

RWM 500 Low Height Baler

Organisations of all shapes and sizes are now handling more dry recyclable 'waste' than ever before, which means interest in mill size balers is high. But such balers can often be bulky, which makes the machinery hard to position on size-constrained sites with low ceiling heights. That's why we've introduced the RWM 500 LH (low height) baler, which is perfect for spaces with an elevation less than 2.3m tall. Capable of producing bales of up to 500kg with ease, this is a tidy machine with vast recycling potential.

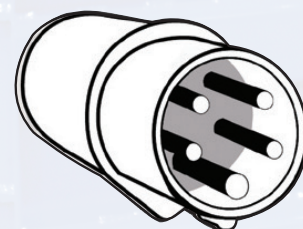

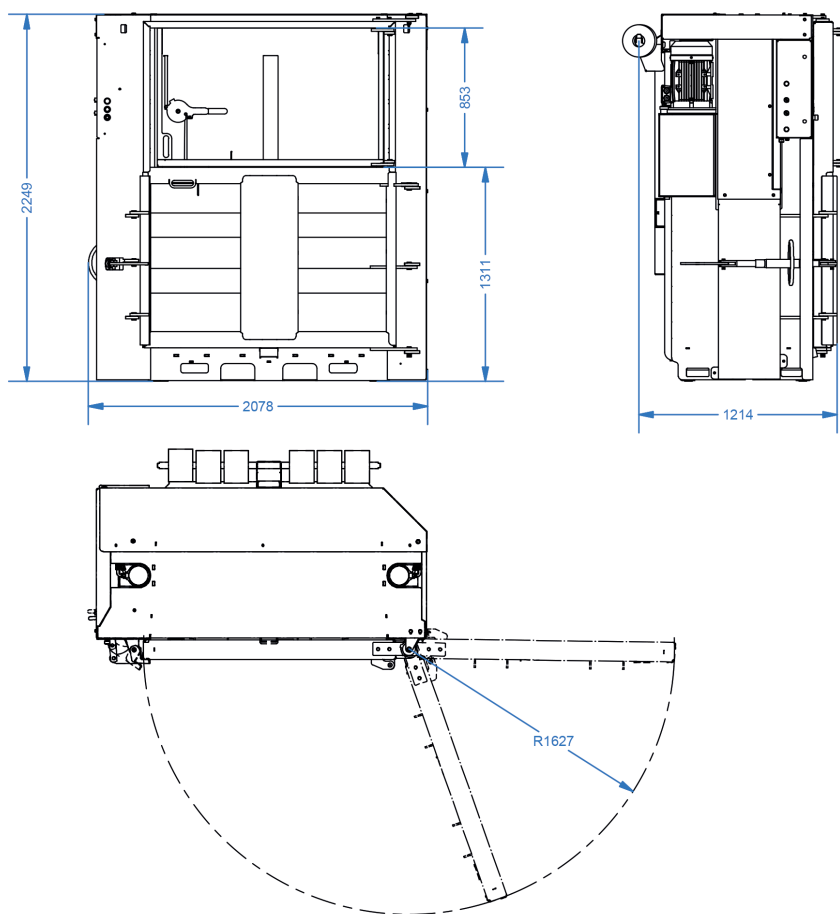

Key Features:

- ✓ Creates mill size bales with ease
- ✓ Automatic compaction cycle for operational simplicity
- ✓ Automatic bale ejection system
- ✓ Open door bale tie-off
- ✓ Bale full light
- ✓ CE certified
- ✓ Supplied with 12 months parts and labour warranty
- ✓ Full operator training supplied
- ✓ Used by prisons and manufacturers, through to large scale recyclers, skip hire firms, distribution depots and more
- ✓ Available to buy or rent
- ✓ Suitable for indoor or outdoor use

RWM 500 Low Height Baler

TECHNICAL SPECIFICATIONS

Operating Voltage – 400v.

Frequency – 50hz.

32amp three phase five pin –
A + N + PE

MCB (Miniature circuit breaker)
if fitted – Cat C or above.
