

A. JAY SERVICES^{Ltd}
audio Visual solutions

In a world where effective communication is essential to every business, A Jay Services can meet **all your audio visual requirements**, utilising technology and creativity to deliver **outstanding solutions**.

About Us

A Jay Services Ltd (AJS) was founded in 1987 as a Multimedia company. Due to increased business demands from our customers, **we expanded our offering in both the corporate and private sectors** and we now employ **a large number of skilled staff members** from both technical and professional backgrounds across the UK and Europe. This means we can provide **an unparalleled level of service in the multimedia arena** and we've gained a well-deserved reputation amongst our clients and in the industry as a result.

Over the years, AJS has established the necessary internal resources and management structure to offer all our clients a high standard of service that today's business environment demands. **Our aim is to build long-term relationships with our clients.** Whether you're a multi-national company, a small business or a household, **we'll provide you with a first class level of service and a commitment to meeting your unique needs.**

Our team provides expertise in audio visual design, installation, and maintenance, offering you ongoing support in all fields.

Event Solutions

“We work within our client’s budget and will consult on all equipment necessary to achieve a great outcome in a cost effective manner.”

(Events team, ‘AJS Events’)

Ensure your corporate event or themed function runs seamlessly with our [fully managed event services](#). AJS can help you plan the audio visual aspect of your function as well as provide all the equipment you need and place a technical team on site to ensure everything runs smoothly. We also offer [specialist services](#) such as set design and corporate video production, amongst many other related services. Should you require these, AJS event specialists can help you plan and run your next function. Whether it’s an Annual General Meeting (AGM), smaller internal event, cocktail party, or large-scale product launch – [we’ll take care of every detail](#).

Our full event service includes:

- Venue assessment / inspection
- Specification of all the necessary equipment and general function layout
- Supplying, setting up and testing all the necessary equipment
- Management of all communication links
- Full event support by qualified and experienced technicians
- De-rigging / post event maintenance services
- Corporate video / photography production (when required)
- Post production meeting and results / summary

THEMED EVENT SOLUTIONS

AJS provides a [full array of themed event solutions](#) and conference services. Our team will work closely with you to best interpret the mood of the evening, themed event, or daytime AGM. We can create any atmosphere by providing you with the [very latest in specialised event lighting, effects, set design, and audio visual technology](#).

Our staff will provide you with expert assistance throughout your event, [ensuring peace of mind throughout](#).

Typical events we specialise in:

- Award ceremonies
- Exhibitions
- Product launches
- Product promotions
- Business seminars
- Corporate events
- Networking events
- Cocktail parties
- Public opinion polling seminars

Through concise delivery, we aim to achieve maximum impact.

VIDEO RECORDING SERVICES

AJS has access to the latest video recording and editing technology. Thanks to years of experience in producing corporate and training videos, our team will ensure that your message is communicated clearly and professionally, and that your brand image is adhered to.

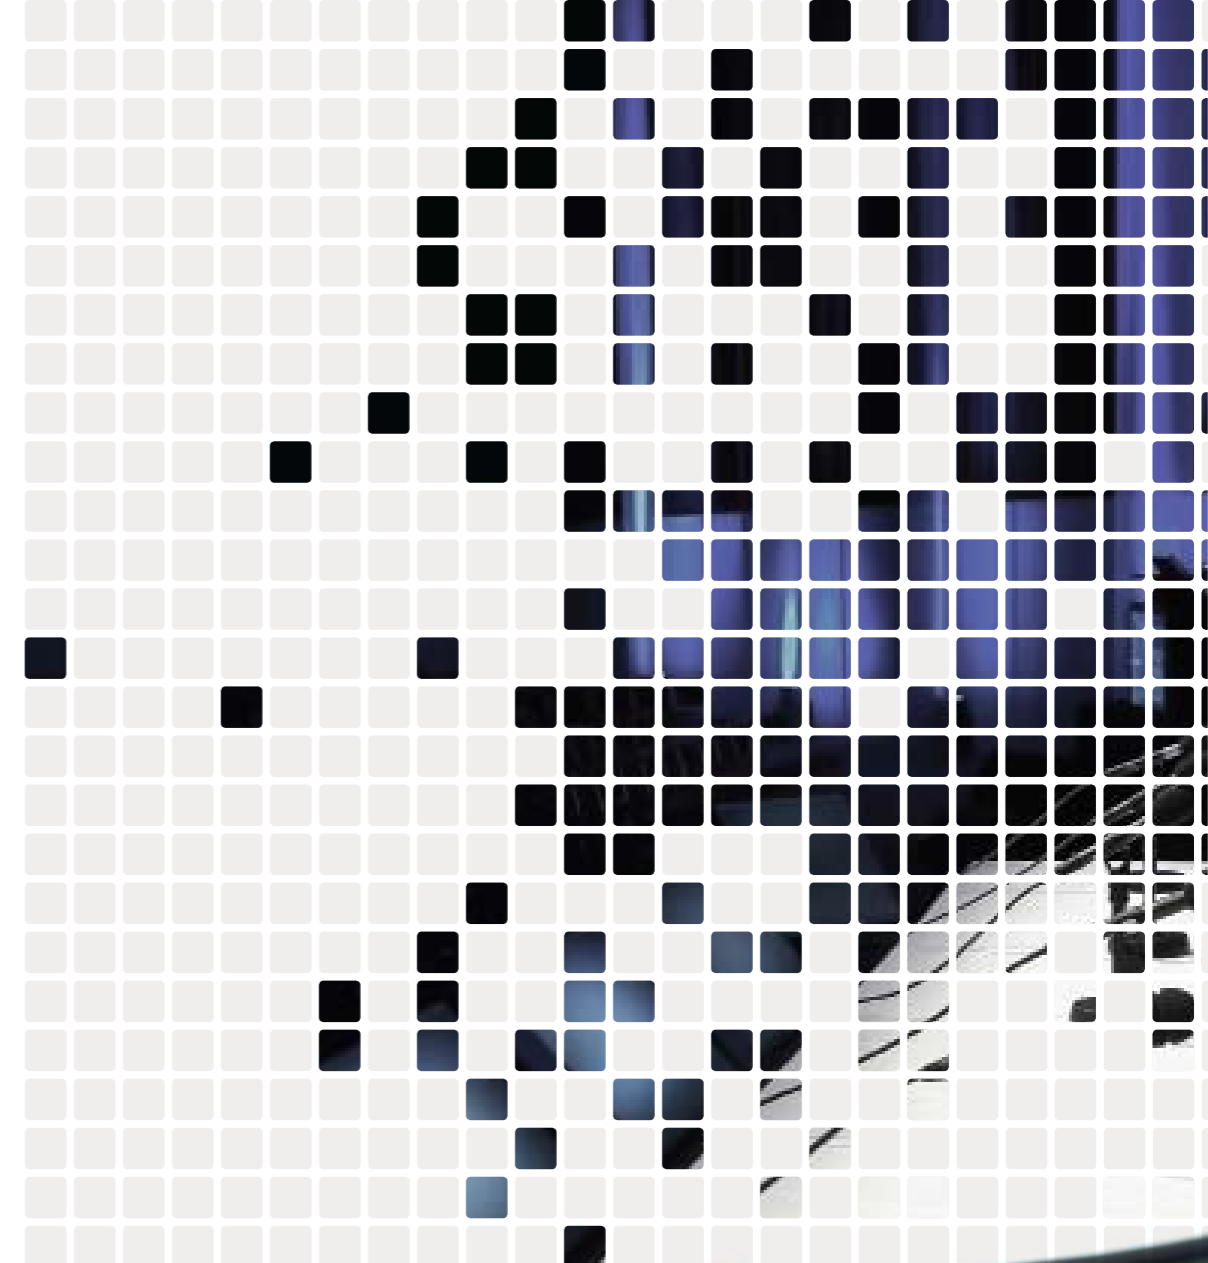

Take advantage of our live recording and editing service, by giving delegates a copy of the event as they leave.

CORPORATE PHOTOGRAPHY

AJS provides a complete photography service. Thanks to years of experience photographing high-profile events, we can provide you with a [highly professional photographic product, in whichever format you require](#). Our services extend to consulting on all approaches and applications of the photography sector to best serve our clients' needs and manage their expectations.

Installation Services

Let the latest technology work for you.
Ask AJS to create a bespoke audio visual solution for your business, event or home.

At AJS, we understand the necessity for a precise and timely AV installation.

Whether you need a simple AV installation, a fully integrated AV suite, or a solution for your entire building's communication infrastructure, AJS is highly regarded in the industry for our **excellent service and flexible approach**.

FULLY INTEGRATED AV SUITES

Ask us to consult on incorporating all of your technology into one user-friendly touch panel control system. Call our Installations Manager to arrange a free survey to best assess your requirements.

ROOM CONTROL / HOME AUTOMATION

AJS can incorporate all of your equipment into a touch panel/Crestron/AMX system with a sleek ergonomic design. The control interfaces we use **allow for a wide range of AV equipment from multiple manufacturers to be controlled by one system**. This enables full control from one source in either one location or as many locations as you require.

AJS provides **a complete end-to-end AV installation service**. We'll work closely with you to best understand your vision – creating as discreet a system as you require. With innovative design and immaculate finish, your home is truly your castle.

HOME INSTALLATIONS

We specialise in:

- Full home automation
- Home cinemas / theatres
 - Bespoke room design
 - Supply of furniture
- Audio/video distribution around the home
- Satellite/TV signal distribution
- Lighting control

HOME ENTERTAINMENT TECHNOLOGY HAS NEVER BEEN MORE AFFORDABLE OR USER FRIENDLY!

AJS can incorporate all your communication needs into a complete building management solution – offering support, supply, maintenance and consultancy services for your entire communications infrastructure.

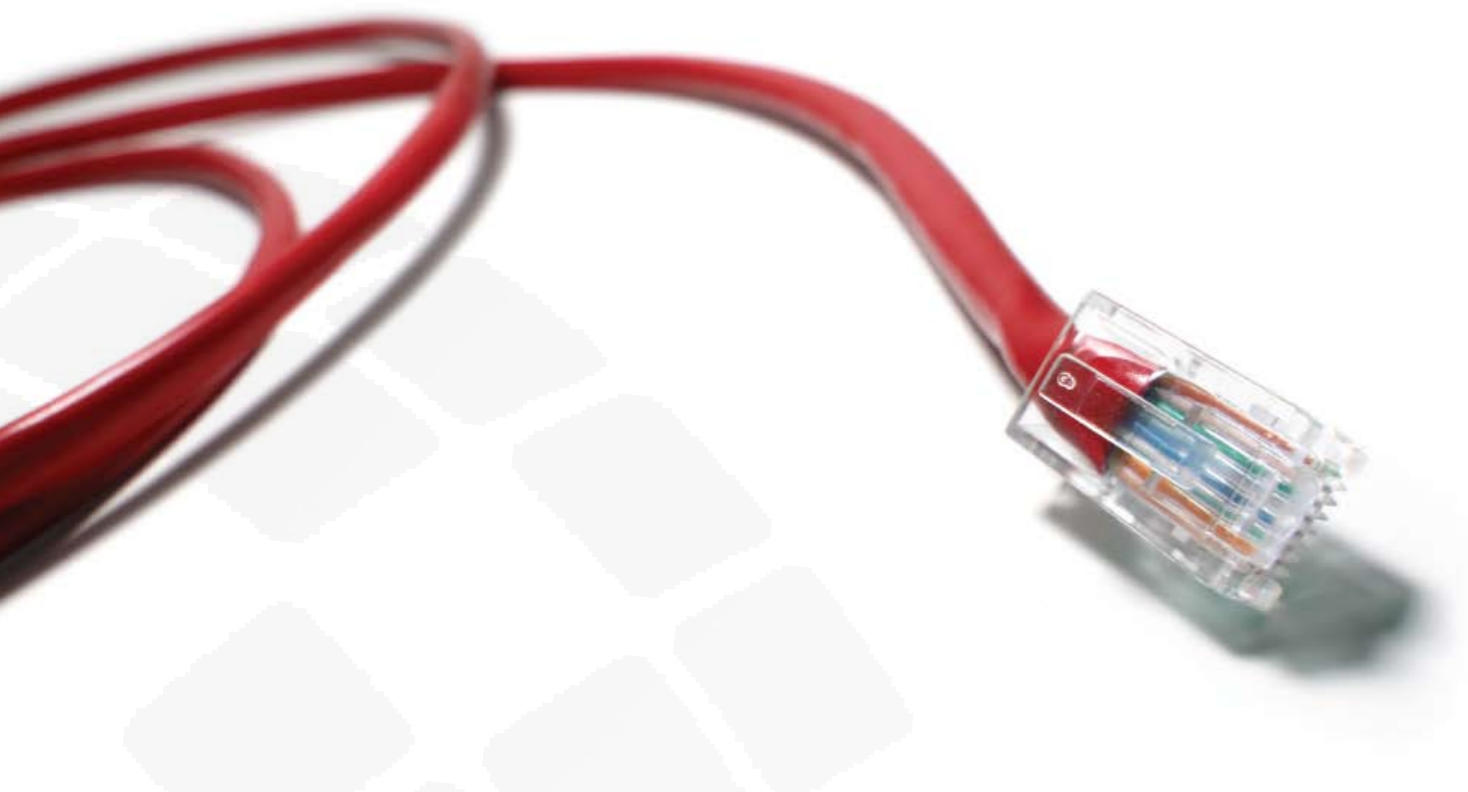

DOOR ACCESS & CCTV INSTALLATION

AJS provides door access systems for both the corporate and private sector, which prevent unauthorised personnel from gaining access into your premises or gaining access to areas within your premises that they're not authorised to enter. AJS also installs CCTV systems for staff management and external security purposes.

HOTELS / SCHOOLS / PUBLIC SECTOR

In 2008, AJS aligned its services with various trades so we could offer competitive pricing in regards to securing public sector contracts or supporting our larger clients. We are pro-active in our approach to source large organisational maintenance and support contracts by keeping abreast of all work being published by the public sector and various private tender journals.

Hire

With our wide selection of AV equipment, you can transform your vision into reality.

AJS has an extensive range of [audio visual equipment available for hire](#) on a day-to-day or long-term basis. Whether you are hiring equipment for a small meeting room or a large-scale function, our highly qualified teams can advise you on [the most suitable equipment for your needs and budget](#). Our hire team can install all the necessary equipment and provide full [technical support](#) if required.

We provide everything from projectors and basic AV packs to the very latest in specialised lighting and AV technology for themed and large-scale events.

Basic Hire Pack 5:

- Projector
- Projector screen
- Laptop
- Staging
- Lectern
- PA kit – small/medium
- Wireless microphone
- Wireless mouse presenter
- Lighting

Typically for exhibitions/shows

[Visit our website for more information on our 'Hire packs'.](#)

AJS also stocks a wide range of presentation and audio equipment for hire purposes. From fast-fold screens to LCD, LED and Plasma displays, lapel microphones to multi-channel mixing desks.

CORPORATE HIRE

AJS can meet all your corporate event hire requirements, thanks to years of experience in event management.

With state-of-the-art equipment for hire, your event is sure to be a success!

- Lecterns & podiums
- Microphones & receivers
- Boundary microphones
- Rear projection, video walls & projection screens
- 5000+ ANSI LUMENS projectors
- Staging
- Sound desks
- Audio hire incl. mixing desks
- Interactive white boards
- AV amplifiers
- Sound equipment / PA systems incl. speakers & stands
- Set props
- Sound & stage lighting rigs

TECHNICAL SUPPORT

In addition to providing equipment for hire, AJS has [specialised personnel to fulfil every audio visual requirement](#) at your event, meeting or function.

When it comes to technical support, everyone on our team is a CTS-registered technician with a high level of experience in meeting the needs of corporate clientele. We'll work closely with you to establish the focus of your event and be there throughout to monitor all communication links and provide full support. This way, we'll ensure that [every aspect of your event runs smoothly](#) and any unforeseen issues are dealt with as and when they occur.

Everyone on our support team is a CTS-registered technician.

Reduce your travel costs and **carbon footprint** with our ever-growing selection of audio conferencing solutions.

AV Services

VIDEO CONFERENCING

Video conferencing is now an essential communication tool for most organisations – not to mention a great way to reduce your travel costs and your carbon footprint. Video conferencing is no longer a standalone technology and AJS provides solutions to match business requirements over IP and ISDN. AJS also provides the very latest in HD video conference solutions along with all maintenance and training requirements.

Our video conference specialists will recommend products that best suit you and your business; and **all our solutions are tailor-made to match your budget**. We're able to offer everything from affordable desktop solutions to fully integrated video conference suites.

For all your video conferencing diagnostic needs, connect to our video via ISDN/IP to establish whether all video and audio signals are being sent and received from your video conferencing unit/network.

AJS is an authorised Polycom reseller. As an authorised Polycom reseller, we can supply, install, and maintain all Polycom Voice and Video Conferencing products.

VOICE SOLUTIONS

We have a wide range of audio conferencing solutions to suit a variety of environments and budgets. We can consult on **all voice applications** from small conference venues to large, full scale, heavily weighted audio conference calls.

DIGITAL SIGNAGE

Digital signage is revolutionising the way companies are displaying their information. Due to its flexibility and ease of use, digital signage has an advantage over traditional static signs, because [the content can be updated in real-time and displayed in a wide variety of formats.](#)

Digital signage is now present in shopping centres, hospitals, cinemas and schools in the form of information boards and LED walls.

AJS can consult on how digital signage can help you communicate information to a wider audience.

AV DISTRIBUTION NETWORKS

With over 20 years of experience in this field, our technical team has the knowledge and skill to meet all your television installation and satellite reception needs.

No matter whether you want to install an antenna at home, play news channels in your office reception area, or air a sporting event at a large function venue, [AJS will make it happen.](#)

- Free surveys / estimates / quotations
- Network installations for multiple displays
- Small to large multipoint distribution over both RF and structured cabling
- Networking of Cat5/6 audio and video distribution networks for TV, video and digital signage

WORLD TIME ZONE CLOCKS

Digital / analogue world time zone clocks are in place in many organisations, enabling them to accurately [transact with world markets.](#) From typical lobby and executive office clocks to floor-wide digital data streaming, AJS can advise you on the best solution for your business – as well as supply, install, and maintain any system.

This unique and easy-to-use technology is revolutionising education, training, marketing and communication.

VOTING SYSTEMS

Power Vote Systems

The Power Vote system gives you the power to [host a vote in any given situation](#), such as a training event or marketing seminar. Voting is done via a remote voting receiver, which can be used up to 50m away. We can provide voting systems for up to 2000 participants.

The Software

Voting with Power Vote couldn't be easier. The software can be fully integrated onto your computer and run in sync with MS PowerPoint, automatically generate results within MS Excel and summarise your vote almost immediately. This enables you to give results back to the audience or easily summarise after the event.

Voting keypad

- Wireless keypad
- Dimensions: 110mm x 50mm x 8.5mm
- Battery life: 12 months depending on use
- Weight: 42 grams
- Multi-channel: 10 channels

AUDIO FREQUENCY INDUCTION LOOPS

The demand for Audio Frequency Induction Loops is growing, as they become more of a requirement in today's busy high streets and entertainment facilities. Cinemas, banks, government agencies, conference halls, corporate environments and English heritage sites are just a few locations where they're now being installed.

Regardless of the location, AJS offers a complete end-to-end solution to [ensure that important and relevant information is communicated at all times to all people](#).

CONSULTANCY SERVICE

AJS offers a broad range of AV consultancy services. Our consultants have a wealth of experience in providing bespoke AV solutions for a wide range of clients. We offer a stand-alone consultancy service or as part of your overall AV installation, hire package or maintenance contract. Consultancy is something we pride ourselves in as it shows a wealth of knowledge, experience and an understanding towards our clients' needs.

MOVES AND CHANGES (MACS)

The relocation of AV equipment can be costly, time consuming and even disastrous if the wrong people are entrusted with the job.

AJS offers a 'Moves and Changes' service which ensures that the relocation of your valuable equipment is done safely, professionally, and quickly to avoid down time.

[AJS assists with every aspect of the move](#). We're available 24/7 and employ expert electricians and technicians, have access to off-site storage, and can provide all the consumables required for the moving process.

“A cost effective solution with outstanding service and support.”

Our Partners

“A Jay Services endeavours and succeeds in providing us with a first class service for installation projects, support and maintenance. That, combined with excellent value for money results in a very positive customer experience.”

“The staff members are friendly and approachable; and also have an extensive history within the industry, coupled with an incredibly professional attitude.”

When it comes to protecting
the environment, we are
leading by example.

SETTING A GREEN EXAMPLE

Manufacturers and retailers that place electrical equipment on the EU market are now legally responsible for the environmental impact of their products.

AJS is at the forefront of the industry regarding the environmentally responsible disposal of unwanted electrical items, waste packaging from computer / LCD screens, and all other types of industrial and electrical office waste.

We send all our electrical waste to an environmental agency for strip-down and recycling. Polystyrene is turned into powder to act as a medium and mixed with organic fertiliser to distribute onto fields; plastic is processed for recycling into ordinary items such as plastic cups or non-lead pencils; and cardboard is recycled to create cardboard boxes and brown paper.

Excellent customer relations, honesty and passion within the workplace are absolutely essential for growth.

A MESSAGE FROM OUR M.D.

Dear Client,

I'm the Managing Director of A Jay Services Ltd (AJS). I founded the company in 1987, believing that excellent customer relations, honesty, and passion within the workplace are absolutely essential for growth within any industry. These beliefs have always been part of the company and are why AJS has grown in stature year in year out since it was formed.

I fully understand that without excellent customer relations, we wouldn't be where we are today. This is something I remind myself of on a daily basis and constantly relay to my staff, ensuring we always give 100% to you.

In order to get custom, you must first prove to the industry you're fully capable of delivering a timely and highly professional service.

Our employees ensure that each project is completed on time, to absolute perfection, and exactly to your requirements.

Working with you, for you.

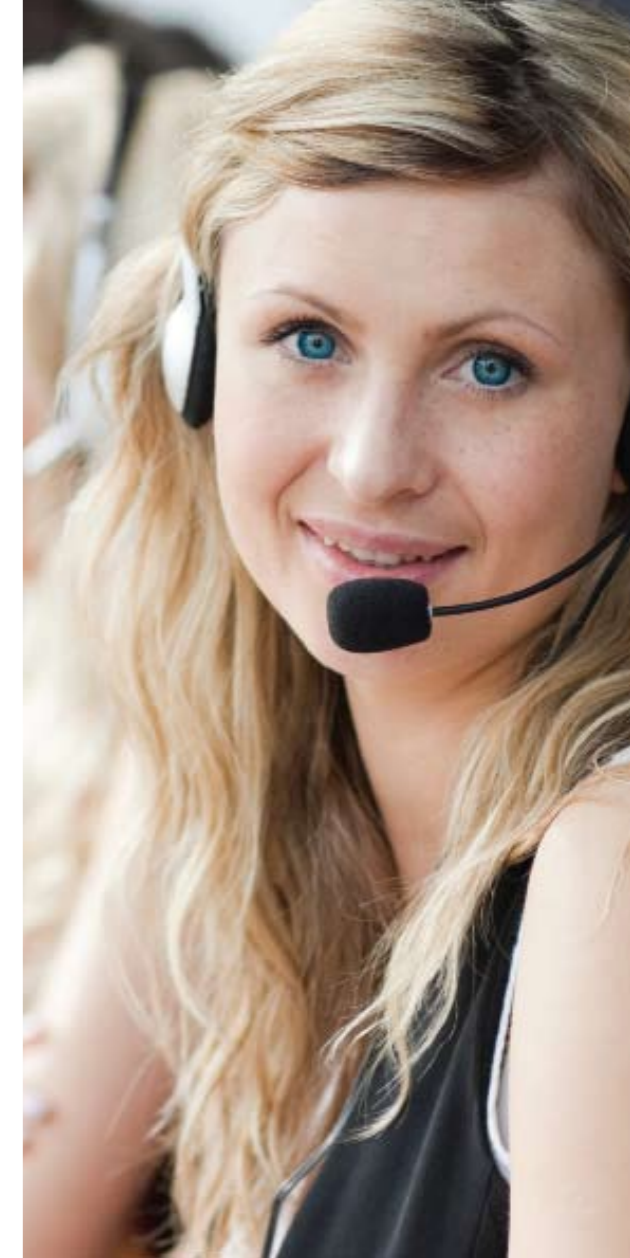

I am extremely passionate about this company and the AV industry; and I'm always looking at how AJS can create opportunities for our clients and our staff.

We look forward to building a fortuitous working relationship with you.

Yours truly,

Andrew Tucker
