Thanks to state-of-the-art technology for manufacturing  
**PORCELAIN STONEWARE**

## Porcelain Paving (Features & Benefits)

Thanks to modern technology a product with superior strength has been manufactured, to provide a safe surface for outside use. Being resistant to absorption ensures that porcelain paving requires little to no maintenance. There is no requirement to seal as the porcelain is stain and mildew resistant, spillages cannot penetrate the surface so they are easily cleaned away. It also offers an amazingly hard wearing scratch resistant surface making it the perfect solution for patios, terraces, driveways and garden paths in fact all outside areas.

## INSTALLATION OPTIONS FOR 2.0CM EXTERNAL PORCELAIN

**ON SOLID BASE**

**ON SAND OR GRAVEL BASE**

**ON RAISED PEDESTALS SYSTEM**

Always seek professional advice regarding installation, either from your local supplier or selected landscape installer. We recommend the use of a primer to the reverse of each slab, which assists in providing an excellent bond between the porcelain and the surface below. (Not required for pedestal installation).

## STEP BY STEP GUIDE

**BONDING & PRIMING**

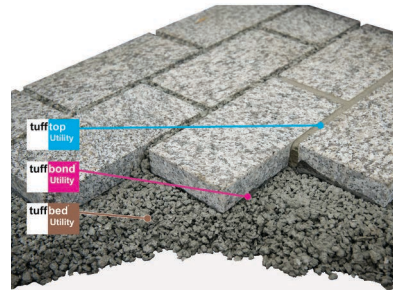

- TUFFBOND UTILITY**
- Wash underside of paving units
  - Add 1L of water per sachet to tub
  - Add sachet to tub and mix
  - Brush apply 1 - 2 mm thick coat to the paving unit
  - Place primed paving unit on bedding

**JOINTING MORTAR APPLICATION**

- TUFFTOP UTILITY**
- Wash and wet paving
  - Add 1L of water per sachet to tub
  - Add sachet to tub and mix
  - Pour mortar over wet paving
  - Spread tufftop Utility to fill joints
  - Clean using a squeegee with water and / or a sponge float

## BOUND PAVING CONSTRUCTION

Long lasting bedding and jointing solution for all types of paving including porcelain. Ease of use makes the tuff Utility range ideal for smaller projects including driveways, pavements and patios.

## ACCESSORIES & TOOLS

**TUFFBED UTILITY BAG**

**FOAM RUBBER SQUEEGEE**

**WASHBOY KIT**

**TUFFBOND UTILITY**

tuffbond is designed to be used on porcelain, to make sure that you get an enhanced bond between the paving units and the laying course. A 1 -2 mm thick coat of tuffbond Utility, enhances the bond by 100%.

**TUFFTOP UTILITY**

tufftop has been designed specifically to be a high performance Mortar suitable for porcelain jointing, it is finer than aggregates found in traditional resin based jointing systems. Four colours available; Natural Grey, Mid Grey, Dark Grey & Beige.

## OPTIMAL COLLECTION

Optimal has a distinctive but varied colour blend which creates a modern contemporary appearance of polished concrete. Available in four colour options in 90x60x2cm. Optimal offers great design flexibility. Also available as an internal range allowing you to create that perfect inside outside look.
