

# STONECRETE

These sharp riven slabs replicate roughly split slate.

Slatestone is available in six different size slabs to be purchased separately or part of our SlateStone Patio Kit.

(6.4m<sup>2</sup>) Patio kit consists of the following paving slabs

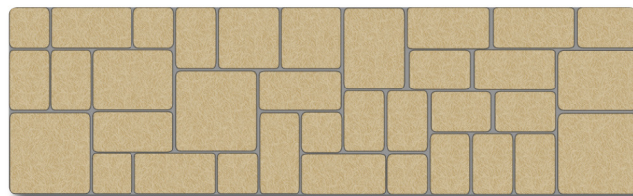

- |                  |                   |
|------------------|-------------------|
| 6 x 300x300x40mm | 12 x 300x450x40mm |
| 2 x 450x450x40mm | 9 x 600x300x40mm  |
| 3 x 600x450x40mm | 3 x 600x600x40mm  |

**Laying patterns:**

2800mm x 2300mm & 4700mm x 1400mm patio areas. Images are only suggested laying patterns.

Slabs can be laid in a truly random fashion but for a perfect rectangular pattern, we suggest using one of the two laying patterns pictured (right) for a 2800mm x 2300mm or 4700mm x 1400mm patio.

## Slatestone Paving

Slatestone Paving is currently available in Dark Slate Colour
