

STONECRETE

Olde York Paving by Stonecrete offers a rustic, timeworn profile based on that of the original weathered York flagstones.

Six different sizes are available to be purchased separately or as part of the Olde York Patio Kit. Each size of slab differs slightly in profile, reducing repetition and enhancing that natural look.

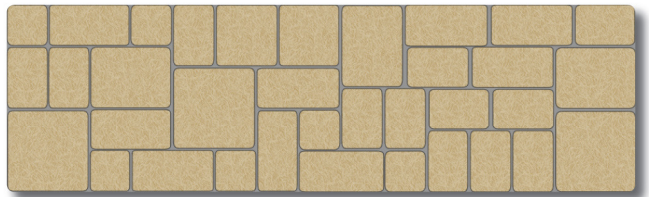

(6.4m²) Patio kit consists of the following paving slabs

- 6** x 300x300x44mm **12** x 300x450x44mm
- 2** x 450x450x44mm **9** x 600x300x44mm
- 3** x 600x450x44mm **3** x 600x600x44mm

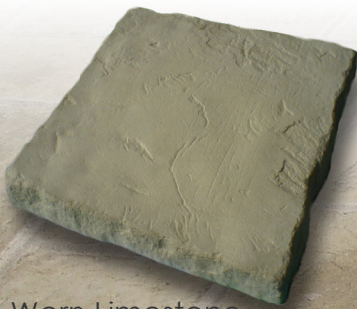

Laying patterns:

2800mm x 2300mm & 4700mm x 1400mm patio areas. Images are only suggested laying patterns.

Slabs can be laid in a truly random fashion but for a perfect rectangular pattern, we suggest using one of the two laying patterns pictured (right) for a 2800mm x 2300mm or 4700mm x 1400mm patio.

Olde York Paving is currently available in either of the following colours:

Worn Limestone

Grey Green

Olde York Paving
