

ALUCO DOORS

Steel Replacement Bifolds & French Doors

Bring your patio to life with our gorgeous steel replacement French doors. Featuring slender frames, square overall appearance and with beautiful art-deco handles. The perfect alternative to traditional steel doors.

Our art-deco style doors transform your home with the latest on-trend steel-look doors. Authentic looking doors down to the familiar details such as deep bottom rails, the traditional lock backplate and the horizontal glazing bars.

Add the latest glazing trend in your home, office, or restaurant.

Steel Replacement Windows & Screens

Transform your home with cutting edge Heritage or modern steel replacement windows. These unique aluminium windows are perfect for period homes as well modern houses or extensions and come with matching residential doors.

Slim sightlines combined with impressive aesthetics and dependable window security. Our bespoke steel replacement windows are perfect for replacing your old metal windows with a modern and thermally efficient alternative.

- Classic or contemporary looking windows to preserve or enhance the look of your home.
- Available as fixed, opening, bay, bow, corner windows, or floor to ceiling glazing.
- Integrates with matching doors, creating beautiful steel-look entrance screens.
- Can also create contemporary New York style internal screens with or without doors.

ALUCO DOORS

Aluco Steel Look Internal Doors

Aluco Elegance Interior Doors, Screens and partitions take inspiration from the industrial look, heritage glazing and modern interiors.

Our Aluco range enhances your interior spaces with internal doors, fixed screens and general metal-framed doors. Combining desirable aesthetics with premium hardware and classic glass designs.

Our range covers minimalist, traditional or contemporary designs, promising exactly the right look in your home.

A range of hardware suits all manner of door designs, with all doors using stainless steel fixings, quality hinges and robust door locks.

Sealing the doors is a range of rubber flipper gaskets, wedge gaskets and woolpile. All of these components work together in sealing your doors and protecting your property from winter weather.

The door handles come from the best hardware manufacturers available as standard designs, art-deco styles and using a multi-point locking system. Also provided to these doors is a period backplate, typical of old metal doors.

As well as clear toughened glass, you can add privacy with a choice of textured, patterned or acid-etched glazing.

Choose from single or double doors, with or without sidelights and in a great choice of colours.
