

DOUBLE GLAZED FRAMELESS GLASS CURTAINS

Frameless Glass Windows

Frameless windows in our innovative slide and stack design enhance your home with altogether different windows. Slim, sleek and with more functionality than conventional casement windows. Our unique windows promising uninterrupted views. Best of all they come with that seamless glass look of our frameless patio doors.

Using our own patented double-glazed system, ultimate clarity comes between the panes of glass. You get none of the metal edges of a typical double-glazed unit. At the same time there is no loss of thermal efficiency. Gorgeous clear views when closed. Fully open windows without the static mullions and transoms of other aluminium windows.

DOUBLE GLAZED FRAMELESS GLASS CURTAINS

Frameless Patio Doors

Innovation|Minimalist|Excellence|Luxury

Our ultra-contemporary Frameless slide and fold door comes designed and expertly crafted by us. No other door has the look, the convenience and the functionality. Other luxury brands boast minimal sightlines but our door beats all of these with nothing but a slim gasket and glass to glass edges.

Our doors are submitted for independent testing, and they meet the security standards including the PAS 24 Enhanced Security Performance Requirements
