

The next generation small character ink jet printer!

Specially developed as an alternative to Continuous Ink Jet Technology and Direct Thermal Transfer - the ATD SOLIDJET coder provides sharp, high contrast print with mess free, instant dry, solid ink.

With character sizes from 1mm to 48mm, the SOLIDJET coder is suitable for a wide range of applications including:

FOOD PACKAGES

- PLASTIC WRAPPERS
- CEREAL PACKS
- FROZEN FOOD PACKS
- PLASTIC FILMS
- WAXED CARTONS
- SHRINK-WRAP
- CONFECTIONARY WRAPPERS

- MEAT PACKS
- BAKERY WRAPPERS
- LABEL OVERPRINTING
- CAPS

HOUSEHOLD

- TOILETRIES
- DETERGENTS
- CLEANERS

PHARMACEUTICAL

- PILL PACKING
- BANDAGE WRAPS
- BLISTER PACKS

INDUSTRIAL

- TIMBER
- CONCRETE
- PLASTICS
- TEXTILE

Waxed card

Plastic

Foil packs

Plastic film

SOLIDJET Technical Summary

Image Height:

1mm to 11mm (Full Density Characters) - (15° Angle)
11mm to 48mm (Gapped Characters) (15° to 90° Angle)

Print Resolution:

Vertical: 240 DPI
Horizontal: 150 - 300DPI

Number Of Addressable Channels: 32

Number of Orifices: 192 - 6 per channel

Max Lines of Print: 4

Max Speed: 10 KHz, equates to linear speeds in excess of 3m/sec.

Print: Side On Orientation (Lite configuration ONLY)

Controller: Can be driven from the standard IP9000 or the IP9000 Graphics controllers

Number of Print Heads: 1 or 2

Print Head Running Temperature: 115° C

System Heat Up Time: 15-20minutes from cold.
From sleep mode 5-10 minutes.

Key user benefits:

Industrially rugged design

No factory air

No high pressures, no filter changes

No daily maintenance required

No filter changes

No start up/shut down routine - just on and off

Simple menu driven software

1-4 lines of text

Real time and date and barcodes

Special characters and logos

Print throw distance up to 10mm

Very high speed in excess of 180m/min (540 ft/min)

No recalibration to maintain print quality

Very low running costs compared to CIJ and Thermal transfer systems

Completely safe inks in solid pellet form. Non toxic, non flammable, And odourless

Instant dry inks

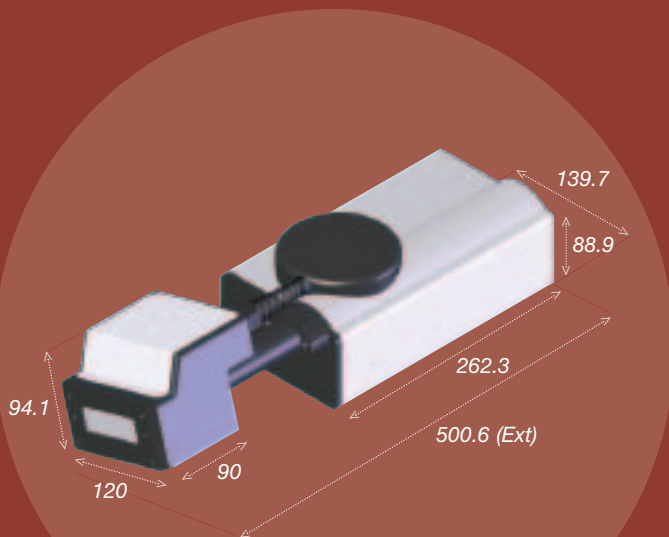

No solvents

No cleaning solutions

No wet spillages

No hazardous storage or handling

3 Year unmatched product warranty.

Printhead dimensions in mm

Controller

Menu driven software
Built in keyboard and display
Wall or bench mounting
Non-volatile memory for message/parameter storage
250 message library (expandable to 300 messages)
8 opto-isolated inputs for external message selection
8 opto-isolated outputs
Shaft encoder and product detector inputs
RS232 Serial Port
Optional 2nd RS232 Serial Port
Optional Centronics Parallel Port
Switch mode Power Supply (UL, VDE & BS approved)
All electrical I/O fully isolated for maximum noise immunity

Ink and Ink Supply System

Non pressurised ink supply system
Ink supplied in 40cc solid pellets
Ink replacement whilst printing
Low ink warning
Smart-prime™ unique quick purge facility
Ink type: Wax

Standard Software Features

5, 9, 14 and 32 dot fonts (1,2,3, or 4 lines of text)
Bolderised print
Inverted and reverse print
Product and batch counters
Real-time clock including Year, Month, Day, Day or week, Julian day, Julian Week, Alpha day (e.g. SUN), Alpha month (e.g. AUG), Hour, Minute
Automatic date offset (for Best Before coding)
Programmable 'roll over' time for shift changes
Barcodes (including human readable characters)
Logo (permanent)
Images (user programmable logos)
