

# PROJECT PROFILE

## Overview

An Class 1000/ISO6 Cleanroom Extension was required for a new project.. Guardtech Cleanrooms were involved from the initial design stages right through to installation and validation of the facility. The extension not only allowed for extra space within the area but include new glazing for optimum viewing and a Pass-through Hatch for material transfer. The Guardline Group continue to provide a range of products and services including regular Deep Cleans and Validations.
