

ORIGIN PRODUCTS

Origin French Doors & Origin Single Doors

Made by Origin, the leading British brand, every one of our doors comes meticulously crafted down to smallest details. Choose from single doors with or without glazed panels and at sizes up to 2.7m high and 2.4m wide.

Origin French or double doors are ideal for your dining room, patio area or bedroom, available with a low threshold for inside your home too.

Origin OB-49 Bi-folding Doors

Origin OB-49 bifolding doors offer some of the thinnest sightlines of any leading brand, enhancing the glass sizes and giving a greater feeling of space.

These doors come designed to remove the barrier between the inside and outside of your home and come with the option of a low threshold.

These doors have a sightline of 49mm per sash. And with a 3-Star Diamond lock the Secure by Design status will put your mind at ease.

Origin OW70 & OW80 Windows

Origin OW70 windows are the slimline version available as fixed light and casement windows with a flush casement design externally. The Origin OW-80 window is the premium model.

These windows are fully compliant to current Building Regulations and they meet both ventilation and energy efficiency requirements.

ORIGIN PRODUCTS

Origin OS-44 Sliding Doors

These luxury sliding doors are slim, modern and designed to give you all the familiarity of classic sliding doors with all the latest design and technology.

Thin aluminium profiles ensure the best clarity and light transmission in your home.

Designer door handles add a touch of style, while advanced locks, seals and gaskets give you all the security and weather protection you need.

Origin OS-20 Artisan Doors

Origin OS-20 doors use the latest bonded system having the glass and frames made as one unit.

These high-quality glass units enhance your home with energy-saving properties, excellent clarity and long service life.

Origin doors come with a 10-year guarantee on the glass.

Slimline Origin Patio Sliding Doors

Made completely bespoke, there are three sightline options available. The OS-29 is the smaller of the three, with sightlines of just 29mm, maximising glass and the level of natural light which can flood in.

With sightlines of 44mm and 77mm, the Patio Slider still possesses some of the slimmest sightlines whilst providing a more traditional style of patio system, with an injection of effortless elegance.
