

STONECRETE

With its very pronounced riven characteristics, our Rivendale paving recreates the chisel split look of traditionally manufactured sandstone slabs.

The Rivendale Patio Kit contains varying quantities of six different sized slabs. Again, each size differs in profile, adding to its authenticity.

(6.4m²) Patio kit consists of the following paving slabs

6 x 300x300x40mm	12 x 300x450x40mm
2 x 450x450x40mm	9 x 600x300x40mm
3 x 600x450x40mm	3 x 600x600x40mm

Laying patterns:
 2800mm x 2300mm &
 4700mm x 1400mm
 patio areas.
 Images are only suggested
 laying patterns.

Slabs can be laid in a truly random fashion but for a perfect rectangular pattern, we suggest using one of the two laying patterns pictured (right) for a 2800mm x 2300mm or 4700mm x 1400mm patio.

Rivendale Paving

Rivendale Paving is currently available in Rustic Gold Colour
