

Technical Information

Bikestore - Sizes, Plans and technical information.

Bike Store's unique design means it's light enough to be man portable but strong enough to deter the most determined thieves. All the components can be broken down and carried through narrow passageways to previously inaccessible locations.

DIMENSIONS

Front Profile: 1500 x 2083mm

Side Profile: 2614 x 2083mm

Footprint: 1416 x 2530mm

Weight: 257kg

All flatpack units are 370mm high

All assembled units are 2083mm high

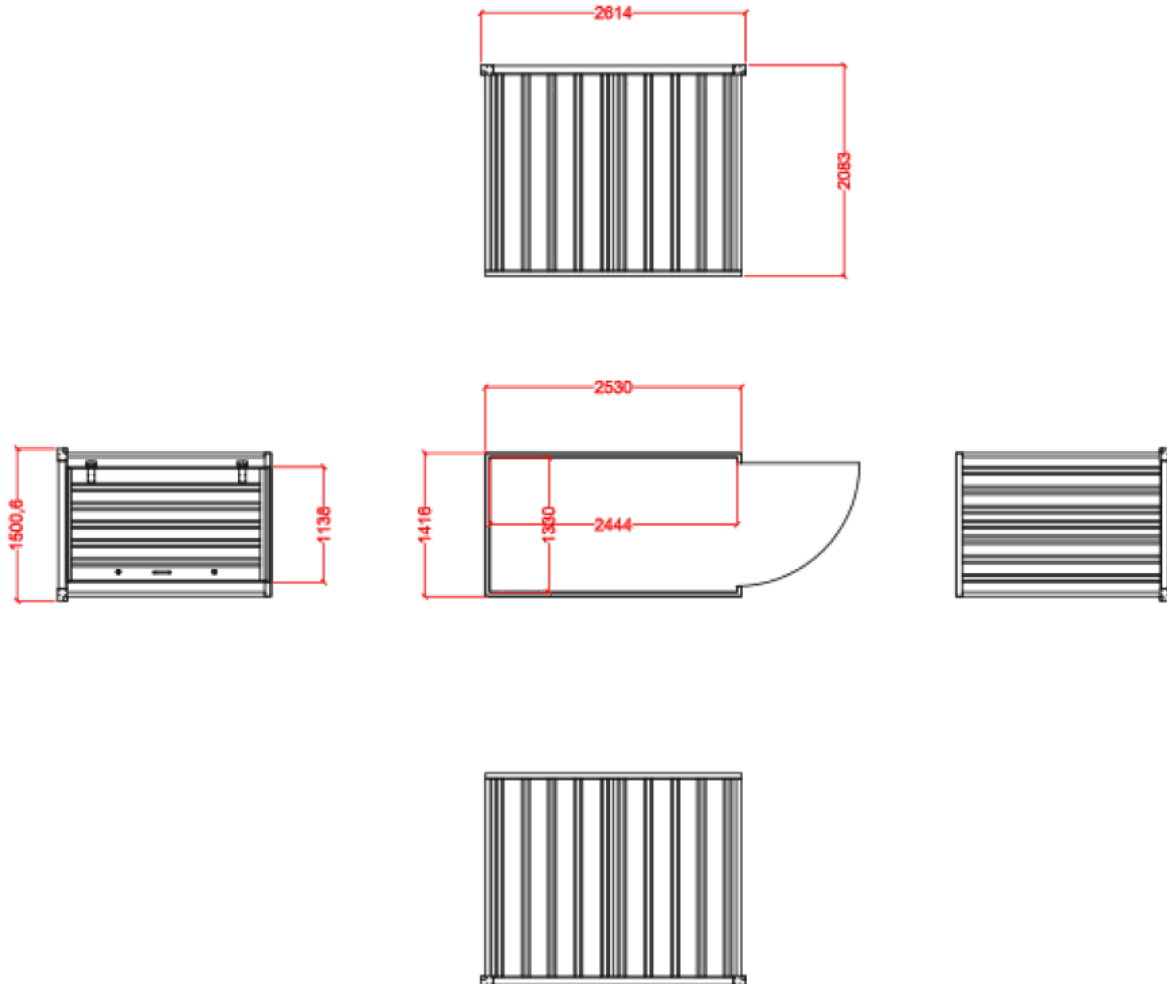

Bikestore- Technical Details

CHASSIS & FLOOR

Pre-assembled 18mm thick grade OSB3 board screwed to a galvanised steel box profile frame.

SIDE WALLS, DOOR & ROOF PANEL

0.60mm box profile galvanised steel panels, strengthened with spot weld galvanised steel frame sections at the edges of each panel. The roof section has two integral gutters for effective rainwater dispersal to all four corners of the container. The door is pre-mounted into the frame on galvanised hinges, complete with two insurance rated locks and a central roller catch. Door width: 1138mm, hinges on the right, outward opening.

Note: Due to our continuous product development programme, we reserve the right to change the specifications without prior notice.
