We are always looking to ensure the wood used to make our products comes from the most sustainable sources available.

Certain MFC colours can be supplied as FSC Certified on request. Simply look out for the FSC 'ticktree' logo in this brochure.

The mark of responsible forestry

Wood sourced from responsibly managed forests

Assisting with responsible sourcing of forest products

Campaigning for better public toilets for all

Cubicle Centre Ltd is a family run business, now celebrating over a decade of supplying washroom products manufactured to the highest standards.

Year on year growth of sales has enabled continual investment in the latest manufacturing equipment and expansion of our 20,000 sq ft premises.

It is from this facility in West Yorkshire where all orders are dispatched to sites throughout the UK mainland.

An extensive range of toilet cubicles and washroom systems are available on a manufacture and supply basis – all designed to allow for simple installation by any competent tradesman.

Both standard and made to measure products are offered to provide you with a solution to any washroom project.

To complete your washroom we have now introduced [plumbware.co.uk](http://plumbware.co.uk) - a range of sanitary ware and washroom accessories available to purchase with your order.

Cubicle Centre Ltd provides an unrivalled level of service, not only throughout your design and selection process, but also during and after sales.

Our friendly team are always on hand to answer your enquiries. Contact us on:

Cotswold	High	CGL / Rounded (Black)	1500mm	1980mm	Robust (Powder Coated)	Wide choice
Zest	Medium-High	MFC / 2mm PVC	1800mm (max)	2100mm	Robust (Powder Coated)	6 colours
Brecon	Medium	MFC / 2mm PVC	1500mm	1955mm	Powder Coated	11 colours

## Material Guide

### Compact Grade Laminate (CGL)

Constructed from multiple layers of high quality kraft paper, reinforced by thermosetting resins under high pressure and temperature. This produces tough, high density, totally waterproof and hygienic panels that have a high level of strength.

All visible CGL panel edges are machined to a smooth round profile.

CGL is the ideal choice for washroom and changing room areas that have very high traffic, robust and wet conditions.

### Melamine Faced Chipboard (MFC)

Melamine Faced Chipboard incorporates two decorative melamine surfaces bonded to both sides of high density, moisture resistant chipboard under high pressure and temperature.

All visible MFC panels have impact resistant, PVC edging applied.

MFC is a cost effective, hygienic and lightweight solution for all non-wet toilet areas.

### High Pressure Laminate (HPL)

Constructed from layers of high quality kraft paper, reinforced by thermosetting resins under high pressure and temperature with one decorative surface. The result is a hygienic 0.8mm thick flexible sheet material.

HPL is bonded onto a high density coreboard to produce a strong finished panel. Panels can be post-formed to create a seamless, curved edge detail.

HPL is suitable for use in areas of high traffic and reasonably robust conditions.

Now available with Cream Partitions and Coffee Doors - Page 25

Three enclosed cubicles requires - x3 Box A (Door Pack) and x2 Box B (Partition Pack)

# Pendle

Technical: Page 24

A box packed toilet cubicle system suited for all dry areas. Comprising of Box A (Door Pack) and Box B (Partition Pack), containing all necessary panels and fittings.

Usually dispatched within 48 hours of order

Box packed for ease of transport and handling

Adjustable on-site

Durable panels with tough PVC edging

Three colour options - Grey (above), Cream or Woodgrain

Indicator Face

Cubicle Leg

Cubicle Latch

Full-Height Hinge

# Pennine

Technical: Page 26

Suited for use in dry areas where function and price are the most important factors. Pennine offers all the key functional qualities required for a practical washroom environment.

## Fast-Track

## Vanity Units

Vanity Units are made to measure and available as either Inset (550mm deep) or Semi-Recessed (350mm deep) options.

Vanity tops are 20mm thick with a High Pressure Laminate (HPL) finish as standard.

Under panels are constructed from high performance MFC as standard or CGL panels with a CGL vanity kit.

The new, unique design removes the need for a timber frame, saving you both time and money.

Overall vanity height is 850mm (standard) - this can be altered to suit your individual requirements.  
**PLEASE NOTE: Vanity Units are supplied in kit form for self-assembly.**

See page 35 for technical details.

## Wall Panel Systems

Full height wall panel systems can be supplied to match your cubicle colour configuration.

Panels are Melamine Faced Chipboard (MFC) as standard, with a protective PVC edging.

For areas prone to a wet environment, such as changing rooms, Cubicle Centre can supply CGL wall panel systems.

Panels come flat-packed, complete with all flash-gap material and suspension fitting components.

Overall system height varies according to your ceiling height.

See page 36 for technical details.

Timber frame supplied by other

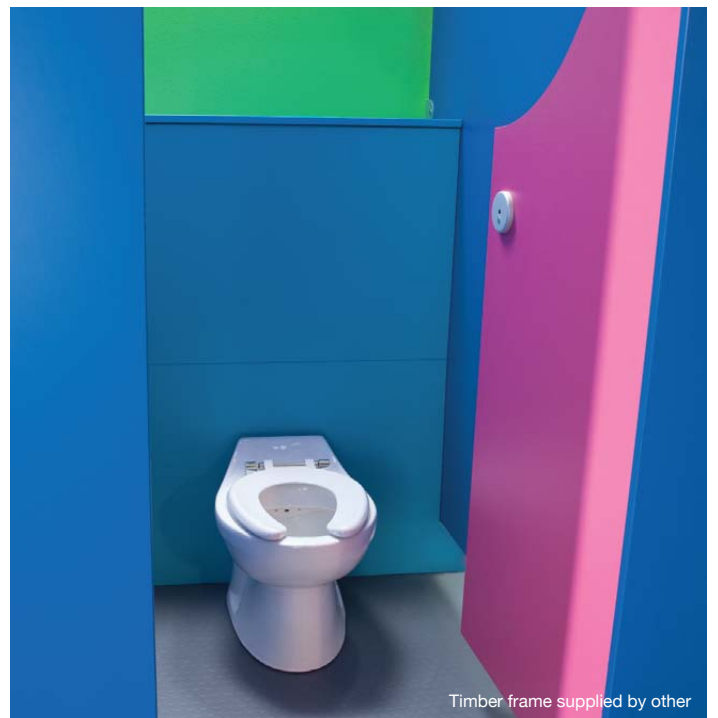

## Cistern-Box Kits

Cistern-Box or 'half-height' kits are available as an alternative to the full height option.

Available in MFC or CGL, Cistern-Box Kits measure 1200mm (high) x 300mm (deep) as standard, and fit your internal cubicle width(s).

This product can also be manufactured to suit your individual site requirements, simply provide us with your measurements.

# Bench Seating

For a complete changing room area, Cubicle Centre can now supply made to measure bench seating.

Standard bench seating consists of square section (25mm) steel supports, in a black powder coated finish. These support a robust Compact Grade Laminate (13mm thick) top which is completely water resistant.

Various non-standard types of bench seating can be made to order, such as 'island' systems complete with coat hook supports - contact us to discuss your requirements and to obtain a quote.

Cubicle Centre Ltd can now supply you with a complete range of **sanitary ware** and **washroom products**.

These products can be purchased with your cubicle order.

For product details and prices visit:

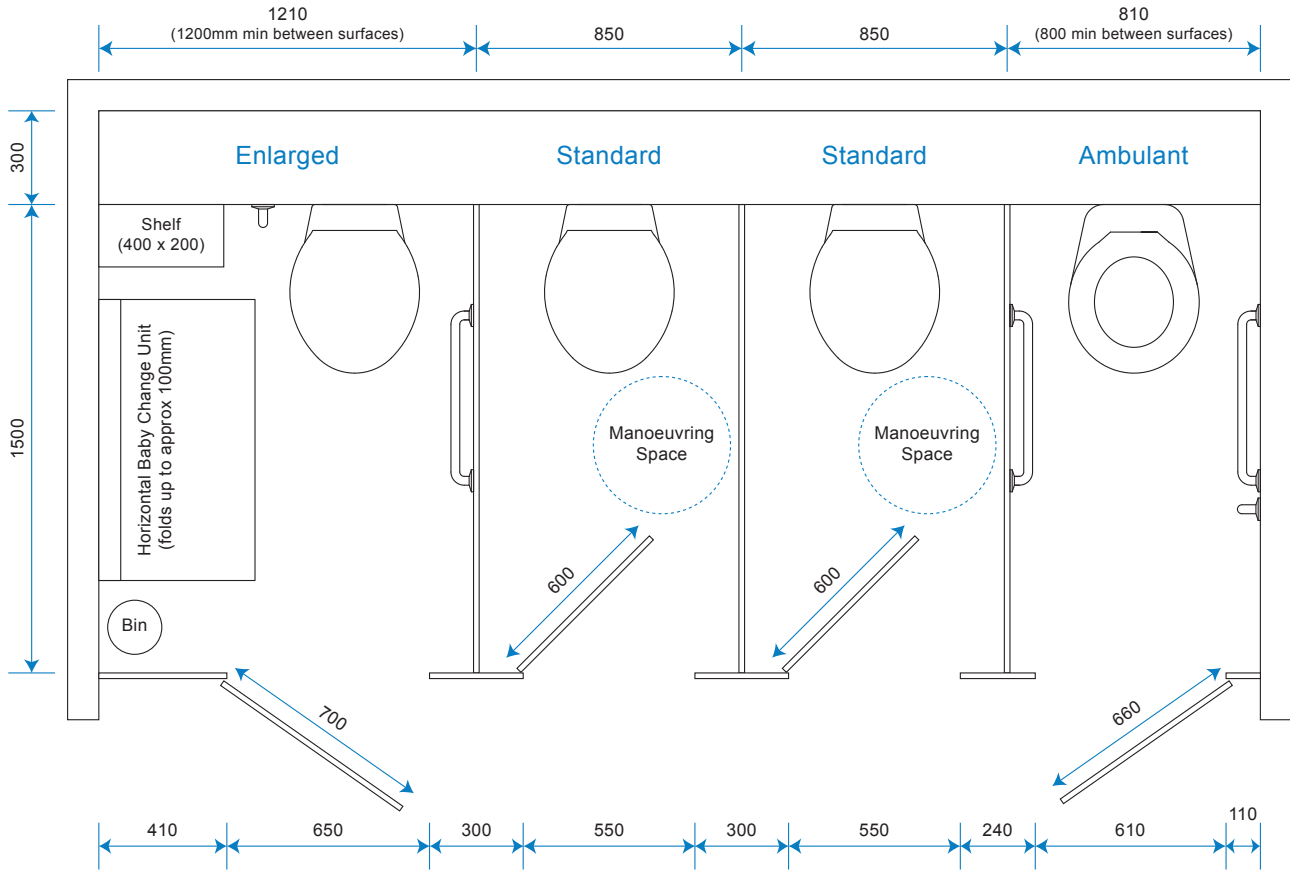

[plumbware.co.uk](http://plumbware.co.uk)

Most items are held as stock however, for non-stock items we will always aim to dispatch within 7 working days

# Toilet Cubicle Sizes (Universal Access Guidelines)

## Enlarged WC Cubicles:

Where there are 4 or more cubicles in a washroom, one of these must be an enlarged cubicle.

Enlarged cubicles must be a minimum width of 1200mm and include an outward opening door.

A horizontal and vertical grab rail set is required around the WC.

## Standard Toilet Cubicles:

All standard cubicles must now have a minimum of 450mm diameter manoeuvring space within the cubicle.

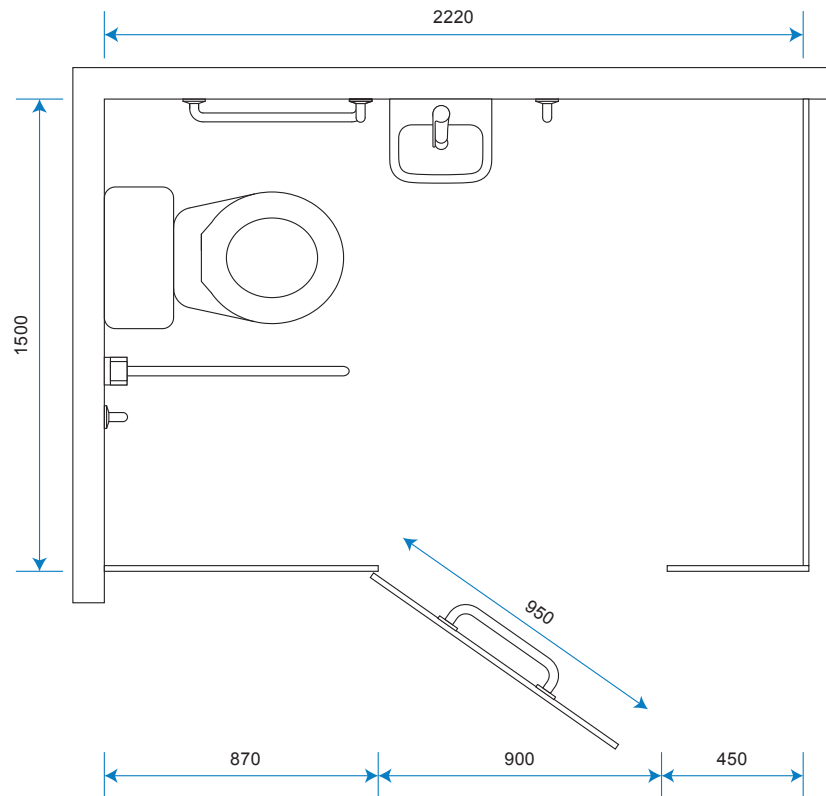

Indicator-bolts must be capable of being operated with a closed fist (single action) - and doors must allow for emergency access should the user collapse and become trapped in the cubicle.

## Ambulant Disabled Cubicles:

Every same-sex washroom must have at least one wc cubicle that is suitable for the ambulant disabled.

If there is only one cubicle in the washroom this must be suitable for an ambulant disabled person.

The ambulant disabled cubicle must include an outward opening door.

### Wheelchair Accessible Cubicles:

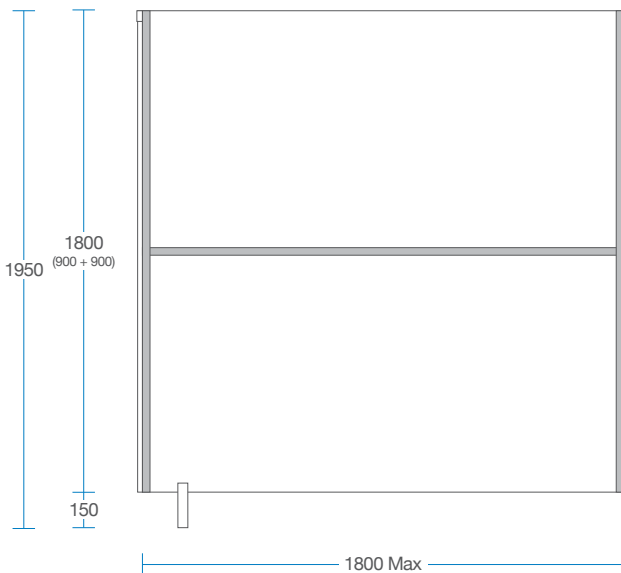

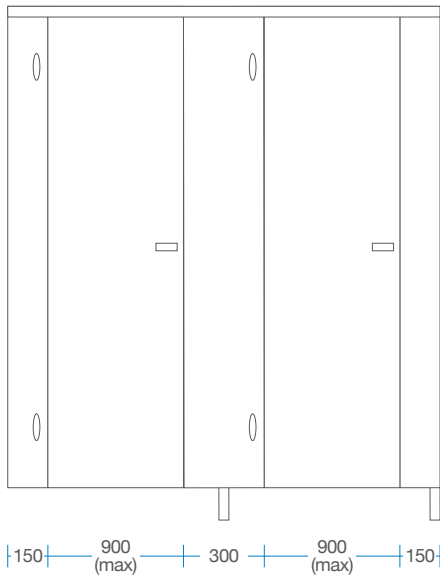

The wheelchair accessible layout has been modified to accommodate an overall toilet cubicle length of 2220mm (previously 2000mm).

The door opening needs to be 900mm with a 950mm (wide) outward opening door.

Doc-M Packs are available from the [plumbware.co.uk](http://plumbware.co.uk) range of washroom accessories.

Adjustments can be made to cubicles to suit site requirements by reducing doors and partitions on-site. The cut edges are protected by full-height door and wall channels.

**Every DOOR requires a BOX A**  
**Every PARTITION requires a BOX B**

## Manufacturer

Cubicle Centre Ltd, Unit 33 Caldervale Business Park, Ravensthorpe, West Yorkshire, WF13 3JL

## Frequently Asked Questions

### Do you offer a fit-out service?

Cubicle Centre manufacture and supply only.

Our washroom systems are designed to be easily constructed by any competent tradesman.

### Can I buy replacement / spare parts?

Spare parts can be supplied with your initial order on request, at extra cost.

Replacement parts will only be sold for Cubicle Centre washroom systems.

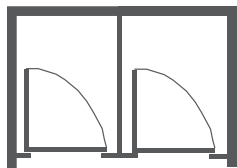

### What is the recommended minimum size for a toilet cubicle?

750mm (wide) x 1500mm (deep)

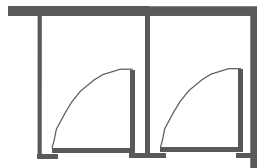

See page 21 for Universal Access Guidelines.

### What is the 'cubicle configuration'?

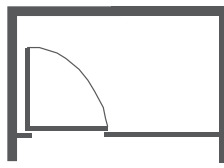

We need to know which of the following four situations your cubicles will be fitted in:

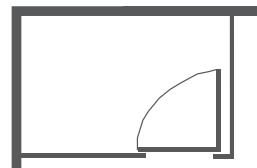

Enclosed  
(between walls)

Corner

In-Line

In-Line with Return

### What is your budget range of toilet cubicles?

Pennine offers a practical washroom solution for those with a low budget.

See page 4 for Cubicle Product Guide.

### I need some cubicles urgently...

The Pendle cubicle system is usually dispatched within 48 hours of order. See page 6 and 23 for further details.

To order this Box Packed Cubicle System contact us on Tel: 01924 457600

### How do I get a quote?

Due to the majority of products being made to measure, pricing is on a job-to-job basis.

Email ([sales@washroomcubicles.co.uk](mailto:sales@washroomcubicles.co.uk)) your washroom requirements to us along with a drawing or sketch and we'll do the rest.

Alternatively, complete a Quotation Form available in PDF format from - [www.washroomcubicles.co.uk/downloads.html](http://www.washroomcubicles.co.uk/downloads.html) - and

Fax it to us on 01924 437600.

### How quickly can I have my order?

Lead times can vary from 7 working days to 10-15 working days depending on your specific requirements.

**PLEASE NOTE: Lead times may increase during busier periods of the year (I.E. school holidays)**

**Those looking to refurbish washrooms during school holidays are advised to place their order several weeks beforehand.**

### Which product is best suited for use in shower / changing areas?

The Cairngorm or Cotswold cubicle systems are suited for use in shower / changing areas or in areas that are likely to be subject to a wet environment or vandalism.

### What should I clean the cubicles with?

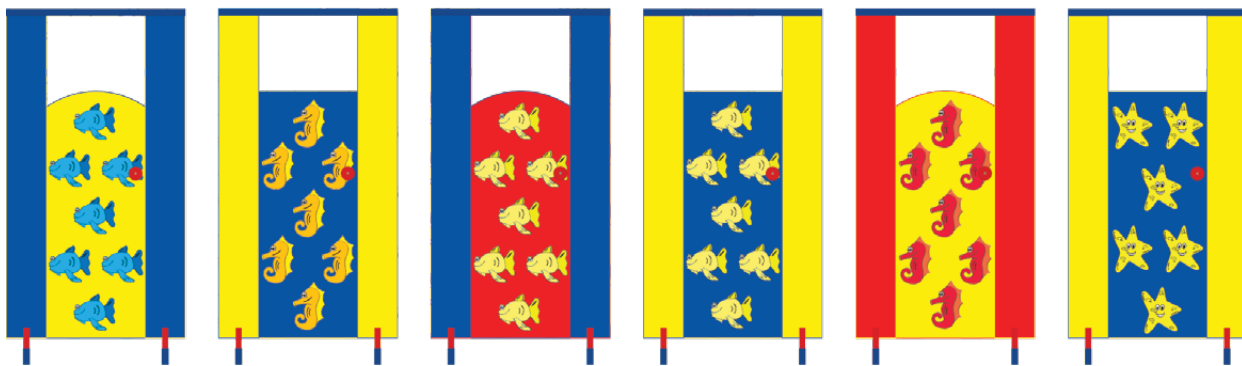

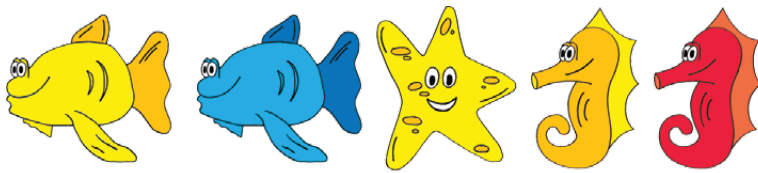

For MFC products, remove general stains and marks with a proprietary non-abrasive bathroom or kitchen surface cleaning solution on a damp cloth. Do not use excessive amounts of water or solution.

CGL products are water proof and can therefore be cleaned more intensely with water and solution.

Avoid scrubbing or using anything with sharp edges in contact with the panels.

### Do you offer screen printed doors for children's toilet cubicles?

Cubicle Centre now offers three sea-life themed designs for Brecon cubicle doors in a water resistant, vinyl sticker format. Stickers are sold separately and are to be fixed to the cubicle doors by the customer.

### Can I open an account?

You may apply to open an account with us.

Account application forms are available from our website: [www.washroomcubicles.co.uk/downloads.html](http://www.washroomcubicles.co.uk/downloads.html)

Unless you currently hold an account with us, all made to measure bespoke items are subject to pro-forma prepayment.

We accept: BACS / CHAPS or

Pendle Toilet Cubicle System - Woodgrain option (available with extended lead time). Woodgrain may vary slightly.
