

Medium Duty, Multi-Purpose surface Degreaser & Cleaner

RYDALL Multi-Purpose degreaser is a biodegradable, water soluble, mineral oil-free, alkaline solution that is highly effective at removing oil, grease, fat, dirt and all other kinds of pollutants from all types of surfaces. This strong, versatile degreaser comes in a highly concentrated, non-hazardous form that can be custom diluted to fit virtually any cleaning application.

RYDALL MP contains specially modified additives for improved oil holding capacity, surface wetting and low foaming attributes. These factors combine to create the strongest, non-solvent based, degreaser available on the market. **RYDALL MP** has been developed for extreme applications where only the harshest of alternatives would cut the deposits.

RYDALL MP is ideal for industrial and commercial facilities, institutions and even suitable for households. It can be used as an oil dispersant or on all round detergent without harmful effects on Iron, steel, chrome, plastics, glass, paint and other common water washable surfaces.

Use **RYDALL MP** for these tough contaminants:

- Adhesive
- Carbon
- Dirt
- Grass Stains
- Grime
- Ink
- Nicotine
- Scuff Marks
- Tar
- Blood
- Coffee
- Fingerprints
- Grease
- Heavy Soils
- Mildew Stains
- Oil
- Sludge
- Tire Marks

This versatile concentrate lasts longer than other ready to use brands. **RYDALL MP** also provides complete rinse off of pollutants without any danger of combustion or leaving greasy films.

***RYDALL MP** has the safety, simplicity, effectiveness, and multitude of applications to make it the perfect fit for your industrial and janitorial cleaning needs.*
