

FRAMELESS GLASS BALUSTRADES & BALCONY ENCLOSURES

Frameless Glass Balustrades

Designed for the inside or outside of your home, our balustrade systems are perfect for a balcony, staircase, decked patio area and even a flat roof. Choose from different combinations using either just glass or a combination of glass and metal.

Toughened and laminated glass with smooth polished edges makes our balustrades sleek and beautiful. At the same time, they protect you and your family in critical areas.

Every balustrade comes professionally fitted to the highest standards.

Create an illusion of space with aesthetically pleasing, quality, easy clean glass with or without stainless steel rails to make your hallway or other areas brighter and more contemporary, whilst providing essential safety.

- ◆ Available in different modern styles including all glass, with metal rails or round button accents.
- ◆ Meets all the relevant safety standards.
- ◆ Suitable for staircases, Juliet Balconies, gallery landings and terraces
- ◆ Exterior quality making balustrades ideal for a glass-edged patio or deck
- ◆ Designed to last longer than wood and always retains its looks

All our systems are constructed to the latest safety standards while at the same time giving your home all the benefits of modern glass, steel and polished accents and tactile handrails.

FRAMELESS GLASS BALUSTRADES & BALCONY ENCLOSURES

Balcony Enclosures

Our glass balcony enclosures let you enjoy your outside area throughout the year and creates extra space with weather protection and sealing. Choose from double or single glazed enclosures and protect against wind, rain and cold.

With a choice of fixed or opening elements, our balcony glazing provides optimum safety.

- ◆ Toughed or laminated safety glass provides protection with safety.
- ◆ Insulated option for better comfort and enjoyment of your balcony.
- ◆ Non-insulated version provides effective weather protection and a quieter home interior.
- ◆ Locking options available, giving extra security for ground floor flats and apartments.
- ◆ Efficient installation with minimal disruption.

The slide and turn nature of our balcony enclosures lets you control the ventilation and levels of fresh air. Partially open panels are ideal on cooler days, or fully open them back in the summer.

Our bespoke frameless balcony enclosures transform under-used outside spaces, especially in the colder months. Your balcony benefits from new levels of comfort For use all year round.
