

# APEX WINDOWS & GABLES

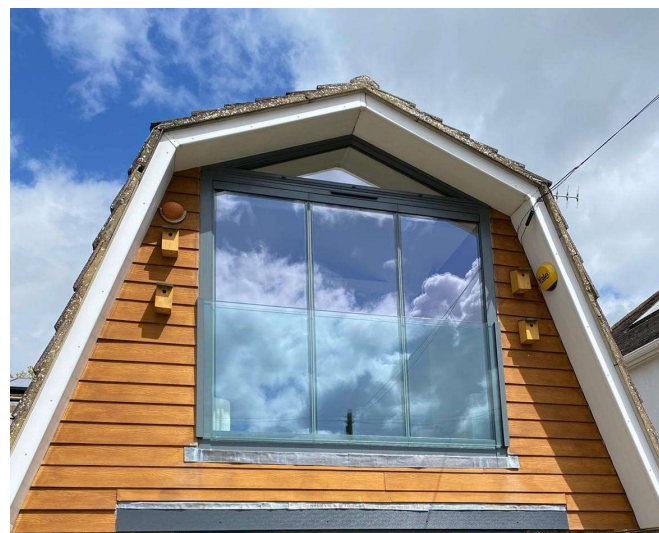

Our apex windows come fully framed or frameless. For any project, these impressive feature windows amplify the space and create a luxurious light-filled area.

You can enhance your new feature apex windows with a choice of standard, tinted or solar control glass to keep your room comfortable. Our aluminium frames come in a multitude of colours.

All our products are measured, crafted, and professionally installed and we can even provide any external or internal cover pressings, trims, or angles to new steelwork or as a decorative feature.

If you are designing a project with sliding or folding doors, talk to us today about how an apex window or a shaped window above your doors can add even more light and a feeling of height and space.

# APEX WINDOWS & GABLES

## Key Features

- ◆ A wide range of sizes and shapes with every apex or gable window made-to-order.
- ◆ Any RAL colour is available.
- ◆ Can be manufactured as full aluminium or with a near frameless appearance

With sizes of over 4 meters wide and flexible heights, there is no better way to add a feature shaped window without vertical mullions or horizontal transoms.

Create a striking one-piece window and a real design statement in your home.

Our apex windows provide excellent thermal performance, combined with insulated aluminium frames.

The expansive glass also gives you the best interior comfort and helps lower your energy bills.

Expand your views with high quality apex windows from Frameless Glass Curtains.

Our made-to-order apex windows are designed to enhance your new home extension with high-level feature glazing and create a focal point in your home
