

frameless lightbox

Graphic Printed Direct to Face

For more permanent applications where size and impact are needed the Frameless is available with the image printed directly to the opal diffuser, giving you stunning graphics and bright even illumination right up to the edge. Available in any size and up to 3m x 2m this can be supplied as a standard light box or designed to fit within internal walling systems.

The light box carcasses are manufactured from either PVC, or aluminium, depending on the size required, with the diffuser manufactured from a 5mm acrylic or fire rated polycarbonate. illumination is via cool white T8 fluorescent tubes and electronic ballasts.
