

Service and Repairs

Service and repair from a company you can trust

All types of Platform Lifts and Passenger Lifts maintained and repaired

Routine Service Plans

Invalifts are able to offer a service contract on many types of platform, goods and passenger lifts. We operate throughout the UK using competent experienced engineers. Plans can be either basic contracts or fully comprehensive. We are able to provide multiple unit contracts.

Basic Contract

We will recommend the service pattern that suits the lift environment. On each visit we will clean, inspect and carry out minor adjustments. We would report any further repairs that we consider necessary to the unit and advise of new legislation and upgrades that would be applicable to the lift.

Comprehensive Contract

We will visit the unit 4 to 12 times a year depending on the type of equipment. The contract includes for call outs and repairs to the unit (exclusions apply).

Repairs

Invalifts offer a repair service for a variety of lift types. With Invalifts you can rest assured that your lift is being repaired by experienced engineers using only genuine parts from reputable suppliers. Our work is offered under a free no obligation quote giving you the opportunity to fully consider your options and discuss the repair fully with us.

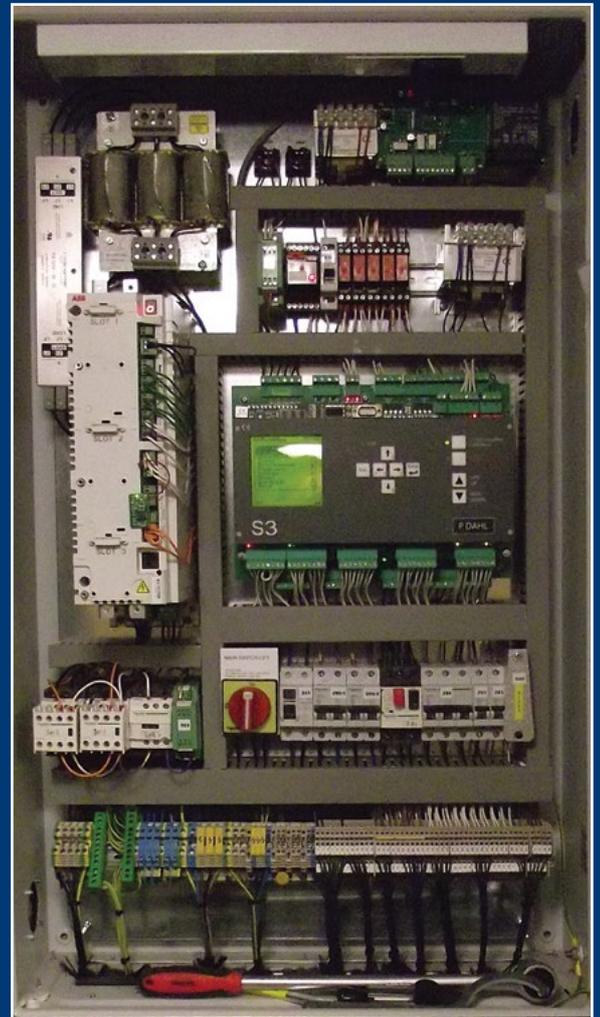

Call Outs

We operate a 24 hour emergency UK call centre. All calls are logged and dealt with by our experienced team. All call outs are attended to by the next working day (subject to certain remote locations).

Why Invalifts?

Quality is an important part of our business and we have been accredited under ISO 9001 and ISO 14001 for a number of years. Each year our quality standards are externally assessed and monitored.

Please contact us to discuss your requirements fully.
