

RWM Glass Crusher

Glass is one of the easiest material streams to recycle, but still UK recycling rates stand at only the 50% mark. Segregation of glass 'waste' at source does of course help the country's green agenda, but organisations can go one step further – and achieve significant cost savings in the process – by crushing their glass on site.

The RWM Glass Crusher with 5:1 compaction ratio can tackle bottles of varying sizes and reduce them to cullet. This quick, easy and safe space-saving technique reduces the required frequency of glass bottle collections, and therefore keeps more money in our clients' back pockets.

Suitable for 140l and 220l wheelie bins, this is a popular machine with pubs and clubs, restaurants, hotels and even larger recycling centres.

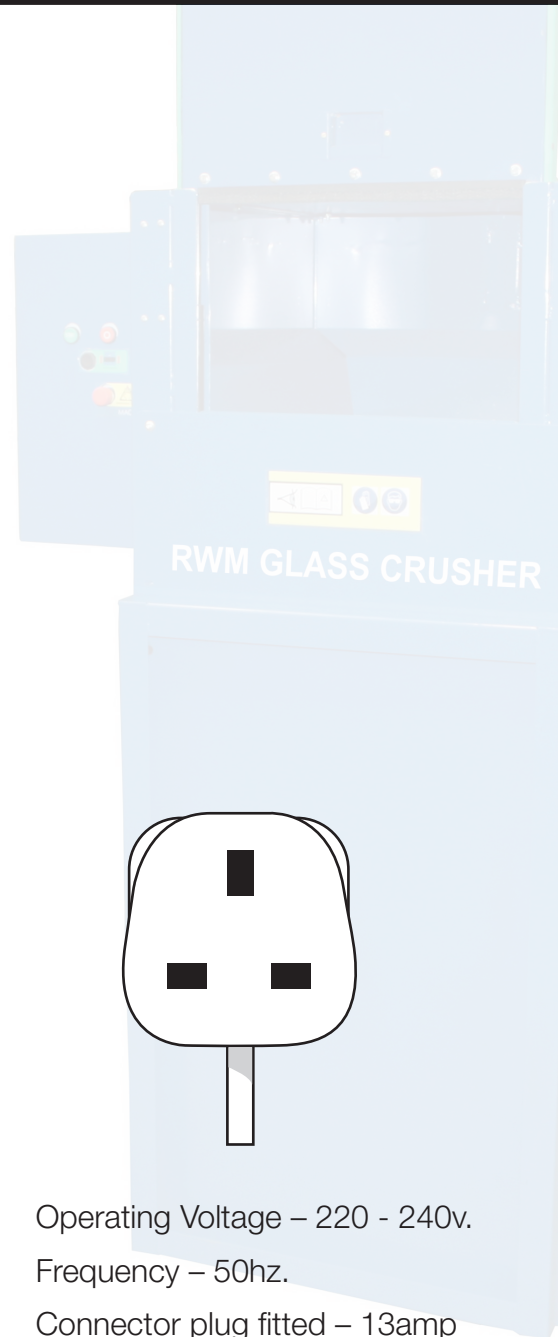

Key Features:

- ✓ Tidy footprint, ideal for size-constrained sites
- ✓ Perfect for handling a wide variety of glass bottles
- ✓ Compatible with 140 and 220 litre wheelie bins
- ✓ Safe and easy to operate
- ✓ A 5:1 compaction ratio means significant space and cost savings
- ✓ Helps clients improve the UK's glass recycling rates
- ✓ Full operator training provided
- ✓ CE certified
- ✓ Suitable for indoor and outdoor use.

RWM Glass Crusher

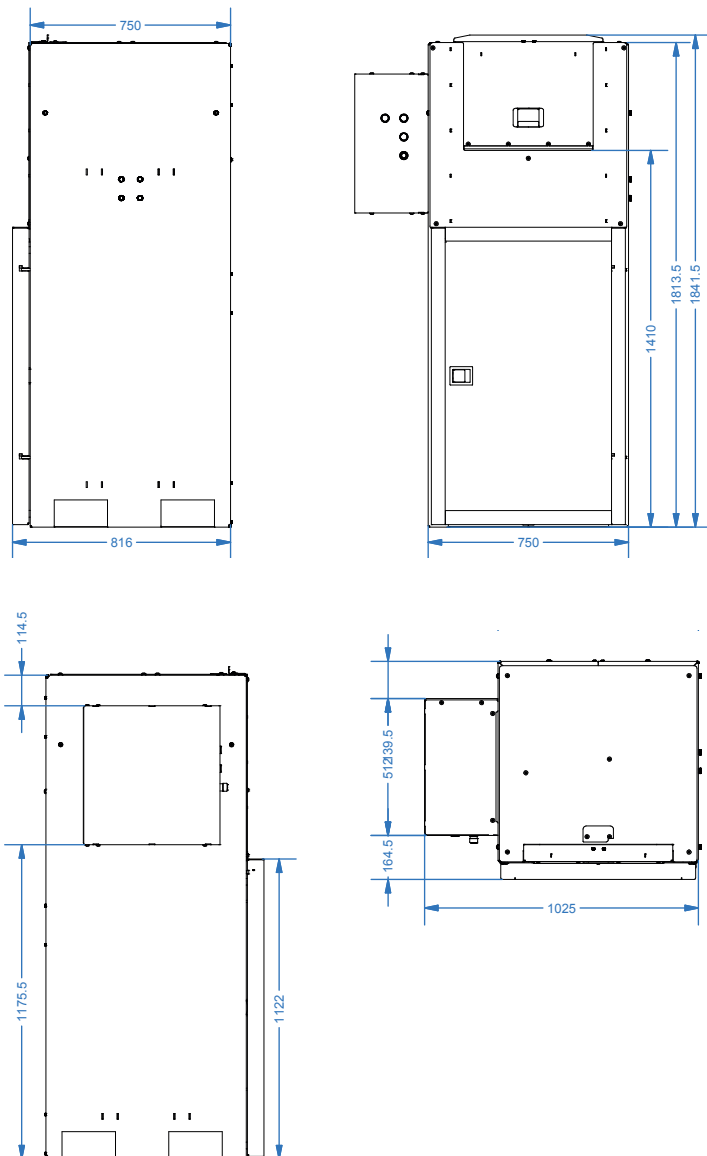

TECHNICAL SPECIFICATIONS

Operating Voltage – 220 - 240v.

Frequency – 50hz.

Connector plug fitted – 13amp single phase, standard three pin plug. MCB (Miniature circuit breaker) if fitted – Cat C or above.

Machine weight	195kg
Compaction ratio	5:1
Compatible with	140l & 220l bins
Power Supply (kW-V-Hz)	13amp 1.5kW-230V-50Hz
Overall Dimensions (H x W x D)	2191 x 1031 x 832mm
