## What our clients say:.....

"... Hedera Screens were extremely easy to deal with, professional and knowledgeable. I wouldn't hesitate to use or recommend this company again..."

**Senior Quantity Surveyor**  
**Anwyl Construction**

"...Just a quick message to thank you for such a fantastic job - the screens look absolutely great!!..."

**Nursery Manager**  
**Walthamstow**

"...Hedera Screens have great technical knowledge, which helped with design interfaces. They couldn't do enough to help and were a pleasure to work with and delivered the works as per the agreed programme dates..."

**Commercial Manager**  
**Mace Group**

"...A very proactive, cooperative and professional company that I would not hesitate to either use again or recommend to a client or colleague..."

**Senior Project Manager**  
**Overbury Southern**

## Continued:.....

"...We designed a road safety solution for a South Wales authority.

Hedera Screens supplied and installed 230M length of living fence, excavating the central reserve of a live carriageway at night, in a residential area without disturbing the locals!

I personally oversaw the installation on behalf of the local council and I have nothing but praise for Hedera Screens..."

**Road Safety Consultant**

"...I am delighted with the products and the team that have installed. A fantastic alternative to standard fencing, really softens the area..."

**MD – BMW**

"...Please pass on our comments to the team who were involved in the installation of our ivy screens. We're extremely pleased with the finished result which gives us a lovely natural fence in keeping with the rest of our garden.

Hopefully it will fill out in years to come and provide a natural habitat for a variety of wildlife, as well as looking good.

The team who installed it, particularly Jamie, were hardworking, friendly, helpful, and always polite, especially considering the extreme heat.

We would certainly recommend your product and company to anyone considering having a similar fence for their garden..."
