Over the last couple of years we've developed a wide selection of internal and external marketing material including product display stands, trade counter displays, banners, flags, posters, plaques, stickers and merchandise to enhance brand and product appearance in-store.

This package is designed to attract and inform your market about the Abracs product range, quality and performance. As an Abracs customer you have access to the entire distributor support range to help develop sales and customers.

TRADE COUNTER SUPPORT

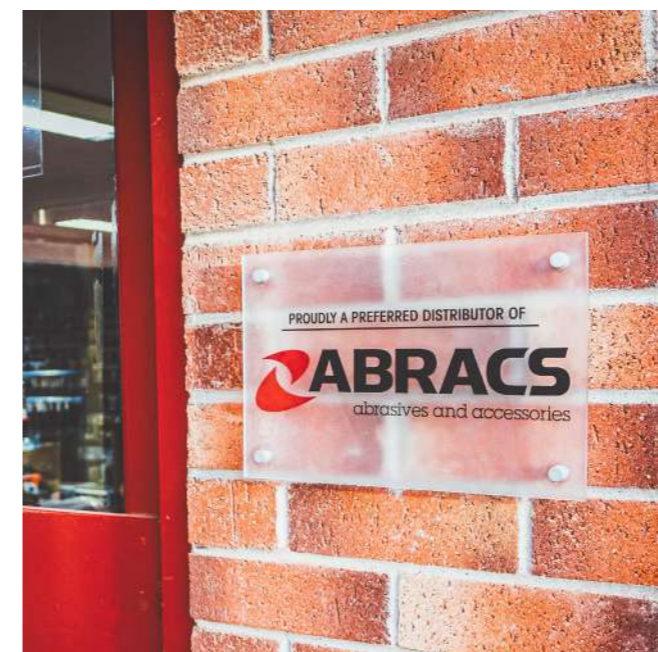

INSTALLATION, MAINTENANCE & SUPPORT. OUR TEAM ARE THERE TO ASSIST YOU EVERY STEP OF THE WAY.

Our Sales & Marketing team will assist you in making informed decisions to make sure we are offering the best distributor support to suit YOUR trade counter, we understand that shops and trade counters will always vary in shape, size and sales technique. We will always try to give you the best possible options to enable you to market the Abracs brand effectively within your space.

To assist with this further we are always happy to visit you and help with the installation of stands and all Abracs merchandise including building and dressing the stands, helping with product placement and grouping to ensure your products are in the best position to sell.

Once everything is in place you will get regular visits from your ASM in order to maintain the stand, advise on any new distributor support options and ensure your stocks levels are adequate to keep your stands looking great in your shop.

The images you see on this page are all from existing customers who have reached out for our help in pushing the Abracs brand and the results speak for themselves. The stands and merchandise all help to make the Abracs brand more visible to customers, which if done correctly can have a positive impact on your sales overnight. We think the product quality speaks for itself, we often hear of great reviews and repeat custom from the end user market, therefore having the tools to make that first sale is always important.

ONLINE SUPPORT

Get Abracs looking good on your website to create extra online sales & benefit from online customer enquiries. With access to our product upload file and Dropbox you can select any up to date product image and specification you need.

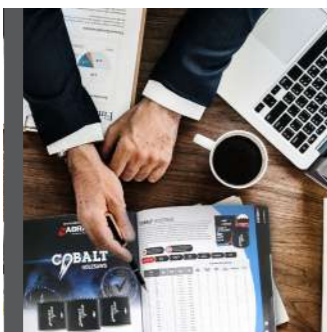

MARKETING SUPPORT

Our in house Design & Marketing team can support your sales and take the work off your hands for catalogues, flyers and promotional material. You supply your company logo and details and we can take care of the rest.

SALES SUPPORT

Get plugged in to Abracs promotions, presentations, product literature and samples packs with the rep support pack, training and real time support. Our reps can assist you to help boost your sales with their extensive knowledge.

PRODUCT VIDEOS

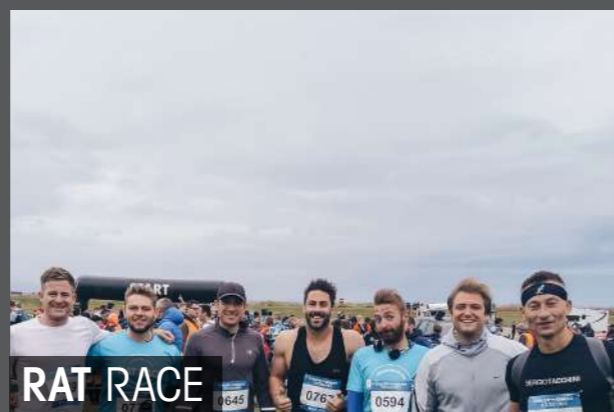

The Marketing team and Resident Product Tester took to the Abracs Test Zone after hours to shoot videos for each of our product ranges. Upload these to your website or play in store to grab attention and boost customer engagement.

CHARITY & FUNDRAISING

2019 saw the Abracs team take on numerous challenges. We began the year by climbing Scafell Pike in the Lake District raising money for Cystic Fibrosis Trust. Then we got muddy as we completed Total Warrior for Shelter, before the daunting 105 mile Rat Race Coast to Coast Adventure in the Scottish Highlands saw us end the year on a euphoric high as all 7 of our Rat Racers completed the mammoth challenge, raising money for Cancer Research and bringing our total for the year to almost £10,000.

Check out our social media channels and Newshub page on the Abracs website to see what the team have planned for 2020.

SOCIAL MEDIA

Throughout 2019 we have put a huge amount of time into growing our social media, these channels provide a fantastic base for us to communicate with our customers, as well as end users increasing our exposure on both the distribution & end user markets.

Follow us on one of our social media channels to receive regular company updates, product information, and to keep up to date with our regular giveaways which offer incredible prizes.

MEET THE TEAM

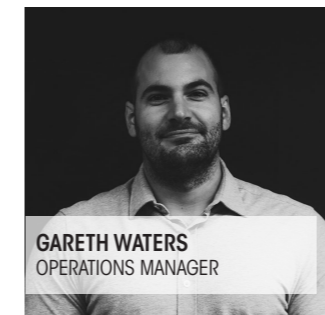

We are the Abracs Team, with a wealth of industry experience that you can benefit from as an Abracs customer. We have over 170 years shared experience with abrasive markets & products and a variety of different skills to cover all bases.

ABRASIVE MARKING SYSTEM

Training and additional information on the safe use and fitting of abrasive wheels is available from Abracs.

SAFETY ICONS

GRADE EXPLANATION

INDICATES THE ABRASIVE GRAIN
A = Aluminium Oxide
C = Silicon Carbide

INDICATES THE HARDNESS OF THE DISC

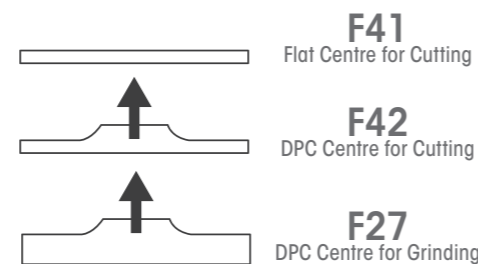

A 30 S BF

INDICATES THE GRIT SIZE
The higher the number, the finer the grade

INDICATES THE NATURE OF THE BOND
'BF' stands for reinforced bond

SHAPE EXPLANATION

Abrasive discs are available in several different types, the most commonly used are shown below.

ABRASIVE WHEEL TRAINING

As part of our on-going commitment to quality and safety we are now offering Abrasive Wheel Training courses as an additional service to our customers and wider end-user market. Legislation regarding the supply, fitting and use of abrasive wheels has changed significantly in recent years making it difficult for employers and operators of abrasive wheels to be clear on their legal requirements.

As part of our new courses, employers and operators will gain a full understanding of legislation and legal requirements, understand the potential dangers and hazards of abrasive wheels and leave fully certified for their respective roles. Courses are available either on-site or at our in-house training and demonstration facility. We currently have 3 fully trained and accredited Abrasive Wheel Trainers on hand to deliver the training that will provide you with the basic skills and knowledge that are required to operate abrasive wheel machines in a safe and efficient manner.

Contact the Abracs team for more details

CUTTING DISCS PROFLEX & PHOENIX

Abracs Cutting Discs are available in both Proflex Trade & Phoenix Pro quality levels for metal & stone applications in an extensive range of sizes. Our experience in manufacturing processes developed over nearly 3 decades, combined with the use of premium quality raw materials enables us to produce cutting discs with significant increases in product lifespan, performance and quality. All Abracs cutting discs are manufactured to European safety standards and marked with EN12413.

PROFLEX

Proflex discs offer professional quality performance and are a great value product, priced competitively with an exceptional cost per-cut ratio.

PHOENIX

Phoenix discs are produced to O.S.A. Safety standards. Manufactured using premium quality materials, Phoenix II discs offer ultimate performance, long life & outstanding value.

If you need any help selecting a disc for a specific machine or application contact the Abracs team.

Bulk rates are available for outer quantities and volume orders. Ask the team for details.

Use PF in the highlighted area of the product code for Proflex discs or PH for Phoenix discs e.g. PH11530FM

PHOENIX EXTRA THIN CUTTING DISCS

Our Phoenix discs are one of our signature products. A superior quality European manufactured range of extra thin cutting discs produced to O.S.A. Safety standards. Extremely fast and precise cutting with minimal effort required. Phoenix discs have been developed for precision cutting sheet metal and with strengthened core stability for reduced vibration. Our Phoenix Extra Thin Discs do not contain iron, sulphur or chlorine so are suitable for stainless steel cutting applications.

Phoenix 115mm x 1.0mm Extra Thin discs are supplied in both tins of 10 & 25's, see the table for details.

Bulk rates are available for outer quantities and volume orders. Ask the team for details.

3 QUALITY LEVELS

The range has been split into 3 clear categories, 3 Star Proflex Trade, 4 Star Phoenix Pro & 5 Star Black Edition Expert. The 3 tier quality system comprehensively covers the demands of the professional market with each option offering a perfect balance of performance & value to an extensive range of customers.

CUTTING DISCS PHOENIX SILVER

Phoenix Silver is a European manufactured disc range free from Iron, Sulphur and Chlorine. Similar to our Extra Thin Cutting Discs range the Phoenix Silver range of cutting and grinding discs is designed specifically for use on stainless steel as these specialist discs do not leave residue or contamination. Produced to O.S.A. Safety standards and marked with EN12413. Silver discs are popular for use within the food, nuclear and petrochemical industries.

MULTI-FUNCTION PIN SPANNER

Versatile & multi-functional pin spanner with an adjustable head making it suitable for any size of grinder. This product incorporates a shaped hole which can be used as a wrench to unscrew and fasten 10mm-19mm bolts as well as a flat handle base that can be used as a screwdriver.

Specification	Box Qty	Outer Qty	Product Code	List Price
Multi Function Pin Spanner	10	100	ABSPADJ	£6.13

SEMI-FLEXIBLE GRINDING DISCS

Semi-flexible grinding discs are designed for aggressive stock removal on stone applications & cast iron. These extremely durable and heavy duty silicon carbide grinding products are premium quality and have an exceptionally long service life. The contoured surface is designed to consistently remove high levels of stock over a wide range of applications.

i Semi-flexible discs should always be used with a backing pad. **»»** Turn to page 77 for full Abracs Backing Pad Range. **G** Use desired grit listed in spec in highlighted area of the product code e.g. ABSF115036C for 036g

HYBRID 5 IN 1 MAXI DISCS

The "5 in 1" Maxi disc has been designed for cutting applications on virtually all materials including metal, stone, stainless steel, aluminium and plastic/PVC. Professionals using this disc will no longer need to change discs for different materials leading to higher productivity, reduced product issues and increased operator safety.

i Hybrid 5 in 1 Discs can greatly improve efficiency on site.

📞 Hybrid "5 in 1" discs are a new product to the UK market contact the Abracs team for additional sales support to help promote the benefits to your customer base.

HYBRID 3 IN 1 MULTI DISCS

The "3-in-1" Multi disc can be used for cutting, grinding and finishing applications simply by altering the angle at which the disc is used. 90 degrees for cutting, 30 degrees for grinding and 15 degrees for finishing. An extra layer of reinforcing has been added to the disc to ensure that it can cope with additional side pressure from grinding. The disc is also INOX (iron, sulphur and chlorine free) meaning that it can be used on stainless steel without any risk of material contamination or rust formation.

i Hybrid 3 in 1 Discs can greatly improve safety on site.

HYBRID FLAP DISCS

The new Hybrid Flap Disc has been designed using a double row of mixed abrasive cloth on a flexible and durable fibre glass backing. Significant R&D and subsequent product testing proves that using a mixture of 60g material on the bottom layer and 40g material on the top layer leads to increased performance and life time of 20% over a standard flap disc.

i Hybrid 20%+ Flap discs can greatly improve efficiency on site.

3 QUALITY LEVELS

The range has been split into 3 clear categories, Trade level AL/OX, Pro level Zirconium & Expert level Ceramic as well as Expert level Non-Woven & Felt Flap Discs. The 3 tier quality system comprehensively covers the demands of all users within the professional market.

EXPERTS AT EXPORT

As an Export Customer your account will be personally managed by our Export Team. They will ensure that you are completely satisfied with your service at Abracs and work together to build up a loyal customer base.

We pride ourselves on offering a flexible and approachable service to global customers. We offer exceptional customer support including frequent in country visits, product training, tailored freight solutions and flexible terms options

We have invested heavily in our export services and we are looking for the right export partners to distribute the UK's No.1 abrasive consumables brand. With Abracs you can stand out from your market by stocking an extensive range.

" I have been working with Abracs as an exclusive distributor within our national market over the last 24 months. I look forward to our continued relationship, Abracs have always provided great products and service while still managing to offer very competitive pricing.
Industrial Distributor, Netherlands **"**

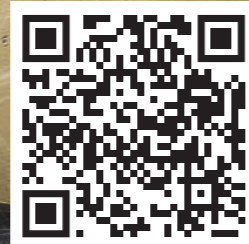

We are always keen to further expand our overseas customer base and would welcome any enquiries from distributors who would be interested in introducing the Abracs brand into their local market

POLY PRODUCTS RANGE

With our Poly Disc range you can bring old and rusty materials back to their former glory without damaging the applications surface. They are a unique and versatile product designed for removal of rust, paint, thermal blueing and other contaminants. Made from a non-woven nylon web covered in a specialist synthetic resin. Poly Products can be used on a wide range of applications including metal, wood, concrete, aluminium and stainless steel.

POLY PRODUCTS

Abracs ultimate performance Poly Products have a unique structure and synthetic resin coating which enables effective removal of rust, paint, thermal bluing and other contaminants. The lightweight fibreglass backing absorbs vibration and makes this product incredibly strong and durable. The design of these unique products ensures a minimal risk of scratching the work piece. Suitable for a wide range of materials. The poly discs are for use on angle grinders, while our Spindle Mounted Wheels are for use on air tools.

Blue poly discs are denser and more suitable for harder surfaces such as concrete and stone.

Bulk rates are available for outer quantities and volume orders. Ask the team for details.

HUB CLEANING TOOL

The Abracs Brake Hub Cleaning Kit product gives operators a quick and effective means of removing rust from the brakes, rotor and hub. The anti-clogging design keeps the abrasive minerals cutting at higher performance. The system removes rust and corrosion quickly, even in hard to reach places. The attachment provides quick disc changes with the convenience of running on high-speed tools. All this adds up to saving time, increasing speed and effectiveness.

TCT BLADES RANGE

Abracs TCT Blades range is precision manufactured, professional quality and available in an extensive range of sizes, cut types and tooth configurations. Abracs TCT blade range is suitable for use on a wide range of wood applications for all applicable machines.

CUT AND GRIND

PRODUCT DEMONSTRATION VIDEO

TCT BLADES WOOD

Abracs TCT Blades are manufactured with Tungsten Carbide tipped teeth for wear resistance and extreme lifetime. The fully hardened plate offers precision accuracy while the expansion slots eliminate the risk of warping. For use on most wood material applications. The teeth configurations determine the speed and finish of the cut. Blades with fewer teeth cut faster while those with more teeth create a finer finish.

i All TCT Blades supplied with bore reducers. **i** (Cordless) 165mm Blades are manufactured with a thinner kerf and lightweight body for use on Cordless Machines.

DIAMOND BLADE TERMINOLOGY

 <p>COOLING HOLES Added visibility when cutting, and ensures heat dispersion and swarf removal for maximum yield out.</p>	 <p>CONTINUOUS TURBO RIM The castellation of the blade traps air in motion guaranteeing less chipping and faster cuts.</p>	 <p>ANGLED TURBO SEGMENT The angled turbo segment easily removes debris and helps cool the blade more efficiently.</p>
 <p>KEYHOLE GULLETS Ensures less chipping of the material being cut and reduces vibration levels.</p>	 <p>NARROW GULLET Narrow gullets ensure less chipping of the material, reduce vibration levels and minimise the chance of segment loss.</p>	 <p>UNDERCUT TECHNOLOGY Specific segment design 'undercut technology' increases water flow and protects the segments from increased wear.</p>

TRADE ★★★★★ GENERAL CONSTRUCTION MATERIALS

Trade-line General Construction Materials Diamond Blades are suitable for a variety of building materials. With a 10mm segment for increased lifespan this entry level professional combination blade has been designed to offer excellent value for money with a good cost per cut ratio. Key hole gullets to aid stock removal and clear debris from the cutting surface.

Expert-line General Construction Materials Diamond Blades are suitable for cutting virtually all construction materials including steel and reinforced concrete. The 10mm continuous segment eliminates the chance of segment loss and cooling hole technology reduces cutting temperature and increases user visibility for enhanced safety. Manufactured using premium quality diamonds and a strengthened, pre-stressed metal body. This product offers one of the best costs per cut ratios in the industry.

EXPERT ★★★★★ DUAL CONSTRUCTION MATERIALS

Expert-line superior quality Dual Construction Materials Blade for both general purpose and asphalt/abrasive materials. 10mm laser welded diamond segment with undercut protection provides increased cutting life and exceptional performance. Undercut protection technology protects the segment from abrasion, reducing the risk of segment loss and increasing product life. Manufactured with extra narrow gullets to reduce clogging. The ideal blade for the professional contractor.

PRO ★★★★★ HARD CONSTRUCTION MATERIALS

Expert-line Hard Construction Materials Blades have been expertly developed with a soft bond so they can effectively cut through very hard materials such as granite with relative ease. The 10mm angled turbo segments and narrow gullets reduce the chance of segment loss & maximise performance. Manufactured with premium quality diamonds and a strengthened, pre-stressed metal body.

EXPERT ★★★★★ ABRASIVE CONSTRUCTION MATERIALS

Designed with a thicker core that resists flexing and provides a straighter cut, this versatile blade can slice through asphalt and green concrete and can also be used on medium to soft materials such as sandstone and breeze blocks. Undercut protection technology protects the segment from abrasion, reducing the risk of segment loss and increasing product life. Laser welded segments ensure maximum strength, performance and reliability. Extra wide gullets aid stock removal and add further protection to the segments during the cutting process

COBALT HOLESAWS

Abracs extensive range of expert quality Cobalt Holesaws for use on a wide range of applications. Our Cobalt Holesaws are designed for use by professional trades people and manufactured from premium quality materials. We use Bi-metal construction with 8% Cobalt for extreme strength, durability and performance. Abracs Holesaws are manufactured with high speed variable pitch teeth for fast and clean cutting and are suitable for use on a full range of materials. Each Holesaw comes individually packaged & contains full information on correct speeds, applications, fitting instructions and safety guidelines.

i All Abracs Cobalt Holesaws are manufactured with a cutting depth of 38mm. **i** Abracs Holesaws are to be used in conjunction with a compatible size holesaw arbor. **>>>** Turn to page 46 for our Range of Holesaw Kits & Accessories.

POWER TOOL ACCESSORIES

HSS TITANIUM DRILL BITS

Abracs HSS Titanium Drill Bits are precision ground for high performance. The reduced friction created by the Titanium Coating means these Drill Bits can last up to 3 x longer than standard HSS Drill Bits and are suitable for drilling a wider range of materials including Metal, Wood, Plastic and Stainless Steel. A key performance feature of Abracs HSS Titanium Pilot Drill Bits is their Split Point cutting head. The Split Point allows the drill bit to instantly grip the material resulting in higher precision, accuracy and significantly faster drilling speeds.

i The precision split point allows the drill bit to instantly grip the material resulting in higher precision, accuracy and significantly faster drilling speeds.

HSS COBALT DRILL BITS

Abracs HSS Cobalt Drill Bits are precision ground for high performance. The addition of 5% cobalt into the High Speed Steel increases lifetime, strength & wear resistance keeping the drill bit sharper for longer. A key performance feature is their Split Point cutting head. The Split Point allows the drill bit to instantly grip the material resulting in higher precision, accuracy and significantly faster drilling speeds.

The precision split point allows the drill bit to instantly grip the material resulting in higher precision, accuracy and significantly faster drilling speeds.

The addition of 5% cobalt increases lifetime, strength & wear resistance keeping the drill bit sharper for longer.

AN EXTENSIVE RANGE

Abracs comprehensive range of Drill Bits has been significantly extended and improved to provide you with the right tool for the job. The range covers a variety of material applications including wood, masonry, metal and tiles, with multiple product options for each.

HSS-G LONG SERIES DRILL BITS

Abracs HSS-G Long Series Drill Bits are precision ground for high performance. Best suited for use on common steel material applications, but will also cut plastic. Manufactured with a Split Point allowing the bit to instantly grip the material resulting in higher precision, accuracy and increased drilling speeds.

SDS+ MASONRY DRILL BITS

Abacs SDS+ Masonry Drill Bits feature a solid carbide tip for precise drilling and added strength when cutting into the surface of the material. The hardened steel body reduces the chance of breakages, increasing product longevity. A precision ground dual flute design enables easy dust and debris removal from the hole and significantly increases drilling speeds.

A precision ground dual flute design enables easy dust and debris removal from the hole and significantly increases drilling speeds.

SDS MAX DRILL BITS

Abacs SDS Max Drill Bits feature a solid carbide 4-cutter tip for added strength and excellent wear resistance when cutting into the surface of the material. The carbide tipped centring head provides precise cutting in concrete, reinforced concrete, limestone and masonry. A precision ground round flute offers quick and easy removal of dust and debris from the cutting hole and significantly increases drilling speed.

FLAT WOOD DRILL BITS

Sometimes known as a Wood, Spade or Dowel Bit, the Abracs Flat Wood Drill bits are manufactured with extra hardened steel, featuring a central point & two raised spurs to keep the bit straight during drilling. A precision ground cutting face for high performance and a quick-chuck fitting for fast and easy bit change throughout any drilling job.

BRAD POINT DRILL BITS

Abracs Brad Point Drill Bits feature a precision point, providing accurate positioning for the bit when starting the hole. These bits are precision ground, making them excellent for use in furniture making, dowelling, cabinetry and other woodworking applications where an exact hole size is required. The spur cutting edges reduce splintering and ensure a smooth, clean and precise exit hole with no blow out. Supplied in plastic pouches.

i The spur cutting edges reduce splintering and ensure a smooth, clean and precise exit hole with no blow out.

AUGER DRILL BITS

Abracs Auger Drill Bits are spiral shaped, designed to produce clean, deep holes in wood material applications. Sharp spurs at the tip guide the bit into the wood ensuring a smooth and uniform hole throughout. Manufactured with high grade carbon steel and a centre point with screw resulting in less downward pressure being required for them to bite into the work piece. The wide deep flighting of these bits allows efficient removal of wood shavings and prevents the hole from becoming clogged. Supplied in a plastic tube.

i The wide deep flighting of these bits allows efficient removal of wood shavings and prevents the hole from becoming clogged.

DRY DIAMOND TILE DRILL BITS

Abracs range of Abracs Dry Diamond Tile Drill Bits are a tiles best friend. Built for precise and intricate drilling of granite, porcelain, tiles and mosaic. Featuring a wax coolant system, vacuum deposited multi layered diamond and self sharpening technology to ensure these bits go harder for longer. Our Dry Diamond Tile Drill Bits have been rigorously tested and outperformed other leading brands.

i Featuring a wax cooling system for increased endurance when cutting and eliminating the need for water.

i Self sharpening for longer life and less downtime.

POWER TOOL ACCESSORIES

RECIP SAW BLADES METAL

Abracs Reciprocating saw blades for Metal are available in a range of tooth configurations and sizes. Blades are available for fast, precision or fine cutting in a selection of ultra flexible or heavy duty blade types. Manufactured using Bi-Metal, Abracs expert-line reciprocating saw blades for metal are ultimate performance, long life and premium quality. Suitable for use on a wide range of applications including sheet metal, pipes, profiles, tubing and box section. Every Abracs Reciprocating Saw Blade has a universal fitting for use on all popular machine types.

i All Abracs Reciprocating Saw blades have a universal fitting and are suitable for use on all popular machines.

SANDING AND FINISHING

Abracs Sanding & Finishing Category features our heavy duty Coated Abrasives Range, premium quality Wire Brush Range, time saving Quick Lock & Flap Wheels Range as well as a selection of Workwear and Accessories. This category covers all general purpose and specialist finishing applications with premium performance and comes with Abracs Quality Assurance as standard.

Fibre Sanding Discs	76	Coated Abrasives	86
Spindle Mounted Flap Wheels	78	Wire Brush Range	96
Quick Lock Products	82	Workwear & Accessories	104

FIBRE DISCS RANGE

Abracs European manufactured O.S.A approved Fibre Sanding discs range features a full resin bond system with heavy duty fibre backing. Professional quality for the professional user and available in a range of quality levels designed to give premium performance on a wide range of material applications.

SANDING AND FINISHING

FIBRE SANDING DISCS

Abracs offer a comprehensive range of professional quality Fibre Sanding Discs including all popular sizes and grits in a range of quality levels comprising of premium performance ceramic alumina, aggressive zirconia and long lasting aluminium oxide. Our fibre discs feature a full resin bond system with heavy-duty fibre backing for increased strength, durability and tear resistance. Top quality European manufacturing, long life and high performance all come as standard along with an extremely competitive price. All discs are shrink wrapped in 25's. Abracs Fibre Discs Range are manufactured to O.S.A. Safety standards.

Bulk rates are available for outer quantities and volume orders. Ask the team for details.

HOOK & LOOP GOLD SANDING DISCS

Industrial quality 150mm Hook & Loop Sanding Discs available with dust extraction holes or without. The aluminium oxide grain has a specialised stearate coating and a semi-open grit binding which prevents clogging and significantly increases the sanding speed. Suitable for general purpose sanding but specifically designed for applications involving paints, lacquers, putty and primers i.e. within the automotive industry. The heavy duty paper backing makes the product extremely durable and long lasting and the Hook & Loop backing ensures quick and easy changes on most brands of sanders.

G Use desired grit listed in spec in highlighted area of the product code e.g. ABHLG0150040 for 040g
i Gold Hook & Loop discs should always be used with a Backing Pad.
