## DRUGS OF ABUSE SPECIMEN COLLECTION

We are the world leading manufacturer of Drugs of Abuse specimen collection and transport kits, as well as a wide range of custom kit assembly capabilities. To insure the quality of our collection kits, we manufacture in a highly automated facility.

### **Your Single Point for Custom Kitting Services**

We have the flexibility to kit self-manufactured products, sourced products or a combination of both.

Our broad range of custom kit assembly capabilities include:

- Automated foil top kitting
- Manual foil top kitting
- Auto-bag kitting
- Box kits
- Complex bag kits
- Hair kits
- Sub-assembly and assembly of supplied or sourced products

### **About our Containers**

Our specimen containers are manufactured airtight, leakproof and sterile by process. Each container is manufactured in Class 10,000 or Class 100,000 clean rooms. We specialize in producing FDA approved food grade polypropylene containers that conform to FDA and SAMHSA specifications. Our containers are non-absorptive and non-aerosoling and available in three different styles and over 20 colors. We are an ISO 9001 Certified company and dedicated to customer satisfaction through quality and service.

## CAPITOL VIAL SINGLE FOIL TOP SPECIMEN COLLECTION KITS

Kit items are sealed inside the collection cup with a foil top lid. To use, simply peel away the foil top lid and remove the components inside the cup.

### Kit Components:

- 8 oz. beaker with temperature indicator strip
- 45mL tamper evident vial
- Generic dual pocket specimen bag\*
- Absorbent pad
- Foil top\*

SKU	Description	Quantity/Case
90111	Single foil top specimen collection kit (generic)	100

\*Custom branding available (foil tops, specimen bag)

## CAPITOL VIAL SPLIT FOIL TOP SPECIMEN COLLECTION KIT

The split specimen collection and transport kit offers the same kit components as the single specimen kit (#90111) with one additional 45mL transport vial.

### Kit Components:

- 8 oz. Beaker with temperature indicator strip
- 2-45mL custody vials
- Generic dual pocket specimen bag\*
- Absorbent
- Foil Top\*

SKU	Description	Quantity/Case
92022	Split foil top specimen container kit (generic)	50
92023	Split foil top specimen container kit (generic)	100

\*Custom branding available (foil tops, specimen bags)

## CAPITOL VIAL 90mL SINGLE SPECIMEN COLLECTION KIT

### Kit Components:

- 90mL flip top container with band seal and temperature strip
- Generic specimen bags\*\*
- 5" x 8" heat seal bag
- Evidence tape\*

SKU	Description	Quantity/Case
91020	90mL Single specimen collection kit with evidence tape seal, temperature strip and bag	100
91024	90mL Single specimen collection kit with temperature strip and bag	100

\* Included in kit with SKU # 91020

\*\* Custom branding available on specimen bags

## CAPITOL VIAL WIDE-MOUTH FLIP TOP CONTAINER

- Our leakproof containers have been tested for binding properties against major drugs of abuse testing targets such as marijuana and cocaine to insure optimum test results.
- The lid of the vial is attached to the container via a permanent hinge. Available in a variety of configurations.

### Dimensions:

- 90mL: 48mm x 52mm
- 120mL: 43mm x 90mm

SKU	Description	Quantity/Case
10102	90mL Polypropylene wide-mouth flip top container	400
10109	90mL Polypropylene wide-mouth flip top container with band seal	400
10113	90mL Polypropylene wide-mouth flip top container with band seal and temperature strip (pictured)	400
10114	90mL Polypropylene wide-mouth flip top container with temperature strip	400
10150	120mL Polypropylene wide-mouth flip top container	250

## CAPITOL VIAL CUPS FOR TRADITIONAL AND ON SITE TESTING

- Three different beaker-style collection cups for the initial specimen collection from a client.
- Feature a pour spout for ease in transferring sample into smaller containers for subsequent testing.
- Temperature indicator strips are available on all collection cups.

SKU	Description	Quantity/Case
10121	3.5 oz. Collection cup with pour spout, polypropylene	350
10141	3.5 oz. Collection cup with pour spout and temperature strip, polypropylene	500
10513	6.5 oz. Collection with temperature strip, polypropylene	500
10122	8.0 oz. Collection cup with pour spout, polypropylene	525
10126	8.0 oz. Collection cup with pour spout and temperature strip, polypropylene	350

## CAPITOL VIAL CUSTOMIZED COLLECTION AND TRANSPORT KITS

We can customize foil tops, biohazard bags, evidence tape seals and kit boxes with your

company logo and instructions for use upon request. (Minimum quantities required)

SKU	Description	Quantity/Case
98027	Post accident kits, (48/case optional packaging available)	Quote
95025	Blood collection kit (generic)	Quote
98047	Hair collection kit (generic)	Quote
93029	Hair and urine single box kits (6/case optional packaging available)	Quote
91024	90mL Single specimen collection kit (generic)	Quote
91020	90mL Single specimen collection kit with evidence tape (generic)	Quote
93030	Single urine box kits, 45mL container	50
91200	Single urine foil kits	50
94016	Split urine foil kits with box	48

## CAPITOL VIAL DRUGS OF ABUSE TESTING SUPPLIES

SKU	Description	Quantity/Case
35101	Fahrenheit temperature indicator strips	30/Bag
35105	Celsius temperature indicator strips	30/Bag
20338	Dual pocket specimen transport bag*	3000
20315	Dual pocket specimen transport bag with absorbent sheet*	1000
30109	Absorbent sheets, 3" x 4"	100
70303	2" x 2" Sterile gauze pad, 8 PLY	100
70459	Alcohol prep pad	200
70461	PVP iodine prep pad	100
70464	Tourniquet	10
98047	Envelope, generic hair specimen	100
10005	5-up strip cup for Hitachi® analyzers	800
10010	10-up strip cup for Olympus® analyzers	400

\* Customized printed biohazard bags available, minimum quantity required.

## CAPITOL VIAL 10ML AND 12ML TRANSPORT TUBES AND CAPS

### 10mL Features:

Primary application – Serum transport

- Graduations in 1mL increments up to 8mL
- 15mm OD x 86mm length, polypropylene
- Freestanding, round bottom with skirt

### 12mL Features:

Primary application – Urine transport

- Etched fill lines at 5mL and 8mL

- 15mm OD x 96mm length
- Freestanding, conical bottom with skirt
- Available in amber color for light sensitive samples

### Cap Features:

- Caps fit 10mL and 12mL threaded transport tubes
- Available in 5 colors

SKU	Description	Quantity/Case
S40100	10mL Clear threaded polypropylene transport tubes (screw caps sold separately)	2000
S40610	12mL Clear threaded polypropylene transport tubes (screw caps sold separately)	2000
S40653	12mL Amber threaded polypropylene transport tubes (screw caps sold separately)	2000
S40200	Red polyethylene screw caps for 10mL and 12mL transport tubes	2000
S40201	White polyethylene screw caps for 10mL and 12mL transport tubes	2000
S40202	Blue polyethylene screw caps for 10mL and 12mL transport tubes	2000
S40203	Green polyethylene screw caps for 10mL and 12mL transport tubes	2000
S40204	Yellow polyethylene screw caps for 10mL and 12mL transport tubes	2000

### Pre-Assembled Tubes and Caps

S40300	10mL Pre-capped clear serum transport tubes with red screw caps	2000
S40301	10mL Pre-capped clear serum transport tubes with white screw caps	2000
S40302	10mL Pre-capped clear serum transport tubes with blue screw caps	2000
S40303	10mL Pre-capped clear serum transport tubes with green screw caps	2000
S40304	10mL Pre-capped clear serum transport tubes with yellow screw caps	2000
S40600	12mL Pre-capped amber serum transport tubes with yellow screw caps	1000
S40714	12mL Pre-capped clear serum transport tubes with yellow screw caps	1000

## SAMCO SCIENTIFIC SPECIMEN CONTAINERS FOR URINE COLLECTION

Ideal for collection of urine for drugs screening in the workplace or criminal justice system. ID Label with liquid crystal thermometer strips

(90 -100°F) affixed to cup. Sterile and Non-sterile indicator tab helps assure product sterility and tamper evidence protection before use.

SKU	Description	Quantity/Case
02 1016	90mL Sterile specimen container with temperature strip and 53mm white Bio-Tite® screw cap	300
02 1106	90mL Non-sterile specimen container with temperature strip and 53mm white Bio-Tite screw cap	300

## CAPITOL VIAL ROUND BOTTOM SAMPLE TUBES AND PLUG CAPS

- Tubes are available in Polystyrene and Polypropylene
- For general sample collection, storage and transport
- Use with 12mm or 16mm plug style caps
- Available both sterile and non-sterile

SKU	Description	Quantity/Case
<b>Pre-Assembled Tubes and Caps</b>		
S40122	12mm x 75mm Round bottom polypropylene sample tubes	1000
S40123	12mm x 75mm Round bottom polystyrene sample tubes	1000
S40125	16mm x 75mm Round bottom polypropylene tubes	1000
S40126	16mm x 75mm Round bottom polystyrene tubes	1000
S40120	16mm x 93mm Flat bottom transfer tubes	1000
10133	Universal tube plug, yellow, fits 12mm – 16mm tubes	10,000

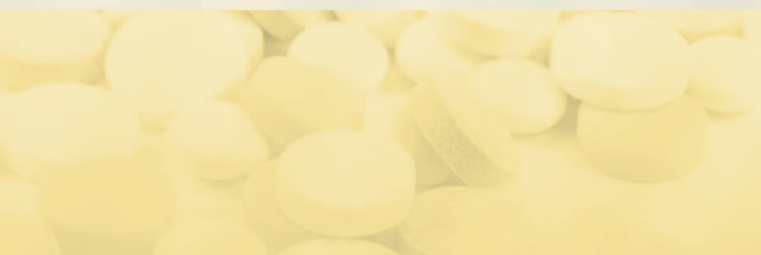

## CAPITOL VIAL URINALYSIS TRANSPORT SYSTEMS

Capitol Vial urinalysis transport systems consists of a proprietary preservative tablet, 12mL transport tube, yellow screw cap closure and fill line label. The tubes have a conical bottom with a skirted freestanding base.

Amber color tubes are available for light sensitive specimens.

- Stabilize urine specimens for up to 72 hours
- Constructed of virgin polypropylene for high clarity
- Available in amber color for light sensitive specimens

SKU	Description	Quantity/Case
S40814	12mL Urinalysis transport system with clear tubes, preservative tablet and cap	1000
S40824	12mL Urinalysis transport system with amber tubes, preservative tablet and cap	1000

## ASK ABOUT OUR KITTING SERVICES

We have the flexibility to kit self manufactured products, sourced products or a combination of both. Our experience and dedicated staff can rapidly implement kitting services to meet your organizations needs.
